Going Sour R. Gould, 2013-11-27 Going Sour Roy Gould, 1985 **Science and Politics** Brent S. Steel, 2014-04-21

Recent partisan squabbles over science in the news are indicative of a larger tendency for scientific research and practice to get entangled in major ideological divisions in the public arena This politicization of science is deepened by the key role government funding plays in scientific research and development the market leading position of U S based science and technology firms and controversial U S exports such as genetically modified foods or hormone injected livestock This groundbreaking one volume A to Z reference features 120 150 entries that explore the nexus of politics and science both in the United States and in U S interactions with other nations The essays each by experts in their fields examine Health environmental and social cultural issues relating to science and politics Concerns relating to government regulation and its impact on the practice of science Key historical and contemporary events that have shaped our contemporary view of how science and politics intersect **Science and Politics An A to Z Guide to Issues and Controversies** is a must have resource for researchers and students who seek to deepen their understanding of the connection between science and politics *Air Pollution Control Law* Arnold W. Reitze, 2001 *Air Pollution Control Law* provides explanation of the legislative provisions regulatory requirements and court decisions that comprise the body of air pollution control law **Acid Rain, 1986** Sheldon Cheney, 1987 Acid Precipitation , 1984 **Handbook of Global Environmental Policy and Administration** Dennis Soden, Brent R. Steel, 1999-07-16 Presenting case studies involving Rwanda Nepal Australia Japan and Mexico including real time policy and administrative questions this versatile reference text provides a wide perspective on national and international environmental problems and policies featuring discussions with a regional emphasis as well as global significance Pooling the work of over 60 international contributors in disciplines ranging from anthropology to political science the *Handbook of Global Environmental Policy and Administration* illustrates how environmental concerns are incorporated into administrative functions and policy processes The Environmental Case Judith A. Layzer, Sara R. Rinfret, 2019-08-13 Answers to environmental issues are not black and white Debates around policy are often among those with fundamentally different values and the way that problems and solutions are defined plays a central role in shaping how those values are translated into policy *The Environmental Case* captures the real world complexity of creating environmental policy and this much anticipated Fifth Edition contains fifteen carefully constructed cases Through her analysis Sara Rinfret continues the work of Judith Layzer and explores the background players contributing factors and outcomes of each case and gives readers insight into some of the most interesting and controversial issues in U S environmental policymaking **Acid Rain** Jack L. Durham, 1990 **Predictive Ecology and the Politics of Science in the Acid Rain Battle of Wisconsin** Robert A. Lovely, 1989 **Energy Abstracts for Policy Analysis** , 1986 **Acid Earth** John McCormick, 2013-11-05 Acid rain was one of the major environmental issues of the 1980s But while industrialized countries have taken measures to

reduce the emissions that lead to acidification the problems have not gone away Trees are still dying lakes are still being made uninhabitable buildings are still corroding and human health is still suffering The most worrying trend is the repetition in the industrializing countries of Asia and Latin America of the problems that have long afflicted Europe and North America More than 10 years after it was first published the highly acclaimed Acid Earth still provides the only global view of acidification and remains the standard text on the subject Chapters on the causes effects and growing scientific understanding of acid pollution and the possible solutions are followed by detailed studies of the political struggles involved in responding to acid damage in western and eastern Europe the US and the newly industrializing countries Written in non technical language for people interested in the problems of the environment Acid Earth calls for a renewed sense of public and political will to bring the problems of acid pollution under control The book also makes valuable reading for specialists and students Originally published in 1992 **The Protection of Ground and Surface Waters, January 1982-August 1987** ,1988 **Books for Young People on Environmental Issues** ,1990 Selected books for children from kindergarten through the sixth grade and for students in grades seven through twelve **Managing the global environment** ,1990

Environmental Studies Diane M. Fortner,1994 Written for young people who are just beginning to develop an awareness about one planet one people and one home Includes nature writings legal history current news and a prediction for the future Journal of Borderlands Studies ,2004 **State** ,1988 **Chinese Agricultural Development, 1979-June 1986** Charles N. Bebee,1986 **Localizing Foreign Policy** B. Hocking,1993-10-15 Accompanying the oft noted globalisation of international relations there is an equally significant trend towards localisation as a range of subnational constituencies and the authorities that represent them respond to externally generated pressures on the one hand and seek to exploit enhanced opportunities to operate in the international arena on the other The book examines these developments in the context of the growing international involvement of the non central governments within federal states Employing a number of case studies it argues that the significance of these developments can best be understood as one facet of an increasingly complex multilayered diplomacy as national policy makers are forced to negotiate simultaneously with domestic and foreign interests in the pursuit of policy objectives
