perspectives his understanding of society and the very craft of writing In the history of Richard Wright perhaps more than with other writers a knowledge of what he actually read and of what authors he preferred is essential in explaining his intellectual development Michel Fabre Wright s biographer and foremost Wright scholar details the volumes in Wright s library and the facts of Wright s reading habits This listing of books that formed and influenced him includes second hand books he bought while living in extreme poverty in Chicago some borrowed books never returned books purchased in New York and Paris books Wright deemed required reading for a growing novelist gift books and others in a comprehensive list on such subjects as contemporary American literature classic European works criminology psychiatry and social sciences In compiling this listing Fabre goes beyond the actual contents of Wright s library for he includes also titles drawn from references in Wright s works and from accounts of people who knew him and his reading habits Included also is an appendix that collects for the first time reviews written by Wright his prefaces forewords and blurbs They show his appreciation of diverse genres and styles although his ideological commitment remained the same In them one sees Wright as an author ready to help younger writers black and white American and French

**The Lever of Riches** Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological

creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential *Embracing, Evaluating, and Examining African American Children's and Young Adult Literature* Wanda M. Brooks, Jonda C. McNair, 2008 Serious scholarship on African American children s and young adult literature is a relatively recent phenomenon To date only a handful of book length works aside from doctoral dissertations have been devoted to the exploration of this body of work and the historical works that are at its foundation *Embracing Evaluating and Examining African American Children s and Young Adult Literature* features 12 original essays that present research related to African American children s literature books intended for youth that are written by and about African Americans conducted by scholars from leading academic institutions Editors Wanda M Brooks and Jonda C McNair offer a bouquet of diverse perspectives on African American children s and young adult literature focusing attention on texts on readers and on pedagogical strategies that have the potential to bring the texts and the readers together Beginning with a foreword by one of the leading scholars in the field of African American children s and young adult literature Rudine Sims Bishop the varied disciplinary perspectives put forth in this book will inspire others to embrace evaluate and examine African American children s and young adult literature for many years to come *African American Literature* Hans Ostrom, J. black art and life others ponder more vexing questions such as Hughes s sexuality and his relationship with his mother as revealed in the letters she sent him in the last decade of her life Montage of a Dream richly captures the power of one man s art to imagine an America holding fast to its ideals while forging unity out of its cultural diversity By showing that Langston Hughes continues to speak to the fundamentals of human nature this comprehensive reconsideration invites a renewed appreciation of Hughes s work and encourages new readers to discover his enduring relevance as they seek to understand the world in which we all live
