Gold Their Touchstone Roy Macnab,1987 **Consolidated Gold Fields in Australia** Robert Porter,2020-04-29

Consolidated Gold Fields was a major British mining house founded by Cecil Rhodes in 1892 Diversifying from its South African gold interests the company invested widely during the following century This included investments in the Western Australian gold sector from the 1920s and exploration and mining activities elsewhere in Australia and the Territory of New Guinea In the 1960s Consolidated Gold Fields Australia CGFA was formed CGFA had ambitious plans and the financial backing from London to establish itself as one of the main diversified mining companies in Australia Investments were held in the historic Mount Lyell Mining and Railway Company in Renison and it was one of the first groups to develop iron ore deposits in the Pilbara of Western Australia It also acquired a major interest in mineral sands While the London based Consolidated Gold Fields ceased to exist in 1989 taken over and dismembered by renowned corporate raider Hanson Plc its Australian subsidiary renamed Renison Goldfields Consolidated RGC continued for another nine years as a diversified mining group before it suffered its own corporate demise facilitated by Hanson CGFA and RGC were important participants in Australia s post World War II mining sector This book is a history of a once great British mining finance house and its investments in Australia Consolidated Gold Fields had a rich and broad history in Australia its ultimate fate did not demonstrate its potential as an Australian mining company

The History of Geophysics in Southern Africa Johan H de Beer,2016-01-25 Geophysics is a comparatively young science which only evolved as a distinct discipline during the 19th century However its phenomena like earthquakes tsunamis volcanic eruptions and lightning had been objects of fear curiosity and speculation since ancient times In this book Johan de Beer and his research team reveal that geophysical activity in South Africa can be traced back to as early as 1488 This is a truly astonishing revelation which deserves to be firmly entrenched as part of the country s proud history The book also discusses the history and formation of South African geophysical institutions that made a huge and seldom acknowledged contribution to the technological development of southern Africa

Daisy de Melker Ted Botha,2023-04-26 Mother Nurse Gold digger Cause c l bre When Daisy de Melker stood trial in 1932 accused of poisoning her son and two husbands the public couldn t get enough of her Crowds gathered outside court baying for blood and she waved to them like a celebrity Against the backdrop of Johannesburg in its golden age a booming metropolis of opulence and chaos nicknamed the City of Gold and the University of Crime she had quietly gone about her sinister business while around her sensational crimes grabbed the headlines There was the marauding Foster Gang which left at least ten people dead a dashing German hustler a local Bonnie and Clyde an innocent student walking in Zoo Lake park at the wrong time and a man who escaped death row to become one of South Africa s most revered authors These interlinking stories are told in the style of a thriller and with riveting kaleidoscopic detail In Daisy de Melker Ted Botha weaves together a fantastic cast of killers and con men detectives and lawmen journalists and authors even Sir Arthur Conan

Doyle and Herman Charles Bosman to depict a grand and desperate city For almost twenty years Daisy hid in the shadows but when someone finally spoke up about the suspicious deaths around her it led to a trial like nothing the City of Gold had ever seen and spread her name across the world Bulls, Bears, Boers and Brits Ian Phimister, 2025-01-07 In the 1890s financial speculation and market manipulation were prominent features of the Southern African gold mining industry Extravagantly capitalised starved of working capital and poorly managed many mines could not be made to pay Investors suffered more at the hands of Randlords than they did from those of the Boer Government in Pretoria By failing to take any of this into serious consideration accounts that focus on mining company complaints as the root cause of the Jameson Raid and the outbreak of war in 1899 are missing a key dimension of the past **The Experience of Economic Redistribution** Clarence Tshitereke, 2006-10-09 This book provides an analysis of the country's political economy in transition It documents the history of the gold mining industry's involvement in shaping the political landscape of South Africa and shows the degree to which the political transition was induced to put in place a new mode of regulation for capital accumulation In the process the victims of apartheid have now become victims of democracy's neo liberalism as the government is constrained from being developmental interventionist and redistributive **Engineering Nature** Jessica B. Teisch, 2011-02-01 Focusing on globalization in the late nineteenth and early twentieth centuries Jessica Teisch examines the processes by which American water and mining engineers who rose to prominence during and after the California Gold Rush of 1849 exported the United States growing technical and environmental knowledge and associated social and political institutions In the frontiers of Australia South Africa Hawaii and Palestine semiarid regions that shared a need for water to support growing populations and economies California water engineers applied their expertise in irrigation and mining projects on behalf of foreign governments and business interests Engineering Nature explores how controlling the vagaries of nature abroad required more than the export of blueprints for dams canals or mines it also entailed the problematic transfer of the new technology's sociopolitical context Water engineers confronted unforeseen variables in each region as they worked to implement their visions of agrarian settlement and industrial growth including the role of the market government institutions property rights indigenous peoples labor and not last the environment Teisch argues that by examining the successes and failures of various projects as American influence spread we can see the complex role of globalization at work often with incredibly disproportionate results *Historia*, 2003 Mining the American West David J.
