Golf Henry Beard,2009-12-08 As a serious player a high handicapper or simply a baffled onlooker to the awesome nonsense that is golf have you ever wondered why say the golf balls have dimples and the tee is both the thing you stick in the ground and the place you hit from and the hole is so small and the courses have all these big pits full of sand where any sane person would put grass Well so did noted humor writer and avid hacker Henry Beard who brought twenty

first century computer search engine technology to bear on this thousand year old game tapping the internet's inherent capacity to confer a thin veneer of authenticity to far fetched accounts of great moments in the history of golf warped portraits of its legendary players and fanciful conjectures about its origins and evolution Employing an easy to read and simple to fudge timeline format he chronicles the amazing process through which this screwy pastime with wacky equipment and loony rules played for penny wagers by a bunch of bored silly shepherds was gradually transformed into a screwy sport with wacky equipment and loony rules played for million dollar purses by superstar athletes As he peers through the mists of time to the birthplace of the game Beard resolves once and for all its many mysteries like where those weird looking pants came from when the first telling of the Hit drag Harry joke was what a Stimpmeter is and who dreamed up the idea of those stupid blimps Here then in one convenient golf bag side pocket sized volume is a rich wildly embroidered ludicrously embellished tapestry of colorful fabrications and highly entertaining but thoroughly dubious speculations that tell the tall tale of golf the game that deranged the world

and examines Tiger's recent troubles in light of his father's own womanizing. Written in lyric prose and based on interviews with Earl Tiger and dozens of insiders, Callahan reveals in *His Father's Son* the man who made Tiger who he is. **Secrets Of Owning Your Swing** Edward A. Tischler, 2011-08 **Golf's Holy War** Brett Cyrgalis, 2021-05-18 The world of golf is at a crossroads. As technological innovations displace traditional philosophies, the golfing community has splintered into two deeply combative factions: the old school teachers and players who believe in feel, artistry, and imagination, and the technical minded who want to remake the game around data. In *Golf's Holy War*, Brett Cyrgalis takes readers inside the heated battle playing out from weekend hackers to PGA Tour pros. At the Titleist Performance Institute in Oceanside, California, golfers clad in full-body sensors target weaknesses in their biomechanics, while others take part in mental exercises designed to test their brain's psychological resilience. Meanwhile, coaches like Michael Hebron purge golfers of all technical information, tapping into the power of intuitive physical learning by playing rudimentary games. From historic St. Andrews to manicured Augusta, experimental communes in California to corporatized conferences in Orlando, William James to Ben Hogan to theoretical physics, the factions of the spiritual and technical push to redefine the boundaries of the game. *Sifu* James Wing Woo, 2012-04-04 The revered Tai Chi and Kung Fu teacher James Wing Woo shares his philosophy, methods, and principles. Rich in color photography, the book includes archival material, his biography, and an interview with journalist Ben Fong Torres.

And Other Essays Michael Cohen, 2020-08-15 In this essay collection, Michael Cohen presents the odd idea of the suicide note as a writing project that can be critiqued like any other. He describes encounters with illegal border crossers in south Texas and ponders the sudden popularity of books about atheism. Books are a frequent subject here, and Cohen makes an argument for *The Maltese Falcon* as the Great American Novel, searches for the perfect Platonic nature handbook, and compares playing golf to reading about it. Reading is for him as engrossing a form of experience as any other: say, hitchhiking through the Southwest with an old friend, the joys of flying small planes, or the charm of studying ancient Greek while people watching at the gym. All experiences chronicled here. He looks back at the effect a 1956 collision of two airliners over the Grand Canyon had on him as a kid fond of flying, and how he learned about the joys of good food during a wanderjahr in Europe. Many of these essays begin with a question: whether Americans deserve their reputation for materialism, why we seem to have lost the climate change battle, and whether talking to yourself might really be beneficial. Another frequent topic is how our ideal places cannot avoid being bruised by time. He looks at what happened as the Tucson bars of his college days closed or morphed into very different places. He traces seasonal changes in the desert. He notes what happens to its effect when a giant cross beside I-40 in Texas is joined by equally giant windmills. And he takes a mind's eye tour through Paris's terrace cafés and their literary associations after the 2015 terrorist attack there. Michael's previous collection with IP is *A Place to Read*.
