Going Native:

Going Native Shari M. Huhndorf, 2015-01-26 Since the 1800s many European Americans have relied on Native Americans as models for their own national racial and gender identities. Displays of this impulse include world's fairs, fraternal organizations and films such as *Dances with Wolves*. Shari M. Huhndorf uses cultural artifacts such as these to examine the phenomenon of going native, showing its complex relations to social crises in the broader American society, including those posed by the rise of industrial capitalism, the completion of the military conquest of Native America, and feminist and civil rights activism. Huhndorf looks at several modern cultural manifestations of the desire of European Americans to emulate Native Americans. Some are quite pervasive, as is clear from the continuing, if controversial, existence of fraternal organizations for young and old which rely upon Indian costumes and rituals. Another fascinating example is the process by which Arctic travelers went Eskimo, as Huhndorf describes in her readings of Robert Flaherty's travel narrative *My Eskimo Friends* and his documentary film *Nanook of the North*. Huhndorf asserts that European Americans' appropriation of Native identities is not a thing of the past and she takes a skeptical look at the tribes beloved of New Age devotees. *Going Native* shows how even seemingly harmless images of Native Americans can articulate and reinforce a range of power relations, including slavery, patriarchy, and the continued oppression of Native Americans. Huhndorf reconsiders the cultural importance and political implications of the history of the impersonation of Indian identity in light of continuing debates over race, gender, and colonialism in American culture. *Going Native in Murcia* Debbie Jenkins, Marcus Jenkins, 2012

Rebecca Weaver-Hightower, 2007 Through a detailed unpacking of the castaway genre's appeal in English literature, *Empire Islands* forwards our understanding of the sociopsychology of British Empire. Rebecca Weaver-Hightower argues convincingly that by helping generations of readers to make sense of and perhaps feel better about imperial aggression, the castaway story in effect enabled the expansion and maintenance of European empire. *Empire Islands* asks why so many colonial authors chose islands as the setting for their stories of imperial adventure and why so many postcolonial writers write back to those island castaway narratives. Drawing on insightful readings of works from Thomas More's *Utopia* to Caribbean novels like George Lamming's *Water with Berries*, from canonical works such as *Robinson Crusoe* and *The Tempest* to the lesser-known *A Narrative of the Life and Astonishing Adventures of John Daniel* by Ralph Morris, Weaver-Hightower examines themes of cannibalism, piracy, monstrosity, imperial aggression, and the concept of going native. Ending with analysis of contemporary

film and the role of the United States in global neoimperialism Weaver Hightower exposes how island narratives continue not only to describe but to justify colonialism Rebecca Weaver Hightower is assistant professor of English and postcolonial studies at the University of North Dakota

The Latinx Files Matthew David Goodwin, 2021-05-14 In *The Latinx Files* Matthew David Goodwin traces how Latinx science fiction writers are reclaiming the space alien from its xenophobic legacy in the science fiction genre The book argues that the space alien is a vital Latinx figure preserving Latinx cultures by activating the myriad possible constructions of the space alien to represent race and migration in the popular imagination The works discussed in this book including those of H G Wells Gloria Anzald a Junot Diaz Andr M Carrington and many others often explicitly reject the derogatory correlation of the space alien and Latinxs while at other times they contain space aliens that function as a source of either enlightenment or horror for Latinx communities Throughout this nuanced analysis *The Latinx Files* demonstrates how the character of the space alien has been significant to Latinx communities and has great potential for future writers and artists

Casting the Other Barbara Czarniawska,Heather Hopfl,2005-07-05 Casting the Other Maintaining Gender Inequalities in the Workplace focuses on the production and maintenance of gender inequalities in organizations By emphasizing difference as something to be managed many organizations institute the problem of difference and while orgainzations pay lip service to ideas of equality their day to day practices may be unchanged and unchallenged Discrimination of various groups such as women immigrants and older people continues and its dynamics remain unclear largely because of the difficulties of studying it in the field Additionally various programs aimed at removing inequality such as gender equality of managing diversity programs may actually promote it by making differences visible and stabilizing them Management under these circumstances comes to refer to the management of appearances which take the place of more radical acts to change the status quo

In It for the Long Haul Glenn E. Ludwig,2002-01-01 When pastors and congregations come together in ministry they generally do so with the hope that the relationship will be long lasting and dynamic The reality however is that long term pastorates are an increasingly rare phenomenon in congregations White there are many reasons that most pastors can only sustain their ministries in a parish for a relatively limited number of years Glenn Ludwig argues that this does not have to be the case if both pastors and congregations take deliberate steps toward an enduring friendship

Power Games John Sugden,Alan Tomlinson,2013-10-11 Critical and radical perspectives have been central to the emergence of the sociology of sport as a discipline in its own right This ground breaking new book is the first to offer a comprehensive theory and method for a critical sociology of sport It argues that class political economy hegemony and other concepts central to the radical tradition are essential for framing understanding and changing social and political relations within sport and between sport and society The book draws upon the disciplines of politics sociology history and philosophy to provide a critical analysis of power relations throughout the world of sport while offering important new case studies from such diverse sporting contexts as the Olympics world football boxing cricket tennis and windsurfing In the process it addresses key topics such as nations and nationalism globalisation race gender political economy Power Games can be used as a complete introduction to the study of sport and society And will be essential reading for any serious student of sport At the same time it is a provocative book that by argument and example challenges those who research and write

about sport to make their work relevant to social and political reform *India, Habermas and the Normative Structure of Public Sphere* Muzaffar Ali, 2023-05-19 This book examines how the contemporary Indian situation poses a strict theoretical challenge to Habermas's theorization of the public sphere and employs the method of *samvada* to critically analyse and dissect its universalist claims. It invites the reader to consider the possibility of imagining a normative Indian public sphere that is embedded in the Indian context in a native and not nativist sense to get past the derivative language of philosophical and political discourses prevalent within Indian academia. The book proposes that the dynamic cooperative space between Indian political theory and contemporary Indian philosophy is effectively suited to theorize the native idea of the Indian public sphere. It underlines the normative need for a natively theorized Indian public sphere to further the multilayered democratization of public spheres within diverse communities that constitute Indian society. The book will be a key read for contemporary studies in philosophy, political theory, sociology, postcolonial theory, history, and media and communication studies.

Displacing Natives Houston Wood, 1999-05-27 This insightful study examines the strategies used by outsiders to usurp Hawaiian lands and undermine indigenous Hawaiian culture. Drawing upon historical and contemporary examples, Houston Wood investigates the journals of Captain Cook, Hollywood films, commercialized hula, Waikiki development schemes, and the appropriation of Pele and Kilauea by haoles to explore how these diverse productions all displace Native culture. Yet the author emphasizes the voices that have never been completely silenced and can be heard asserting themselves today through songs, chants, literature, the internet, and the Native nationalist sovereignty movement. This impassioned argument about the linkages between textual and physical displacements of Native Hawaiians will engage all readers interested in Pacific literature and postcolonial studies.

Enforcing Order on the Border Eric Gamino, 2025-09-01 As a lifelong resident of the U.S. Mexico borderlands, Eric Gamino has always been curious why some U.S. born Latinos were indifferent toward Latino immigrants, especially since both groups lived within the same majority Latino origin community, the Rio Grande Valley of Texas. *Enforcing Order on the Border* offers a personal ethnographic examination of Gamino's life as a resident of the RGV, coupled with his experience as a police officer for two different police departments in the region. Gamino reveals how the concept of race functions within a predominantly Latino origin community. Gamino unpacks the interplay between local police, federal immigration officials, and civilians as they encounter immigration. *Enforcing Order on the Border* illustrates how institutional practices such as immigration enforcement occur on the South Texas Mexico borderlands as collaborative efforts between local police and the U.S. Border Patrol from an institutional perspective. Consequently, this collaborative effort in the U.S. Mexico borderlands creates a distinctive method of policing which he tellingly refers to as Constitution-free policing. Gamino provides a unique perspective on how the concept of race in a predominantly Latino origin community complicates intraracial, intraethnic relations on the South Texas Mexico borderlands.
