United States receive a strong emphasis but African American history and culture throughout the rest of the Americas and their origins in Africa itself have an equally strong presence. The articles that make up *Africana* cover subjects ranging from affirmative action to zydeco and span over four million years from the earliest known hominids to Sean Diddy Combs. With entries ranging from the African ethnic groups to members of the Congressional Black Caucus, *Africana* Second Edition conveys the history and scope of cultural expression of people of African descent with unprecedented depth.

The Black Lights Thomas Hauser, 2000-01-01 Originally published in 1986 McGraw Hill, *The Black Lights* was the first book that fully explored the sport and business of professional boxing. Upon joining the training camp of superlightweight Billy Costello, Thomas Hauser was given unprecedented access to the fighter, his manager and trainer, as well as to the real heavyweights of the boxing world: promoter Don King and World Boxing Council president Jose Sulaiman. The result, according to *Playboy* in their review of the original, is a book that explains why fighters fight, what they go through to win, and how they feel when they lose. It is a great book. In this gracefully written, fast-paced narrative, the author slips quietly into the background and gives us a firsthand look at a business that is often cruel and exploitative and a sport that is at once violent and beautiful. As the *San Francisco Chronicle* points out, *The Black Lights* provides ammunition for both sides in the debate over boxing. Hauser has written what is clearly the most complete and fair-minded work on the subject to date. In an age when the controversy surrounding the evils and merits of boxing still rages, this classic account is more timely than ever.

Boca Knights Steven M. Forman, 2009-02-03 Retiring to Florida after a long career as a Boston police officer, Eddie Perlmutter encounters the dark side of his new home and is tempted to use his crime-fighting prowess with unexpected and often humorous results.

Sport and the Shaping of Civic Identity in Chicago Gerald R. Gems, 2020-02-13 This study uses sociological and historical methodologies to analyze the role of sport in the formation of urban identity in Chicago. The author traces the transformation of Chicago from a frontier town to a commercial behemoth, examining its role as an immigration, transportation, and entertainment hub. The author argues that as a pioneering leader in American sport history, Chicago allowed teams and athletes to forge a unique national and global identity. This thorough and well-researched study makes a major contribution to debates on the social and psychological functions of sport culture.
