**Challenging History** Leah Worthington, Rachel Clare Donaldson, John W. White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites

For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage Challenging History through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories Challenging History invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship

Brown, 2015-02-17 In this expansive history of South Carolina s commemoration of the Civil War era Thomas J Brown uses the lens of place to examine the ways that landmarks of Confederate memory have helped white southerners negotiate their shifting political social and economic positions By looking at prominent sites such as Fort Sumter Charleston s Magnolia Cemetery and the South Carolina statehouse Brown reveals a dynamic pattern of contestation and change He highlights transformations of gender norms and establishes a fresh perspective on race in Civil War remembrance by emphasizing the fluidity of racial identity within the politics of white supremacy Despite the conservative ideology that connects these sites Brown argues that the Confederate canon of memory has adapted to address varied challenges of modernity from the war s end to the present when enthusiasts turn to fantasy to renew a faded myth while children of the civil rights era look for a usable Confederate past In surveying a rich controversial and sometimes even comical cultural landscape Brown illuminates the workings of collective memory sustained by engagement with the particularity of place      *New Orleans on Parade* J. Mark Souther, 2013-10-07 *New Orleans on Parade* tells the story of the Big Easy in the twentieth century In this urban biography J Mark Souther explores the Crescent City s architecture music food and alcohol folklore and spiritualism Mardi Gras festivities and illicit sex commerce in revealing how New Orleans became a city that parades itself to visitors and residents alike Stagnant between the Civil War and World War II a period of great expansion nationally New Orleans unintentionally preserved its distinctive physical appearance and culture Though business civic and government leaders tried to pursue conventional modernization in the 1940s competition from other Sunbelt cities as well as a national economic shift from production to consumption gradually led them to seize on tourism as the growth engine for future prosperity giving rise to a veritable gumbo of sensory attractions A trend in historic preservation and the influence of outsiders helped fan this newfound identity and the city s residents learned to embrace rather than disdain their past A growing reliance on the tourist trade fundamentally affected social relations in New Orleans African Americans were cast as actors who shaped the culture that made tourism possible while at the same time they were exploited by the local power structure As black leaders influence increased the white elite attempted to keep its traditions including racial inequality intact and race and class issues often lay at the heart of controversies over progress Once the most tolerant diverse city in the South and the nation New Orleans came to lag behind the rest of the country in pursuing racial equity Souther traces the ascendancy of tourism in New Orleans through the final decades of the twentieth century

and beyond examining the 1984 World's Fair the collapse of Louisiana's oil industry in the eighties and the devastating blow dealt by Hurricane Katrina in 2005 Narrated in a lively style and resting on a bedrock of research New Orleans on Parade is a landmark book that allows readers to fully understand the image making of the Big Easy     *The Beauty of Holiness* Louis P. Falck, 2019-08-23 Nearly seventy years after the Civil War Natchez Mississippi sold itself to Depression era tourists as a place Where the Old South Still Lives Tourists flocked to view the town's decaying antebellum mansions hoopskirted hostesses and a pageant saturated in sentimental Lost Cause imagery In *Remembering Dixie* The Battle to Control Historical Memory in Natchez Mississippi 1865-1941 Susan T Falck analyzes how the highly biased white historical memories of what had been a wealthy southern hub originated from the experiences and hardships of the Civil War These collective narratives eventually culminated in a heritage tourism enterprise still in business today Additionally the book includes new research on the African American community's robust efforts to build historical tradition most notably the ways in which African Americans in Natchez worked to create a distinctive postemancipation identity that challenged the dominant white structure Using a wide range of late nineteenth and early twentieth century sources many of which have never been fully mined before Falck reveals the ways in which black and white Natchezians of all classes male and female embraced reinterpreted and contested Lost Cause ideology These memory making struggles resulted in emotional internecine conflicts that shaped the cultural character of the community and impacted the national understanding of the Old South and the Confederacy as popular culture Natchez remains relevant today as a microcosm for our nation's modern day struggles with Lost Cause ideology Confederate monuments racism and white supremacy Falck reveals how this remarkable story played out in one important southern

community over several generations in vivid detail and richly illustrated analysis      South Carolina Women Marjorie Julian Spruill, Valinda W. Littlefield, Joan Marie Johnson, 2010-01-25 The biographical essays in this volume provide new insights into the various ways that South Carolina women asserted themselves in their state and illuminate the tension between tradition and change that defined the South from the Civil War through the Progressive Era As old rules including gender conventions that severely constrained southern women were dramatically bent if not broken these women carved out new roles for themselves and others The volume begins with a profile of Laura Towne and Ellen Murray who founded the Penn School on St Helena Island for former slaves Subsequent essays look at such women as the five Rollin sisters members of a prominent black family who became passionate advocates for women's rights during Reconstruction writer Josephine Pinckney who helped preserve African American spirituals and explored conflicts between the New and Old South in her essays and novels and Dr Matilda Evans the first African American woman licensed to practice medicine in the state Intractable racial attitudes often caused women to follow separate but parallel paths as with Louisa B Poppenheim and Marion B Wilkinson Poppenheim who was white and Wilkinson who was black were both driving forces in the women's club movement Both saw clubs as a way not only to help women and children but also to showcase these positive changes to the wider nation Yet the two women worked separately as did the white and black state federations of women's clubs Often mixing deference with daring these women helped shape their society through such avenues as education religion politics community organizing history the arts science and medicine Women in the mid and late twentieth century would build on their accomplishments      Charleston Susan Crawford, 2023-04-04 An unflinching look at a beautiful endangered tourist pummeled and history filled American city At least thirteen million Americans will have to move away from American coasts in the coming decades as rising sea levels and increasingly severe storms put lives at risk and cause billions of dollars in damages In Charleston South Carolina denial boosterism widespread development and public complacency about racial issues compound the city like our country has no plan to protect its most vulnerable In these pages Susan Crawford tells the story of a city that has played a central role in America's painful racial history for centuries and now as the waters rise stands at the intersection of climate and race Unbeknownst to the seven million mostly white tourists who visit the charming streets of the lower peninsula each year the Holy City is in a deeply precarious position Weaving science narrative history and the family stories of Black Charlestonians Charleston chronicles the tumultuous recent past in the life of the city from protests to hurricanes while revealing the escalating risk in its future A bellwether for other towns and cities Charleston is emblematic of vast portions of the American coast with a future of inundation juxtaposed against little planning to ensure a thriving future for all residents In Charleston we meet Rev Joseph Darby a well regarded Black minister with a powerful voice across the city and region who has an acute sense of the city's shortcomings when it comes to matters of race and water We also hear from Michelle Mapp one of the city's most promising Black leaders and Quinetha Frasier a charismatic young Black entrepreneur with Gullah Geechee roots who

fears her people's displacement And there is Jacob Lindsey a young white city planner charged with running the city's ten year comprehensive plan efforts who ends up working for a private developer These and others give voice to the extraordinary risks the city is facing The city of Charleston with its explosive gentrification over the last thirty years crystallizes a human tendency to value development above all else At the same time Charleston stands for our need to change our ways and the need to build higher drier more densely connected places where all citizens can live safely Illuminating and vividly rendered Charleston is a clarion call and filled with characters who will stay in the reader's mind long after the final page
