Good Deeds In Old Age Volunteering By The New Leisure Class:

Volunteering As Leisure/leisure As Volunteering Robert A. Stebbins, Margaret Graham, 2004-04-07 Volunteerism is a topic of increasing importance in this age of budget cuts declining employment and amid the threat posed by other competing leisure pursuits There are both social and economic benefits of volunteering As we are becoming more reliant on volunteers there is a need for a better understanding of why people take up volunteering and how to recruit manage motivate and support volunteers most effectively In order for organisations that host volunteers to achieve the most from their volunteers they must understand how to give them the best leisure experience This book examines critical aspects of contemporary volunteerism from the perspective of a variety of volunteering contexts It will appeal to academic researchers and students in disciplines such as leisure recreation tourism management and sociology as well as practitioners in the voluntary sector including volunteers National and Local Government and those organising special events that depend on voluntary support

Good Deeds in Old Age Susan Maizel Chambré, 1987 Leisure and the Motive to Volunteer: Theories of Serious, Casual, and Project-Based Leisure Robert A. Stebbins, 2015-10-29 Volunteering and its nonprofit organizations have commonly been analyzed in economic terms with volunteering being referred to as unpaid productive work This economic definition has been around far longer than that of volunteering conceived of as leisure which is discussed as the volitional definition By means of a lengthy literature review this book sets out the theoretical and empirical contributions of the serious leisure perspective to understanding volunteer motivation This second approach began more than 40 years ago It answers the key motivational question of why people engage in unpaid productive work laborious or not Since in this conception payment in cash or in kind is not an incentive to perform such work what encourages people to volunteer The serious leisure perspective unlike mainstream economics can shed considerable light on this question **The Oxford Handbook of Work and Aging** Jerry W. Hedge, Walter C. Borman, 2012-03-16 The area of work and aging is complex and multi faceted Its foundation is formed by a wide array of disciplines that both contribute to the complexity of its understanding and offer fertile promise for research development and application in the years ahead With an ever growing population of older workers many of whom are suggesting they will likely continue to work past traditional retirement age it becomes all the more important that we increase our efforts to develop a more thorough understanding of older workers the nature of their interactions with work and the organizations for which they work and the process of transitioning to retirement Clearly there are huge societal and global challenges that will both inform and influence research and application at the individual and organizational levels The Oxford Handbook of Work and Aging examines the aging workforce from an individual worker organization and societal perspective and offers both an integration of current cross disciplinary knowledge and a roadmap for where research and application should be focused in the future to address issues of an aging workforce The volume is divided into six core sections demography theoretical and methodological issues the older worker organizational strategies

for an older workforce individual and organizational perspectives on work and retirement and societal perspectives with an aging workforce Bringing together seasoned authors from diverse academic and professional backgrounds new approaches to recruiting workplace flexibility and the right mix of benefits and incentives are presented as a way of engaging an older workforce

Doing Good for the Aged Pat Keith, 2003-04-30 This book is about the subjective and objective outcomes of the work of volunteer advocates in nursing facilities The majority of the volunteers were older and they served older persons through their work in an ombudsman program The extent of involvement of older persons in volunteering suggests its importance to them and it increasingly sustains human service programs for both the young and old Despite an increased emphasis on independent and assisted living for older persons the need for oversight of care welfare and rights of the aged in nursing facilities remains Indeed in recognition of the need to provide advocacy services for vulnerable elderly the Older Americans Act was amended in 1978 to require states to establish nursing home ombudsman advocacy programs Ombudsman programs are based on the assumption that community involvement through volunteers will have a watchdog effect on behalf of residents and increase accountability among staff and administrators of nursing homes The present study reveals volunteers experiences in ombudsman programs It provides insight into volunteers thoughts about their work and their capabilities prior to their involvement as well as independent measures of the work of volunteers
