Gold Diggers Diggings:

Notes of a Gold Digger, and Gold Diggers' Guide James Bonwick, 2022-09-04 In *Notes of a Gold Digger and Gold Diggers Guide* James Bonwick offers a captivating exploration of the gold rush phenomenon that swept across Australia in the mid 19th century. The book combines elements of memoir and practical guide, providing readers with a vivid account of the daily lives, trials and triumphs of prospectors. Bonwick's literary style is characterized by its rich descriptive language, creating an intimate connection between the reader and the landscape of the goldfields. Positioned within the broader context of Australian colonial literature, this work reflects both the dreams and harsh realities experienced by those seeking fortune during a time of great economic upheaval and migration. James Bonwick, born in 1817, was not only an author but also an educator and historian whose own experiences during the gold rush profoundly shaped his perspectives. His involvement in the educational reform and his firsthand experiences as a gold digger provide authenticity and depth to the narrative. Bonwick's insights reveal a nuanced understanding of the socioeconomic forces at play and the human spirit's resilience in the face of adversity. Readers interested in Australian history as well as those drawn to adventure and personal narratives will find Bonwick's work compelling. *Notes of a Gold Digger and Gold Diggers Guide* serves as both a historical document and an entertaining read, enriching our understanding of a pivotal chapter in Australia's development.

Stories of the Gold Diggings. Collected from the Gold Diggers Settled in New Zealand by E.M. Story Edith Mary STORY, 1927 *The Gold Digger* Rev. David MacKenzie, 1853

Digging Deep Jade Davenport, 2013-12-18 Before the advent of the great mineral revolution in the latter half of the 19th century, South Africa was a sleepy colonial backwater whose unpromising landscape was seemingly devoid of any economic potential. Yet lying just beneath the dusty surface of the land lay the richest treasure trove of gold, diamonds, platinum, coal, and a host of other metals and minerals that has ever been discovered in one country. It was the discovery and exploitation of first diamonds in 1870 and then gold in 1886 that proved the catalyst to the greatest mineral revolution the world has ever known, which transformed South Africa into the supreme industrialised power on the African continent. Here for the first time is the complete history of South Africa's phenomenal mineral revolution, spanning a period of more than 150 years from its earliest commercial beginnings to the present day, incorporating seven of the major commodities that have been exploited. *Digging Deep* describes the establishment and unparalleled growth of mining, tracing the history of the industry from its humble beginnings, where copper was first mined on a commercial basis in Namaqualand in the Cape Colony in the early 1850s, to the discovery and exploitation of the country's other major mineral commodities. This is also the story of how mining gave rise to modern South Africa and how it compelled the country to develop and progress the way in which it did. It also incorporates the stories of the visionary men Cecil Rhodes, Alfred Beit, Barney Barnato, Sir Ernest Oppenheimer, Sammy Marks, and Hans Merensky, who pioneered and shaped the development of the industry on which modern South Africa was built.
