**Asaf Siniver**

## **Golda Meir A Leader In Peace And War:**

**Golda Meir: A Leader in Peace and War** , *The 1973 Yom Kippur War and the Reshaping of Israeli Civil-Military Relations* Udi Lebel,Eyal Lewin,2015-05-06 The 1973 Yom Kippur War did not only have external implications on Israel but also some dramatic internal implications particularly with regards to the civil military relations as well as the fields of psychology and political sociology To this day the consequences of this war are still prevalent in Israel in terms of drafting security policies and the military doctrine After the war new identities were formed in the Israeli civil society which began to function as active agents in shaping security policy These players are not a unique Israeli case yet their actions in Israel serve as a case study that illuminates their significant impact in other countries as well This is due to the fact that the Israeli Laboratory is a liberal democratic society living with an ongoing conflict it has a mandatory army that is sensitive to fluctuations in public opinion culture and the media and issues of national security and military conduct are always a top public concern Consequently this book examines the rise of five identities and agents that were formed after the 1973 War and highlights the effects they had on the formation of Israeli defense policy from then on The book also clarifies the importance of exposure to these agents activities referring to the psycho political social factors that may actually dictate a state s international policies It therefore forms a study that connects sociology political psychology international relations the field of culture studies and studies of strategy planning Thus the book is of interest to both the domestic Israeli field of research and to the global scholarly discourse particularly to academic disciplines engaged in civil military relations political sociology political science

**Peace is in the Eye of the Beholder** Raphael Israeli,2019-07-22 No detailed description available for Peace is in the Eye of the Beholder

**Scars of War, Wounds of Peace** Shlomo Ben-Ami,2007 An Oxford trained historian who became Israeli Foreign Minister Shlomo Ben Ami was a key figure in the Camp David negotiations and many other peace talks He offers here an unflinching account of the Arab Israeli conflict informed by his firsthand knowledge

**The Art of War and Peace** David Kilcullen,Greg Mills,2025-07-03 A deeply thought provoking book full of wisdom insight and common sense by two of our foremost strategists James Holland bestselling author of *The War in the West*

FOREWORD BY SIR NICK CARTER FORMER UK CHIEF OF DEFENCE STAFF How have the character and technology of war changed in recent times Why does battlefield victory often fail to result in a sustainable peace What is the best way to prevent fight and resolve future conflict The world is becoming a more dangerous place Since the fall of Kabul and Russia s invasion of Ukraine the US led liberal international order is giving way to a more chaotic and contested world system Western credibility and deterrence are diminishing in the face of wars in Europe and the Middle East tensions across the Taiwan Strait and rising populism and terrorism around the world Can peace mutual respect and democracy survive or are we destined to a permanent chaos in which authoritarians and populists thrive Using decades of experience as policy advisors in conflicts in Iraq and across Africa and on recent fieldwork in Israel and Taiwan the authors analyse the nature of

modern war considering state on state and intra state conflicts They investigate how technology can be a leveller for small powers against larger aggressors and the role of leadership diplomacy and economic assistance Weighing up past lessons present observations and predictions about the future The Art of War and Peace explores how wars can be won on the battlefield and how that success can be translated into a stable and enduring peace      **War and Gender** Joshua S.

Goldstein,2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men s social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue      **Personality, Political Leadership, and Decision Making** Jean Krasno,Sean

LaPides,2015-07-07 This psychological study dissects the characteristics of 20 world leaders both men and women profiling the factors that formed their personalities and revealing how certain traits have shaped their political decisions Many wonder what it takes to be a leader Is it a natural or learned set of skills This book examines the personalities of a selected group of political leaders analyzes the forces that formed their nature most notably their leadership tendencies and then demonstrates how character has shaped important political decisions made during their regime The authors profile 20 different leaders from across five continents deriving shared personality traits and defining specific leadership styles based on characteristics and circumstances The work begins by introducing the field of political psychology and explaining the theoretical framework used in studying the leadership personalities covered in the book An analysis of leadership across the world considers several types of regimes authoritarian leaders in non democratic and democratic societies authoritarian mixed types flexible and pragmatic types and those who combine flexibility with delegation The text concludes by comparing leaders across time and location discussing interaction between specific heads of state Leaders profiled include Nelson Mandela Kofi Annan Saddam Hussein V clav Havel Angela Merkel and Emperor Hirohito among others      *The Suffragist Peace* Joslyn Barnhart,Robert F. Trager,2023 Women s suffrage is often recognized as one of the most significant political events of the 20th century But conventional wisdom has long held that giving women the right to vote has had little effect on our world The Suffragist Peace shatters this perspective An authoritative history of the entire century in which women have had the vote this book shows how the political influence of women at the ballot box has made the world a more peaceful place Wars have not ended but this book powerfully demonstrates how women gaining the franchise has contributed to war s decline over the past century

*The Yom Kippur War* Asaf Siniver, 2013-10-01 A detailed and comprehensive account of the politics diplomacy and enduring legacy of one of the key conflicts of modern times

*The October 1973 War* Asaf Siniver, 2013-09-30 The October War of 1973 also known as the Yom Kippur War was a watershed moment in the history of the Arab Israeli conflict and the modern Middle East more broadly It marked the beginning of a US led peace process between Israel and her Arab neighbours it introduced oil diplomacy as a new means of leverage in international politics and it affected irreversibly the development of the European Community and the Palestinian struggle for independence Moreover the regional order which emerged at the end of the war remained largely unchallenged for nearly four decades until the recent wave of democratic revolutions in the Arab world The fortieth anniversary of the October War provides a timely opportunity to reassess the major themes that emerged during the war and in its aftermath and the contributors to this book provide the first comprehensive account of the domestic and international factors which informed the policies of Israel Egypt Syria and Jordan as well as external actors before during and after the war In addition to chapters on the superpowers the EU and the Palestinians the book also deals with the strategic themes of intelligence and political economy as well as the socio political legacy of the war on Israeli and Arab societies

*The Public Diary of President Sadat* Raphael Israeli, 2024-02-06

*The Public Diary of President Sadat, Volume 2: Road of Diplomacy (November 1973-May 1975)* R. Israeli, 2022-08-22

*War over Peace* Uri Ben-Eliezer, 2019-06-04 Violence and war have raged between Zionists and Palestinians for over a century ever since Zionists trying to establish a nation state in Palestine were forced to confront the fact that the country was already populated Covering every conflict in Israel s history *War over Peace* reveals that Israeli nationalism was born ethnic and militaristic and has embraced these characteristics to this day In his sweeping and original synthesis Uri Ben Eliezer shows that this militaristic nationalism systematically drives Israel to find military solutions for its national problems based on the idea that the homeland is sacred and the territory is indivisible When Israelis opposed to this ideology brought about change during a period that led to the Oslo Accords in the 1990s cultural and political forces reinforced by religious and messianic elements prevented the implementation of the agreements which brought violence back in the form of new wars *War over Peace* is essential reading for anyone who wants to understand the role of ethnic nationalism and militarism in Israel as well as throughout the world

**Communication and Culture in War and Peace** Colleen Roach, 1993-02-01 Roach provides an excellent account of the contributions of feminist peace researchers to the analysis of cultural militarism and its twin cultural violence against women Altogether this book is a worthy enterprise that will help both activists and scholars gain a more in depth understanding of the barriers to change erected by the media s use of information technology and will be useful in developing scenarios and strategies for the creative use of that technology for peaceful social transformation

Elise Boulding in *Media Development* Does the media have a perverse fascination with war and violence Do television newspapers and magazines neglect the forces of peace in favor of the more dramatic war machines thereby amplifying the guns rather than

muting them If so how does media coverage reflect the culture for which it works By exploring the role of both culture and mass media this volume fills a crucial void in the study of war and peace Outstanding scholars provide a history and overview of critical mass media research and investigate emerging issues dealing with the ongoing debate over communication in war and peace Several chapters deal specifically with the role of communication culture in the Gulf War while others discuss more general themes including the military industrial communication complex cultural imperialism and transnational control of communication Many of the essays offer a uniquely feminist reading of war and peace a perspective typically unacknowledged in mainstream communication work This timely book also weaves peripheral concerns like multiculturalism international communication law women and peace and communication technology into the primary themes of media and war The research and practical information given here will be useful for courses in peace and conflict studies international mass communication and intercultural communication Professionals in international relations negotiations and the media will find this book to be both fascinating and illuminating Original research on the coverage of disarmament stories and peace issues in Canadian dailies and Vincent Mosco s excellent blueprint for converting the military machine to a peace system give Roach s work practical and positive dimensions Abstracts at the beginning of the chapters full bibliographies and a preface by the father of peace studies Johan Galtung add to the importance of this book Recommended for anyone interested in the use minuses of mass media to cover up explain promote governmental efforts to keep situations tense and warlike Choice

**Communication and Culture in War and Peace** provides a strategic road map for scholarly and citizen action This is tightly edited passionately and convincingly argued and a broadly conceived book It fills a large gap and is likely to be a widely used seminal resource and text for some time to come George Gerbner Professor of Communication and Dean Emeritus University of Pennsylvania

**The Other Peace Process** Ronald Kronish, 2017-08-10 This book describes the theory and practice of interreligious dialogue education and action in Israel and Palestine in the context of the political peace process as well as the peace building processes and programs by drawing on personal experiences and encounters of more than twenty five years Through memorable incidents and inspirational stories the book offers insights into the obstacles and challenges as well as the achievements and successes of interreligious dialogue and action programs In addition it provides a practical model of interreligious dialogue for people around the world and leaves the reader with a message of hope for the future [Can](#)

[America win the war on TERRORISM?](#) , **Peace and Conflict Studies** David P. Barash, Charles P. Webel, 2013-03-26 Peace and Conflict Studies Third Edition sets the standard for an accessible introduction and comprehensive exploration of this vital subject The authors share their vast knowledge and analysis of 21st century world events Including new chapters on research methods and democracy as well as timely topics such as nuclear proliferation models of conflict analysis outcomes and solutions the Non Proliferation Treaty the rise of the BRICs countries and much more With an broad and authoritative scope this introductory text chronicles a plethora of important global topics from pre history to the present Key Features

Includes updated chapters and examines current conflicts including the latest developments in Iran and North Korea  
 Explores the important aspects of positive peace individual violence nationalism and terrorism Provides numerous visual aids  
 questions for further study and suggested readings Furnishes a comprehensive range of material to enlighten and enrich  
 future discussion and encourage further academic pursuit The 20th Century Go-N Frank N. Magill,2014-03-05 Each  
 volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and  
 left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career  
 of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life  
 and achievements The extended biography places the life and works of the individual within an historical context and the  
 summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully  
 annotated bibliography The Iron Wall Avi Shlaim,2015-07-30 Avi Shlaim s The Iron Wall Israel and the Arab World is the  
 outstanding book on Israeli foreign policy now thoroughly updated with a new preface and chapters on Israel s most recent  
 leaders In the 1920s hard line Zionists developed the doctrine of the Iron Wall negotiations with the Arabs must always be  
 from a position of military strength and only when sufficiently strong Israel would be able to make peace with her Arab  
 neighbours This doctrine argues Avi Shlaim became central to Israeli policy dissenters were marginalized and many  
 opportunities to reconcile with Palestinian Arabs were lost Drawing on a great deal of new material and interviews with many  
 key participants Shlaim places Israel s political and military actions under and uncompromising lens His analysis will bring  
 scant comfort to partisans on both sides but it will be required reading for anyone interested in this fascinating and troubled  
 region of the world The Iron Wall is strikingly fair minded scholarly cogently reasoned and makes enthralling reading Philip  
 Ziegler Daily Telegraph Anyone wanting to understand the modern Middle East should start by reading this elegantly written  
 and scrupulously researched book Trevor Royle Sunday Herald A milestone in modern scholarship of the Middle East Edward  
 Said Fascinating Shlaim presents compelling evidence for a revaluation of traditional Israeli history Ethan Bronner The New  
 York Times Book Review Avi Shlaim is Professor of International Relations at St Antony s College Oxford His previous books  
 include Collusion Across the Jordan 1988 and War and Peace in the Middle East 1995 **Israeli Culture on the Road to  
 the Yom Kippur War** Dalia Gavriely-Nuri,2014-02-27 The surprise of the Yom Kippur War 1973 rivals that of the other two  
 major strategic surprises in the twentieth century Operation Barbarossa the German surprise attack on the Soviet Union and  
 the bombing of Pearl Harbor The major difference between these events is that Israeli intelligence had a lot more and better  
 quality information leading up to the attack than did the Soviet Union or the United States prior to those attacks Why then  
 was the beginning of the Yom Kippur War such a surprise While many scholars have tried to explain why Israel was caught  
 unawares despite its sophisticated military intelligence services Dalia Gavriely Nuri looks beyond the military intelligence  
 and political explanations to a cultural explanation Israeli Culture on the Road to the Yom Kippur War reveals that the

culture that evolved in Israel between the Six Day War and the Yom Kippur War played a large role in the surprise Gavriely Nuri's analysis provides new and innovative insights into the relationship between culture and socio political phenomena and security

## Unveiling the Magic of Words: A Review of "**Golda Meir A Leader In Peace And War**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring.
