## Going To War For America:

*How America Goes to War* Frank E. Vandiver, 2005-06-30 With American involvement in Iraq in the forefront of national news coverage and in the minds of many citizens questions concerning America's involvement in past conflicts have once again arisen This is the story of how the United States has gone to war and how the evolution of the nation's war making apparatus has mirrored the nation's rise to global power It focuses on the president's role as commander in chief vis a vis Congress from George Washington to George W Bush Conflicts range from the War of 1812 to the Mexican and Civil Wars the two World Wars conflicts in Southeast Asia and recent wars in the Middle East Topics include Congress's role in various wars the evolution of the War Department to the Department of Defense as well as developments in weapons tactics and strategy Wars have played an integral role in America's transformation from a continental power into a world force Over time America's war making has favored and continues to favor the expansion of the President's role at the expense of the Congress America's future will be determined in large part by the way in which the nation chooses and engages in military pursuits Questions about how and when we go to war have never been so vital or relevant This thought provoking one volume overview serves as a quick introduction to these important issues *America Goes to War* Bernard Rostker, 2007 For more than three decades the United States has relied on an all volunteer force to meet its military needs Today the sustainability of that force is being tested with high levels of deployment and subsequent stress Such an environment raises the issue of how the Department of Defense can continue to manage its personnel This report looks at the history of conscription versus volunteerism particularly in Great Britain France and Prussia to understand when and under what conditions conscription has been used effectively to raise the manpower needed Specifically what actions could the U S Army take to increase the supply of volunteers or reduce the demand for new personnel The report also focuses on the many programs that have been developed to help military members and their families cope during difficult times as well as the particular challenges of understanding which programs work p 4 of cover *God Bless America: Tin Pan Alley Goes to War* Kathleen E.R. Smith, 2003 Neither group however could foresee to what extent the war effort would be defined by advertisers and merchandisers One advertiser described morale as a lot of little things and those little things included beer chewing gum tobacco breakfast cereal virtually every product on the American market Selling merchandise was always the first priority of Tin Pan Alley and the OWI never swayed them from this course **BOOK JACKET** *America's Economic Way of War* Hugh Rockoff, 2012-03-29 This revealing book exposes the influence of economics and finance on how America waged war in the twentieth century **Imagining America at War** Cynthia Weber, 2020-07-24 Ten films released between 9 11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American Tracing the portrayal of America in the films Pearl Harbor World War II We Were Soldiers and The Quiet American the Vietnam War Behind Enemy Lines Black Hawk Down and Kandahar episodes of humanitarian intervention Collateral Damage and In the Bedroom vengeance in

response to loss Minority Report futurist pre-emptive justice and Fahrenheit 9/11 an explicit critique of Bush's entire war on terror Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy This is not just another book about post-9/11 America It introduces the concept of moral grammars of war and explains how they are articulated Many Americans asked in the wake of 9/11 not only why do they hate us but what does it mean to be a moral American and how might such an American act morally in contemporary international politics This text explores how these questions were answered at the intersections of official US foreign policy and post-9/11 popular films It also details US foreign policy formation in relation to traditional US narratives about US identity who we think we were are who we wish we'd never been who we really are and who we might become as well as in relation to their foundations in nationalist discourses of gender and sexuality This book will be of great interest to students of American Studies US Foreign Policy Contemporary US History Cultural Studies Gender and Sexuality Studies and Film Studies

*America and the Just War Tradition* Mark David Hall, J. Daryl Charles, 2019-03-30 *America and the Just War Tradition* examines and evaluates each of America's major wars from a just war perspective Using moral analysis that is anchored in the just war tradition the contributors provide careful historical analysis evaluating individual conflicts Each chapter explores the causes of a particular war the degree to which the justice of the conflict was a subject of debate at the time and the extent to which the war measured up to traditional *ad bellum* and *in bello* criteria Where appropriate contributors offer post-bellum considerations insofar as justice is concerned with helping to offer a better peace and end result than what had existed prior to the conflict This fascinating exploration offers policy guidance for the use of force in the world today and will be of keen interest to historians political scientists philosophers and theologians as well as policy makers and the general reading public Contributors J. Daryl Charles Darrell Cole Timothy J. Demy Jonathan H. Ebel Laura Jane Gifford Mark David Hall Jonathan Den Hartog Daniel Walker Howe Kerry E. Irish James Turner Johnson Gregory R. Jones Mackubin Thomas Owens John D. Roche and Rouven Steeves

**The ^ARefugee Challenge in Post-Cold War America** María Cristina García, 2017-08-01 *The Refugee Challenge in Post-Cold War America* examines the geopolitical and domestic interests that have shaped US refugee and asylum policy since 1989 In the post-Cold War era policymakers consider a wider range of populations as potentially eligible for refugee victims of civil unrest trafficking and gender and sexuality based discrimination

**America's Rise to Greatness Under God's Covenant** Miles Huntley Hodges, 2020-04-26 This book is part of a three-part series on America as a Covenant Nation This volume covers from the rise of America's industrial revolution in the late 1800s to America's taking the position in the Cold War 1950s as the leader of the Free World It is a typical social political economic and military history of America untypical however in how it connects the intellectual moral and spiritual character of America with those same social events It takes the reader through the days of Western imperialism World War One the Roaring Twenties the Great Depression World War Two the beginning of the Cold War and finally the age of Middle America

s grand success the 1950s It focuses heavily on the leaders most frequently the country s presidents and how their own personal spirituality shaped their times and the way the Christian community in particular responded to both the social challenges facing it and the spiritual leadership attempting to inspire and guide it It seeks to give the Christian reader or Secular reader if he or she is willing to be challenged a highly detailed knowledge of the historical path social and spiritual that has brought us to today s world and its enormous challenges

**Understanding America's Gun Culture** Craig Hovey, Lisa Fisher, 2017-12-06 Understanding America s Gun Culture focuses on building understanding of some of the issues associated with US gun culture and the contemporary debate about the availability and use of guns This edited volume is unique in that it draws on a wide variety of disciplines and presents perspectives on both sides of the debate Contributors hail from the academic disciplines of history social work criminal justice sociology religion and theological ethics as well as policy agencies Some chapters examine the issues social psychologically to help readers better understand dynamics within the debate Others pose important ethical and philosophical questions about gun culture Still others address practical policy solutions for enhancing gun safety and minimizing gun violence even bringing in international perspectives Together the chapters create a thought provoking compilation that offers insightful findings considers theoretical and practical

implications and invites further exploration of the topic

**Dangerous Melodies: Classical Music in America from the Great War through the Cold War** Jonathan Rosenberg, 2019-12-10 A Juilliard trained musician and professor of history explores the fascinating entanglement of classical music with American foreign relations Dangerous Melodies vividly evokes a time when classical music stood at the center of twentieth century American life occupying a prominent place in the nation s culture and politics The work of renowned conductors instrumentalists and singers and the activities of orchestras and opera companies were intertwined with momentous international events especially the two world wars and the long Cold War Jonathan Rosenberg exposes the politics behind classical music showing how German musicians were dismissed or imprisoned during World War I while numerous German compositions were swept from American auditoriums He writes of the accompanying impassioned protests some of which verged on riots by soldiers and ordinary citizens Yet during World War II those same compositions were no longer part of the political discussion while Russian music especially Shostakovich s was used as a tool to strengthen the US Soviet alliance During the Cold War accusations of communism were leveled against members of the American music community while the State Department sent symphony orchestras to play around the world even performing behind the Iron Curtain Rich with a stunning array of composers and musicians including Karl Muck Arturo Toscanini Wilhelm Furtw ngler Kirsten Flagstad Aaron Copland Van Cliburn and Leonard Bernstein Dangerous Melodies delves into the volatile intersection of classical music and world politics to reveal a tumultuous history of twentieth century America

*Scientific and Technical Mobilization, Hearing, Before a Subcommittee ..., S. 702 ..., March 30, 1943* United States. Congress. Senate. Committee on Military Affairs, 1943

[America's Final War](#) Andrei Martyanov, 2024-06-01

Washington's eight years of preparing Ukraine and its armed forces for war with Russia was a mistake of historic proportions due to its misperception of American military power based on its 1991 Gulf War victory against a minor military player. Washington believed its own propaganda about crippling sanctions on Russia about the viability of its Ukrainian proxy army and the economic and military weakness of Russia spelling doom for the American empire and its rules-based order. By 2023 the Kiev regime could no longer exist without the West's support both financial and in war materiel. By 2024 Russia will have not just exhausted Ukraine but also demilitarized NATO as a whole, exposing the industrial and military impotence of the US and its European vassals. The United States military as a whole and the USAF in particular have no resources or means to close the ever-widening gap in capability between American and Russian Air Defenses insofar as such systems as the S-500 are already being produced serially in Russia with their immense range of more than 500 kilometers against aerial targets, not to mention their full integration with Russia's Air Force and Air Defense. The air space of Russia is becoming increasingly prohibitive to penetration by any combination of USAF and NATO forces. The US has fallen behind and it won't be able to catch up.

*America in World War II* Michael Burgan, 2006-12-15 Explores the events that led to World War II and the attack on Pearl Harbor, follows the major events of American participation in the war at home and overseas and examines the American international role after the war.

**Constructing America's War Culture** Thomas J. Conroy, Jarice Hanson, 2008-01-01 Constructing America's War Culture provides a cultural analysis of how the images of the war in Iraq have been influenced and packaged by the media to construct a narrative of war: the Bush Presidency, the fear of terrorism, and the changing global attitudes toward America and American aggression.

Congressional Record United States Congress, 1939

*The Saturday Evening Post*, 1929

Cold War America, 1946 To 1990 Facts on File Inc, Ross Gregory, 2014-05-14 Uses statistical tables, charts, photographs, maps, and illustrations to explore everyday life in the United States during the Cold War period.

Historical Sketch of the Second War Between the United States of America and Great Britain Charles Jared Ingersoll, 1849

**America's Four Gods** Paul Froese, Christopher Bader, 2010-10-07 Despite all the hype surrounding the New Atheism, the United States remains one of the most religious nations on Earth. In fact, 95% of Americans believe in God, a level of agreement rarely seen in American life. The greatest divisions in America are not between atheists and believers or even between people of different faiths. What divides us, this groundbreaking book shows, is how we conceive of God and the role He plays in our daily lives. *America's Four Gods* draws on the most wide-ranging comprehensive and illuminating survey of American's religious beliefs ever conducted to offer a systematic exploration of how Americans view God. Paul Froese and Christopher Bader argue that many of America's most intractable social and political divisions emerge from religious convictions that are deeply held but rarely openly discussed. Drawing upon original survey data from thousands of Americans and a wealth of in-depth interviews from all parts of the country, Froese and Bader trace America's cultural and political diversity to its ultimate source: differing opinions about God. They show that regardless of our religious

tradition or lack thereof Americans worship four distinct types of God The Authoritative God who is both engaged in the world and judgmental The Benevolent God who loves and helps us in spite of our failings The Critical God who catalogs our sins but does not punish them at least not in this life and The Distant God who stands apart from the world He created The authors show that these four conceptions of God form the basis of our worldviews and are among the most powerful predictors of how we feel about the most contentious issues in American life Accessible insightful and filled with the voices of ordinary Americans discussing their most personal religious beliefs America's Four Gods provides an invaluable portrait of how we view God and therefore how we view virtually everything else

*War and Empire: America's Quest for Security*  
Pasquale De Marco, 2025-07-16

In *War and Empire: America's Quest for Security* historian John Smith explores the complex and evolving relationship between war and security in American history From the Revolution to the Civil War from the World Wars to the Cold War and from the Persian Gulf to Afghanistan Smith argues that war has been a defining feature of the American experience shaping the nation's identity its politics its economy and its role in the world But what has America gained from war What has it lost And what does the future hold Smith does not shy away from the costs of war both in terms of human suffering and in the erosion of our liberties He also examines the ways in which war has shaped American values and culture for good and for ill He argues that war is not just a necessary evil but a potentially destructive force that can be used for good or for ill When war is used to defend our values and protect our security it can be a source of great strength But when war is used for other purposes such as conquest or revenge it can lead to devastating consequences *War and Empire* is a timely and important book that challenges us to think critically about the role of war in American history and the challenges that the United States faces in the 21st century Smith's nuanced and insightful analysis is essential reading for anyone who wants to understand the complex relationship between war and security in the American context In *War and Empire* you will discover The ways in which war has shaped American identity politics economy and role in the world The high cost of war both in terms of human suffering and the erosion of our liberties The ways in which war has shaped American values and culture for good and for ill The challenges that the United States faces in the 21st century and the role that war might play in meeting those challenges *War and Empire: America's Quest for Security* is an essential book for anyone who wants to understand the complex relationship between war and security in the American context If you like this book write a review

Getting the books **Going To War For America** now is not type of inspiring means. You could not isolated going bearing in mind book stock or library or borrowing from your friends to open them. This is an very simple means to specifically get guide by on-line. This online publication Going To War For America can be one of the options to accompany you afterward having supplementary time.
