The Golden Longing Francis W. Leary, 2011-10-01 A Portrait Of The Turbulent Fifteenth Century And Its Immortals

Sayings of the Buddha , 2008-10-09 As if someone were to hold up a lamp in the dark so that those with eyes could see in exactly the same way Gotama has made the truth clear in various ways Gotama the Buddha who lived the life of a wandering ascetic in northern India during the fifth century BCE is looked to as the founder of one of the world's major religions One of the main sources for knowledge of his teachings is the four Pali Nikayas or collections of his sayings Written in Pali an ancient Indian language closely related to Sanskrit the Nikayas are among the oldest Buddhist texts and consist of more than one and a half million words This new translation offers a selection of the Buddha's most important sayings reflecting the full variety of material contained in the Nikayas the central themes of the Buddha's teaching his biography philosophical discourse instruction on morality meditation and the spiritual life and the range of literary style myth dialogue narrative short sayings verse ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more *The Power of Gold* Peter L.

Bernstein, 2012-03-12 The need for realism in reform of its monetary system is what makes Bernstein's story of the Power of Gold so timely It is a compelling reminder that maintaining a fixed price for gold and fixed exchange rates were difficult even in a simpler financial environment Peter Bernstein was reluctant to project the story of gold into the future But to me his message was clear Yes gold will be with us valued not only for its intrinsic qualities but as a last refuge and store of value in turbulent times But its days as money as a means of payment and a fixed unit of account are gone From the New Foreword by Paul Volcker This bestselling book reveals a record of human nature in the ubiquity of gold with a new foreword by Paul Volcker In this exciting book the late Peter L Bernstein tells the story of history's most coveted celebrated and inglorious asset gold From the ancient fascinations of Moses and Midas through the modern convulsions caused by the gold standard and its aftermath gold has led many of its most eager and proud possessors to a bad end And while the same cycle of obsession and desperation may reverberate in today's fast moving electronically driven markets the role of gold in shaping human history is the striking feature of this tumultuous tale Such is the power of gold Whether it is Egyptian pharaohs with depraved tastes the luxury mad survivors of the Black Death the Chinese inventor of paper money the pirates on the Spanish Main or the hardnosed believers in the international gold standard gold has been the supreme possession It has been an icon for greed and an emblem of rectitude as well as a vehicle for vanity and a badge of power that has shaped the destiny of humanity through the ages Discusses the beginnings of gold as something with magical religious and artistic qualities and follows its trail as we progress to the invention of coinage the transformation of gold into money and the gold standard Other

bestselling books by the late Peter Bernstein *Against the Gods* *Capital Ideas* and *Capital Ideas Evolving* Contemplates gold from the diverse perspectives of monarchs and moneyers potentates and politicians men of legendary wealth and others of more plebeian beginnings Far more than a tale of romantic myths daring explorations and the history of money and power struggles *The Power of Gold* suggests that the true significance of this infamous element may lie in the timeless passions it continues to evoke and what this reveals about ourselves

American Lit Remixed identifies a new sound in literature emerging after the digital revolution It reads works by Jennifer Egan Sherman Alexie and others through the lenses of remix theory the term Eduardo Navas coined to describe the remix as a form of artistic and cultural discourse and the music industry s preoccupations with nostalgia and authenticity arguing that digital age fiction poetry and drama remix the music and technology of the past to offer new modes of connecting to self others and place Musical features such as references to popular songs structural similarities to music recordings and thematic treatment of the riffing and borrowing endemic within popular music lend a retro sound feel and structure to contemporary American texts even when they refer to life in the digital era Through engaging with the musical past literature resists nostalgia and remixes the twenty first century s dystopian disconnected ethos to find possibility and hope for the future Critics often focus on technology s negative impact on the music industry but American Lit Remixed emphasizes music as a source of creative potential in twenty first century literature including new ways of storytelling and relating *Handbook of Canadian Literature (English)* Archibald MacMurchy,1906 *The Christian Science Journal* ,1917

The Human Tragicomedy: the Reception of Apuleius' Golden Ass in the Twentieth and Twenty-First Century, 2024-09-02 Does the story of Lucius a curious and lustful young man who is magically transformed into an ass have anything to teach us today Does it have a serious philosophical and religious meaning or is it just a form of literary play full of adventures magic sex violence and religion This volume studies the reception of the novel in the last hundred years showing also the most promising and diverse research perspectives for the future Apuleius claimed that a philosopher must possess a mirror perhaps his novel is a mirror for us to look into

Second-Generation Memory and Contemporary Children's Literature Anastasia Ulanowicz, 2013-09-02 Winner of the Children's Literature Association Book Award This book visits a range of textual forms including diary novel and picturebook to explore the relationship between second generation memory and contemporary children's literature Ulanowicz argues that second generation memory informed by intimate family relationships textual mediation and technology is characterized by vicarious rather than direct experience of the past As such children's literature is particularly well suited to the representation of second generation memory insofar as children's fiction is particularly invested in the transmission and reproduction of cultural memory and its form promotes the formation of various complex intergenerational relationships Further children's books that depict second generation memory have the potential to challenge conventional Western notions of selfhood and ethics This study shows how novels such as Lois Lowry's The Giver 1993 and Judy Blume's Starring Sally J Freedman as Herself 1977 both of which

feature protagonists who adapt their elders memories into their own mnemonic repertoires implicitly reject Cartesian notions of the unified subject in favor of a view of identity as always already social relational and dynamic in character This book not only questions how and why second generation memory is represented in books for young people but whether such representations of memory might be considered radical or conservative Together these analyses address a topic that has not been explored fully within the fields of children s literature trauma and memory studies and Holocaust studies
