Shanghaiing Sailors Mark Strecker, 2014-05-19 Shanghaiing or forcing a man to join the crew of a merchant ship against his will plagued seafarers the world over between 1849 and 1915. Perpetrators were known as crimps and they had no respect for a man's education, social status, race, religion, or seafaring experience. The merchant ships were involved in the opium, tea, and gold trades, and the practice was spurred by the opening of the Suez Canal. A major reason for it was a shortage of sailors and the unwillingness of seamen to sail on certain types of ships. They suffered from great deprivations all for a paltry sum usually squandered during shore leave. Navies and pirates had their own form of shanghaiing called impressment. This work explores the rich history of shanghaiing and impressment with a focus on victims and also considers the 19th century seafarer and the circumstances that made shanghaiing so lucrative.

The Dreamt Land Mark Arax, 2020-04-07 A vivid searching journey into California's capture of water and soil, the epic story of a people's defiance of nature and the wonders and ruin it has wrought. Mark Arax is from a family of Central Valley farmers, a writer with deep ties to the land who has watched the battles over water intensify even as California lurches from drought to flood and back again. In *The Dreamt Land* he travels the state to explore the one-of-a-kind distribution system built in the 1940s, 50s, and 60s that is straining to keep up with California's relentless growth. *The Dreamt Land* weaves reportage, history, and memoir to confront the Golden State myth in riveting fashion. No other chronicler of the West has so deeply delved into the empires of agriculture that drink so much of the water. The nation's biggest farmers, the nut king, grape king, and citrus queen, tell their story here for the first time. Arax, the native son, is persistent and tough as he treks from desert to delta, mountain to valley. What he finds is hard-earned, awe-inspiring, tragic, and revelatory. In the end, his compassion for the land becomes an elegy to the dream that created California and now threatens to undo it.

Consuming Identities Amy K. DeFalco Lippert, 2018 *Consuming Identities* restores the California gold rush to its rightful place as the first pivotal chapter in the American history of photography and uncovers nineteenth-century San Francisco's position in the vanguard of modern visual culture.

Revolvers and Pistolas, Vaqueros and Caballeros D. H. Figueredo, 2014-12-09 This riveting exposé reveals how a distorted belief in Anglo superiority necessitated the rewriting of American western history, replacing heroic images of Mexican and Spanish cowboys with negative stereotypes. Early Anglo settlers in the Old West crafted negative images of Latinos in part to help justify the takeover of land occupied by Mexicans and Spaniards at the time. Unfortunately, these depictions were perpetuated throughout the 20th century in art, popular culture, and media, eventually reshaping the narrative of the American West to the exclusion of the non-Anglo people. This book contrasts dominant lore with historical reality to provide a broad overview of the history and contributions of Latinos in the Old West. Author D. H. Figueredo sets out to debunk the myths and falsehoods of the American West by chronicling the cultural perceptions that led to such historical inaccuracies. Through spellbinding accounts, chapters address such topics as the legends behind the caballeros, Mexican culture in the Old West, and the search for cities of gold in the Southwest. Arranged chronologically and thematically, the book

examines how popular culture diminished the role of the Mexican vaqueros and illustrates how the image of the Anglo cowboy became the iconic symbol of the Old West *Frontier Comrades* Jim Wilke, 2025 *Frontier Comrades* examines LGBTQ experience in the American West through six accounts of lesbian gay bisexual and transgender lives each in a different part of the West moving chronologically from the fur trade era to the dawn of the automobile age *A History of Western American Literature* Susan Kollin, 2015-12-11 The American West is a complex region that has inspired generations of writers and artists Often portrayed as a quintessential landscape that symbolizes promise and progress for a developing nation the American West is also a diverse space that has experienced conflicting and competing hopes and expectations While it is frequently imagined as a place enabling dreams of new beginnings for settler communities it is likewise home to long standing indigenous populations as well as many other ethnic and racial groups who have often produced different visions of the land This History encompasses the intricacy of Western American literature by exploring myriad genres and cultural movements from ecocriticism settler colonial studies and transnational theory to race ethnic gender and sexuality studies Written by a host of leading historians and literary critics this book offers readers insight into the West as a site that sustains canonical and emerging authors alike and as a region that exceeds national boundaries in addressing long standing global concerns and developments **A Companion to California History** William Devereaux, David Igler, 2014-01-28 This volume of original essays by leading scholars is an innovative thorough introduction to the history and culture of California Includes 30 essays by leading scholars in the field Essays range widely across perspectives including political social economic and environmental history Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text Produced in association with the Huntington USC Institute on California and the West **The Literature of California** Jack Hicks, 2000 This text is the first volume of a comprehensive anthology of Californian literature It is divided into four parts and contains material ranging from Native American origin myths to Hollywood novels dissecting the American dream *California History* , 2001 *Humanities* , 1998 **Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing** Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and

strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others A Rhode Island Original Sarah C. Makley, 2015-10-01 From the early 1870s until his death in 1902 John Mackay was among the richest men in the world and was without a doubt the wealthiest man to emerge from Nevada's fabulous Comstock Lode Author Michael J Makley explores how from his beginnings as a poor Irish immigrant John Mackay developed a strong work ethic that distinguished him for the rest of his life He came west to seek his fortune in the California Gold Rush and then moved on to Virginia City Nevada where he dealt in mining stocks and operated silver mines After making a fortune in mining he transferred his energies to banking and communications John Mackay offers new insight into the life and achievements of this remarkable man It also places Mackay in the broader context of his time an era of robber barons and rampant corruption rapidly advancing technology national and international capitalism and flagrant displays of newfound wealth Even in this context he stood out not only for his contributions to Nevada and mining history but also for his reputation as an important business leader fighting the

consolidation and venality of corporate power in the Gilded Age His actions freed the Comstock from a financial monopoly resulting in moderated rates for the milling timber shipping transportation and water that made mining possible and precipitated the discovery and development of the ore field known as the Big Bonanza Makley s book recounts the life and career of one of the most successful men of his age a capitalist of immense wealth who generously helped those around him and worked diligently in the public interest This engaging biography will appeal to readers interested in the Comstock Lode and mining in the West during the latter part of the nineteenth century as well as general western history enthusiasts
