When Tibetan Meditation Goes Global Mara Lisa Arizaga,2022-08-22 This book provides an in depth examination of the Yungdrung Bon religion in light of globalization In its global dimension Bon has been attracting a growing number of Westerners particularly to its Dzogchen teachings and meditation practices In this expansion Bon operates in a dynamic context where forces that create changes in the tradition coexist sometimes in tension and sometimes in tandem with other forces that aim to preserve it In tracing the process through which Bon has become a global religion this monograph narrates the story of the principal figures who initially facilitated this transmission following their journey from Tibet to India and Nepal The

narrative then moves to explore the dynamics taking place in the transmission and reception of Yungdrung Bon in Western countries opening up a new viewpoint on the expansion of Tibetan religious traditions into the West and painting a comprehensive picture of the modern history of the Yungdrung Bon religion as narrated by its participants In so doing it makes an invaluable contribution to the study of Tibetan traditions in the West as well as to the wider history of religions social anthropology psychology and conversion studies      *Shangri-La* Michael Buckley,2008-11-25 Appealing to the adventure traveler or armchair reader who simply wishes to browse and dream this guide promises to lead them into the glorious reality and breathtaking landscapes of the Himalayas      *Travel Dreams and Nightmares* Szabo, et. al.,2013-04 At a fateful travel writing workshop Barbara Louise and Janet knew they had to collaborate Soon Wendy joined them and the new writing group got to work LOUISE enjoys easy travels wine and good food She takes you deep inside a Hungarian wine cellar and travels from Dawson City in the wild north of Canada to Guadeloupe and Barbados JAN adores the sea She recounts the adventures of flying around Cape Horn exploring the Galapagos and learning to jump off a boat near Ireland s wild Aran Islands WENDY seeks out those places most of us wouldn t dare to visit She s been to much of Africa and Asia and calls Pakistan her second home While sick in Malawi she found refuge in a tea estate In Germany she discovered lost Jewish roots BARBARA the group s hiker has traveled through Mali fed hungry children in Kinshasa and trekked around Mont Blanc and into the Himalayas for a glimpse into the Dragon Kingdom of Bhutan and the Valley of the Flowers in India Here they share adventures and mishaps frustrations and delights They invite readers in for intimate reflections on what it means to travel and why they are so drawn in by the planet s many siren songs      **Among Warriors** Pamela Logan,2004 The province of Kham is one of the remotest regions in all of Tibet and its people the fierce horsemen who for twenty five years waged a relentless guerilla war against the Chinese occupation the most elusive In *Among Warriors* Pamela Logan a recognized expert in the martial arts gives a breathtaking account of her journey across the windswept plateaus and icy mountain passes of eastern Tibet to find them Written with vast sympathy for an embattled culture Logan s vivid evocation of drinking tea with monks and herdsmen dodging Chinese police and observing pilgrims making their way toward Lhasa will captivate anyone interested in Buddhism the martial arts or one of the world s last inaccessible regions      **PRESENTATIONS Causes, Conditions and Remedies of Mental Disorders ( 3rd Body, Mind and Life Conference)** Geshe Tenpa Tashi, Head, Body, Mind and Life Department,2018-03-15 Message of His Holiness the Great 14th Dalai Lama I would like to express my deep appreciation and Tashi Delek to all of you for holding this 2nd International Conference on Body Mind and Life There are more than seven billion people on our earth and all of us desire to be mentally happy and physically healthy Even a newly born baby wishes to be mentally happy and physically well so does an old dying person Today right here you as listeners and I as a speaker all of us equally wish to be happy rather than sad Naturally we all desire happiness and we all have equal rights to achieve that happiness Not only human beings but also all the sentient beings who have consciousness

want to be happy and avoid suffering As Shantideva said all the sufferings that we experience are because of our selfishness and all the happiness that we gain are all because of wishing happiness for others If we examine properly when one thinks about only the welfare of oneself his or her mind becomes extremely narrow The concept of I is very limited When we apply we instead of I it broadens our thinking We as human beings are by nature social animals and very much dependent on each other If you are a Buddhist practitioner in general and a Mahayana follower in particular or if you have heard about the Bodhisattva Basket or Pitaka all these talk about every sentient being If you observe this concept out of the blue it would seem as if you haven't thought much about its meaning However the fact is that how much you have altruism and concern for others' welfare the same degree of mental peace and happiness will resonate back If you have concerns only about I there will be a lot of worry When you are concerned on the welfare of all sentient beings the courage and peace naturally grows within your mind When I is the main concern then there would be more suspiciousness distrust deceitfulness and bullying to each other When we think of others' welfare and treat all others equally keeping in mind that everyone is same in terms of wishing happiness and not wishing suffering there will be no cheating bullying and pretending You can be more transparent in your approach When you are capable of being transparent there will be more trust When you are trustworthy there will be a genuine friendship Without trust in each other when concerns are only on I you tend to spend your life in doubts and hesitations There is no delight in that at all In order to achieve physical happiness and good health which is our prime goal it is really essential to have mental peace Nowadays scientists are stating that when mind gets disturbed or disordered with destructive emotions like anger doubt or fear our immune system starts declining Therefore remaining mentally calm makes a huge difference for good physical health Few days ago I had a meeting with a German friend who said that I was looking very young He is 59 years old whereas I am 79 years old That means he is 20 years younger than me But he looks much older than me in appearance Therefore he asked me that what my secret behind the youthfulness was though my age has reached almost 80 I told him It is my big secret I will not tell you In my approach all the seven billion people on earth are very much same I consider myself as one of the seven billion people I never think of myself as a special or a popular person I never think of me as an important figure or I am Gyalwa Rinpoche Whenever I meet people with different background I consider them as another same human being There is not any feeling of hesitancy or distance to anybody So it feels as if my mind is opened freely As a result there is no fear nervousness and doubtful thoughts in my mind It makes a huge difference in my day to day life That was what I told him I also told him by teasing As a Buddhist monk I wake up at 3 AM and meditate for a while I meet people for the day As a bhikkhu I skip dinner and go to bed by 6 to 7 PM My life goes on in this way But then you eat dinner late in the night At the same time drink alcohol and get drunk There is huge difference between our ways of life Anyway the most important thing is to have peace of mind The root of mental calmness as I told you before depends on your attitude But in our everyday life it is important to keep our physical body calm and peaceful and try to avoid disorder as well I told him as

a joke As a monk I cannot go to night club When our body follows a particular routine in 24 hours I think that makes a huge difference So for good physical health and well being it is essential to maintain the balance of mind To sum up scientists in our time are immensely curious about the mental peace for physical wellbeing They are saying that brain can be changed by transforming your mind Earlier many scientists maintained a scientific consensus that there is no existence of so called mind apart from our body rather it s the function of brain They asserted that the mental state of happiness or sorrow occurs when there is a change in brain and body Recently they started to accept that it is not easy to change the brain itself in a healthy way Instead it turns out that brain can be changed by training of mind In the context of neuroplasticity it says that when there is change in mind there is a cellular growth or changes in brain In general when we talk about health and fitness we cannot put the mind aside The wellness of physical health is very much dependent on the clarity and intelligence of mind However the mind and body has the relationship of support and supported These are unconditionally associated with each other So there is a growing interest and curiosity for the relationship between the mind and body Thus it is need of time for convening such a conference on body mind and Life Not only sharing your knowledge and intellect but also you are practically working on exploring remedies for solving the physical and mental health It s wonderful I would like to thank all the organizers     Dolpo Karna Sakya,1978 Narration of the author s expedition to some remote parts of Nepal     Crisis and Contagion Ian McKay,2023-10-17 Crisis and Contagion is a selection of fourteen interviews conducted by Ian McKay of the Wilson Institute at McMaster University Interviews with Nancy Fraser Mike Davis Mack Penner Andreas Malm and Merrill Singer explore capitalism s organic crisis and the ways it has made this and future pandemics inevitable Nora Loreto Tithi Bhattacharya Chandrima Chakraborty Merlin Chowkwanyun and Sanjay Nepal discuss the experiences of ordinary people in the pandemic J Michael Ryan Laura Spinney Naomi Klein and Noam Chomsky explore the long term effects and likely historical legacy of a pandemic that has changed millions of lives and maybe the trajectory of human civilization These scholars propose that to understand the impact of Covid 19 we have to understand the conflictual history of capitalism and to ward off future pandemics we need to start building a post capitalist alternative to the disease generating and highly unequal global neoliberal order As capitalist forces work to shove what we have learned from the Covid 19 pandemic down the memory hole Crisis and Contagion offers a must read for those wanting to seize this moment of change and revolution
