Golden Codgers Biographical Speculations:

Golden Codgers Richard Ellmann, 1976 **Speculative Biography** Donna Lee Brien, Kiera Lindsey, 2021-09-30 While speculation has always been crucial to biography it has often been neglected denied or misunderstood This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work whether this is to conceptualise a project in its early stages work with scanty or deliberately deceptive sources or address issues associated with shy or stubborn subjects After defining the role of speculation in biography the volume offers a series of work in progress case studies that discuss the challenges biographers encounter and address in their work In addition to defining the speculative spectrum within the biographical endeavour the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research subjectivity and that which Natalie Zemon Davis dubbed informed imagination By mapping the field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical Critical Companion to William Butler Yeats David A.
