becoming too strict in populations created to be more balanced It would hinder progress by choking creativity which would turn the Life Force against him So he doesn't push too much He knows he has to temper his ways with different populations So what does Satan do He influences radical religious minds to become unreasonable to become inflexible ungrateful and unable to assimilate into European cultures Satan makes them overstep their boundaries in Europe But to what purpose How does this help him Satan knows the right brains in white Europeans will grow resentful and find Islamic laws repugnant in their own nations in the long run This in turn will trigger a group genetic response in whites to become racist for real When social approval for the attitude becomes condoned Every biological group like a body has a safety mechanism built into it to protect the body from foreign invaders When our bodies realize they have been invaded by germs an alarm is triggered A biological alarm which triggers the production of white cells in them There is a similar group mechanism which protects racial gene pools Satan is trying to trigger it in Europe But he can't do it unless Muslims don't assimilate into Europe without trying to subvert it So what does he have to do to pull this trigger He has to inject hatred of Western life styles into the minds of radical Muslims Making them hate the Western nations they live in Making them headstrong and intolerant Making it impossible for them to assimilate into European culture Even making them insist on living under Islamic law in populations which couldn't tolerate it The English the Italians the French the Spanish the Germans the Russians and more populations could never live under Islamic law Not unless they were conquered Which is why some Muslims believe they have to conquer Europe not with guns but by producing more babies When they do that they have declared war on Europeans Now back to psychic networks
