**Time** Briton Hadden, Henry Robinson Luce, 1928 **International Cooperation in the Early Twentieth Century**

Daniel Gorman, 2017-09-21 The early 20th century world experienced a growth in international cooperation Yet the dominant historical view of the period has long been one of national military and social divisions rather than connections International Cooperation in the Early Twentieth Century revises this historical consensus by providing a more focused and detailed

analysis of the many ways in which people interacted with each other across borders in the early decades of the 20th century. It devotes particular attention to private and non governmental actors. Daniel Gorman focuses on international cooperation, international social movements, various forms of cultural internationalism, imperial and anti imperial internationalism, and the growth of cosmopolitan ideas. The book incorporates a non Western focus alongside the transatlantic core of early 20th century internationalism. It interweaves analyses of international anti colonial networks, ideas emanating from non Western sites of influence such as Japan, China, and Turkey, the emergence of networks of international indigenous peoples in resistance to a state centric international system, and diaspora and transnational ethno cultural religious identity networks.
