**Gold, A Play In Four Acts** Eugene O'Neill,2024-02-03 Excerpt Scene A small barren coral island on the southern fringe of the Malay Archipelago The coral sand blazing white under the full glare of the sun lifts in the right foreground to a long hummuck a few feet above sea level A stunted coco palm rises from the center of this elevation its bunch of scraggly leaves drooping motionlessly casting a small circular patch of shadow directly beneath on the ground about the trunk About a hundred yards in the distance the lagoon is seen its vivid blue contrasting with the white coral beach which borders its circular outline The far horizon to seaward is marked by a broad band of purplish haze which separates the bright blue of the water from the metallic grey blue of the sky The island bakes The intensity of the sun s rays is flung back skyward in a quivering mist of heat waves which distorts the outlines of things giving the visible world an intangible eerie quality as if it were floating submerged in some colorless molten fluid     **GOLD** EUGENE G.
