Going West:

Going West? Agathe Reingruber,Zoï Tsirtsoni,Petranka Nedelcheva,2017-04-21 Going West uses the latest data to question how the Neolithic way of life was diffused from the Near East to Europe via Anatolia The transformations of the 7th millennium BC in western Anatolia undoubtedly had a significant impact on the neighboring regions of southeast Europe Yet the nature pace and trajectory of this impact needs still to be clarified Archaeologists searched previously for similarities in prehistoric especially Early Neolithic material cultures on both sides of the Sea of Marmara Recent research shows that although the isthmi of the Dardanelles and the Bosphorus connect Asia Minor and the eastern Balkans they apparently did not serve as passageways for the dissemination of Neolithic innovations Instead the first permanent settlements are situated near the Aegean coast of Thrace and Macedonia often occurring close to the mouths of big rivers in secluded bays The courses and the valleys of rivers such as the Maritsa Strymon and Axios were perfect corridors for contact and exchange Using previous studies as a basis for fresh research this volume presents exciting new viewpoints by analyzing recently discovered materials and utilising interdisciplinary investigations with the application of modern research methods The seventeen authors of this book have dedicated their research to a renewed evaluation of an old problem namely the question of how the complex transformations at the transition from the Mesolithic to the Neolithic can be explained They have focused their studies on the vast area of the eastern Balkans and the Pontic region between the Bosphorus and the rivers Strymon Danube and Dniestr Going West thus offers an overview of the current state of research concerning the Neolithisation of these areas considering varied viewpoints and also providing useful starting points for future investigations Going West Earley C. Camp,2014-04-07 Hard work and taking risks were part of the adventure On a hot Oklahoma City day in the summer of 1956 Marley and his best friend Stick climbed into a 49 Chrysler and headed for Route 66 Their destination Seattle the farthest city away in the United States With a stack of road maps a collective worth of less than 300 and boundless determination they set out on a road trip that would take them through plains and deserts and mountains finally to lay eyes on the ocean for the first time Along the way they encountered an assortment of characters both friend and foe survived a variety of perils and made new discoveries about each other and about themselves **Going West on the Silk Road** Cash Cashion,2017-01-25 The book starts at the end of his first book The Cowboy and the Eight Immortals as they plan to leave China via the Silk Road where the paleontologist plans to dig for bones and ship them back to the United States They plan to travel the Silk Road back to the Black Sea and then to England where Ryans Lady Jane lives The run into the Second Afghan War at the Khyber Pass and are stopped from completing their first objective Then they finally see Dr Watson and Lady Jane takes Watson back to England while Ryan goes back to China to save Empress Kin a second time from people seeking her throne **Go West!** Bernhard Hemetsberger,Andreas Oberdorf,2025-03-31 The West is a central concept in public discourse but its meaning is often unclear and open to manifold interpretations and ascriptions of belonging and

exclusion Who is part of the West When and where is it located How did its meaning change over space and time Who are the mediators of the West and what is their interest in terms of culture and education The West is often used without any critical questioning though This is also reflected in history of education research especially with focus on transnational or transatlantic issues Here the West is a sort of container term or fuzzy concept that can refer to a variety of historical entanglements and cultural transfers in school systems and education but also to conflicts and crises accordingly This book aims to stimulate a critical reflection and debate on ideas of the West in the history of education by gathering scholars from various fields of historical research With a reflexive historical distance to current political incidents in which ideas of the West are revived the contributions in this book are intended to enable readers to evaluate representations of the West in current academic or public discourses and debates alike

The Children of Seven Climates Halil Ibrahim Balkas, 2021-06-23 If a bomb kills everyone on its path who should we blame Should it be the person who exploded it or the one who invented it in the first place for the sake of science Who can say that science always has advanced humanity If a bomb killed all adults on earth and left innocent children and animals

behind alive would it still be considered an unfortunate event Merrymaker 15 was its name It was invented as a bomb to be exploded experimentally in Congo Basin At first people watched it explode and display some nice fireworks in the sky Who would know it was going to kill everyone over 15 years old Who would know the children in the whole wide world would wake up one day and their parents wouldn't answer their calls It is time for children to hold power in their tiny hands It is time for them to take over the world covered with evil by the previous generations If you have ever wondered what a place the world would be if the children ruled the world you will find the answers in this book It is because in this story children are the only people who are left alive This is the story of a guilty world handed over to innocent children from Dystopia to Utopia *Love American Style* Kimberly Freeman, 2004-03-01 A popular subject in sociology and cultural studies divorce has until recently been overlooked by literary critics Spanning nearly a century during which the divorce rate skyrocketed *Love American Style* traces the treatment of divorce in the American novel This book draws upon popular sociological political and architectural history to illustrate how divorce reflects conflicting ideologies and notions of American identity Focusing primarily on work by William Dean Howells Edith Wharton Mary McCarthy and John Updike Kimberly Freeman delineates a system of tropes particular to divorce in American novels such as the association of divorce with the West and modernity the dismantling of the home and the disruption of the boundary between the public and the private These tropes suggest a literary tradition of love marriage and divorce that is central to twentieth century American fiction Offering an explanation for both the treatment of divorce in the American novel as well as its predominance in American culture this book should appeal to scholars of American literature and popular culture or anyone interested in how divorce has become so American
