## **Good Day:**

**A Really Good Day** James Hosek, 2011-11-22 If you've ever golfed or know a golfer or just love a story with a happy ending *A Really Good Day* will capture and hold your attention from start to finish. It follows amateur golfer Scott Hanover as he has the most amazing day of his life. Along the way he manages to enlighten a golf-hating sportscaster, provide salvation to a washed-up sports agent, and humbly educate a pretentious amateur golfer. Andrew Patterson finds his chance to turn pro in serious jeopardy. Interspersed with the humorous touching and sometimes unbelievable scenes are bits of golf philosophy that can be applied to all aspects of life. Set on the beautiful George Dunne National Golf Course in Oak Forest, IL, you will follow a rich mix of characters along eighteen holes of laughter, tears, and suspense and find yourself rooting for the biggest underdog in history. When it almost comes to an end after an unexpected incident on the 17th hole, you will be biting your nails waiting to see what happens.

**Good Day, Bad Day** Ken Winograd, 2005-05-12 Here is the story of how Ken Winograd grappled with the uncertainties and contradictions of teaching and in the process began to understand himself as a teacher. Winograd contends that it is crucial that teachers, especially beginning teachers, examine and reflect on the inevitable complexities of classroom life as they work to construct professional identities that are flexible, strategic, and multifaceted. After 13 years working as a teacher educator, he returned to the classroom as a teacher in a nongraded primary classroom. In *Good Day, Bad Day* he describes this experience. The first half of the book contains Winograd's daily journal where he details his everyday work. The journal describes his struggles with students, the efforts to construct a curriculum that reflected his changing beliefs about teaching, and the highs and lows typical of beginning teaching. The second half of the book formally examines various nonpedagogic aspects of teaching, including teacher-student power relations, the emotions of teaching, and the development of teacher identity. *Good Day, Bad Day* will be useful to teachers, teacher educators, administrators, and policymakers committed to the development of teachers who can reflect critically on their experience and then act to improve their working conditions as well as the learning conditions of students.

**How to Have a Good Day** Caroline Webb, 2016-02-02 In *How to Have a Good Day*, economist and former McKinsey partner Caroline Webb shows readers how to use recent findings from behavioral economics, psychology, and neuroscience to transform our approach to everyday working life. Advances in behavioral sciences are giving us an ever better understanding of how our brains work, why we make the choices we do, and what it takes for us to be at our best. But it has not always been easy to see how to apply these insights in the real world. Until now. In *How to Have a Good Day*, Webb explains exactly how to apply this science to our daily tasks and routines. She translates three big scientific ideas into step-by-step guidance that shows us how to set better priorities, make our time go further, ace every interaction, be our smartest selves, strengthen our personal impact, be resilient to setbacks, and boost our energy and enjoyment. Through it all, Webb teaches us how to navigate the typical challenges of modern workplaces, from conflict with colleagues to dull meetings and overflowing inboxes, with skill and ease. Filled with stories of people who

have used Webb's insights to boost their job satisfaction and performance at work. *How to Have a Good Day* is the book so many people wanted when they finished *Nudge*, *Blink*, and *Thinking Fast and Slow* and were looking for practical ways to apply this fascinating science to their own lives and careers. A remarkable and much needed book. *How to Have a Good Day* gives us the tools we need to have a lifetime of good days.

**Not a Good Day to Die** Sean Naylor, 2005-03-01 Award winning combat journalist Sean Naylor reveals a firsthand account of the largest battle fought by American military forces in Afghanistan in an attempt to destroy al Qaeda and Taliban forces. At dawn on March 2, 2002, America's first major battle of the 21st century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Division flew into Afghanistan's Shah i Kot Valley and into the mouth of a buzz saw. They were about to pay a bloody price for strategic high level miscalculations that underestimated the enemy's strength and willingness to fight. Naylor, an eyewitness to the battle, details the failures of military intelligence and planning while vividly portraying the astonishing heroism of these young, untested US soldiers. Denied the extra support with which they trained, these troops nevertheless proved their worth in brutal combat and prevented an American military disaster.

**Make a Good Day** Daniel D. Heer, 2011-10 Dr Heer is a practical problem solving, no excuses oriented individual. He is a man of many talents: he can build a boat, sew your prom dress, or fix you a Swedish dish called Potato Lefse. He has several hobbies which include the following: bird hunting, Mako shark fishing, boat building, welding, wood working, tennis, and others. He believes exercise is the key to health and walking is ideal for man. We are designed to be vegetarians because it fits our anatomy. He and his wife Sandra, 44 years, have 4 children and 6 grandchildren. He served 4 years in the U S A F United States Air Force as a weapons mechanic and taught high school biology for 5 years. Dr Heer is in his early seventies and still practices all phases of dentistry 2 days a week and believes he has the best job in the world. Each day your actions should make the world a better place than what you found it and continuing this each day will allow you to become self actualizing. He wrote this book believing people can change and hope those who seek help don't simply have a good day but MAKE A GOOD DAY.

*No One Knows When It's a Good Day* Thomas Starnes, 2014-09-26 To call this simply a book of sermons does not do it justice. They are sermons preached over a thirty five year period to differing congregations but they are also lessons on life and living. Biblically based to be sure but the scriptures are filtered through a mind steeped in the classics, open to what's going on in the world and not afraid to raise questions that challenge the very faith that is being preached. Although Rev Starnes is known for his preaching skills, he is primarily a writer who, as someone says, knows how to string words together. A note worthy comment made when considering his book is what one said: He writes for the ear.
