Gold Coast:

History of the Gold Coast and Asante, Based on Traditions and Historical Facts Carl Christian Reindorf, 1895 *Gold Coast* Oliver Scott, AI, 2025-03-20 Gold Coast explores the remarkable transformation of a once overlooked Queensland region into a globally recognized tourism hub. It meticulously traces the area's history, revealing the intricate dynamics of economic growth, societal shifts, and environmental concerns that have shaped its identity. The book offers a unique perspective on Australian history, revealing how the pursuit of tourism-driven development has indelibly shaped the city's identity and its relationship with the natural world. The book examines early settlement and development, the pivotal role of tourism, and the environmental impact of rapid development. It reveals how tourism propelled the Gold Coast to international fame and how the region balances economic prosperity with ecological sustainability. Structured in three parts, the book first establishes the historical context, then analyzes the rise of tourism, and finally examines the environmental challenges posed by urbanization. This approach provides a balanced view, acknowledging both the economic benefits and environmental costs associated with the Gold Coast's development.

The Making of Australia's Gold Coast Alan J. Blackman, 2024-08-01 Blackman draws on original material and the work of many earlier researchers to paint a verbal picture of the evolution of a remarkable city. In an easy-to-read style, he highlights some of the conditions, key events, and individuals that have led to the development of Australia's Gold Coast. The story of the City of Gold Coast is more than just any story. It describes the growth of Australia's sixth largest city, the nation's most populous city that is not a state capital. A city of more than 600,000, it has grown at a rate of four per cent yearly since the 1950s. It sustains a growth rate well ahead of its infrastructure and its economy's capacity to provide full-time employment to the many new arrivals. A city heavily reliant on tourism and construction, it is regularly subjected to the boom and bust of a fickle world economy. But it continues to expand and evolve. And like so many coastal towns worldwide, this Gold Coast may soon be threatened by the tides. This book is essential for students, researchers, anyone interested in industry and urban development, and those seeking to understand the city where they live, work, and play.

From the time of the first timber getters

through to the present the book traces the cumulative impacts of humans on the now World Heritage listed rainforest and surrounding ecosystems The city's natural and engineered environments are both fascinating and vulnerable The construction of massive high rise apartment blocks on what were frontal beach dunes is one of the fundamental mistakes not to be repeated The book illustrates how and why major environmentally destructive development took place and discusses the impacts of such development on the Gold Coast's beaches wildlife and terrestrial and marine environments such as the destruction of riparian mangrove forest The Gold Coast Transformed also shows the possibility of sustaining natural populations and reducing the city's ecological footprint It will be of interest to ecologists environmental scientists and managers town planners economists policymakers and the general public

The Political Economy of the Interior Gold Coast Jarvis L. Hargrove, 2015-12-09 This book analyzes the Gold Coast and the Asante kingdom in the years following the abolition of the transatlantic slave trade and prior to the start of colonial rule The Asante state one of the largest in the Gold Coast and West Africa after the eighteenth century is the central focus of this work Studying their transition from a large scale supplier of captives to the transatlantic slave trade to traders in legitimate goods is a critical component that should be analyzed across West Africa This work highlights the political and economic relationships between the interior Asante state with surrounding African groups and Europeans chiefly British traders who entered the region in the eighteenth and nineteenth centuries

Securitising Decolonisation Julius Heise,2024-05-23 With the right to petition the United Nations the Ewe and Togoland unification movement enjoyed a privilege unmatched by other dependent peoples Using language conveying insecurity the movement seized the international spotlight ensuring that the topic of unification dominated the UN Trusteeship System for over a decade Yet its vociferous securitisations fell silent due to colonial distortion leaving unification unfulfilled thus allowing the seeds of secessionist conflict to grow At the intersection of postcolonial theory and security studies Julius Heise presents a theory driven history of Togoland s path to independence offering a crucial lesson for international statebuilding efforts *War Department Technical Bulletin* ,1944 *Making an African City* Jennifer Hart,2024-03-05 In *Making an African City* Jennifer Hart traces the way that British colonial officials Accra Town Council members and a diverse group of technocrats used regulation to define what an acceptable city looked like Unlike cities elsewhere on the continent Accra had a long history of urbanism that predated British colonial presence By criminalizing some activities and privileging others colonial officials sought to marginalize indigenous practices of Accra residents and shape the development of a new modern city Hart argues however that residents regularly pushed back protesting regulations refusing to participate in newly developed systems reappropriating infrastructure demanding rights to city services and asserting their own informal vision for the future of the city While urban plans and regulations ultimately failed to substantively remake the city their effects were and are still felt by urban residents who are often subject to but not served by urban infrastructure *Making an African City* explores how the informalization of Accra s development was a historical process not a natural and self evident phenomenon which connects the history of the city with the history of urban development and the growth of technocracy around the world **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** ,1991 GOLD COAST PAST & PRESENT George 1858 MacDonald,2016-08-26 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
