Golden Learning Classics:

Golden Learning Classics Golden Books,1985-10 A collection of works designed to teach children word recognition spelling how to count and the alphabet *The Chinese Classics: Confucian analects, The great learning, and The doctrine of the mean.* 2d. ed., rev. 1893.-v.2.*The works of Mencius.* 2d ed., rev. 1895.-v.3.*The shoo king, or The book of historical documents.* 1865. 2 v.-v.4.*The she king, or The book of poetry.* 1871. 2 v.-v.5.*The ch'un ts'ew, with The tso chuen.* 1872. 2 v.,1893 **Classic Issues in Islamic Philosophy and Theology Today** Anna-Teresa Tymieniecka,Nazif

Muhtaroglu,2009-11-25 With some exceptions there is not a real interest in Islamic philosophy and theology in Western institutions today This largely ignored area has the potential to present enlightening insights into the development of the Western thought and to contribute to contemporary discussions in philosophy and theology in general Scholars working in Islamic thought usually focus on its medieval background and consider it to be mainly of a historical interest and far away from the intellectual world of today Showing its contemporary relevance is an important task by which the status of Islamic philosophy can be elevated to its proper station By considering these points in mind the University of Kentucky organized an international graduate student conference on Islamic philosophy and the ogy with an emphasis on its contemporary relevance which was held between the 28th and 30th September 2007 This book emerged out of the conference by adding more chapters relevant to the main theme of the book This book presents analyses and discussions of different topics in Islamic philosophy and theology by relating them to contemporary debates and ideas in four main areas epistemology metaphysics philosophy of religion and value theory There are ten chapters in sum Some of the chapters are written by graduate students and some of them by experienced scholars Each chapter presents considerable insight into its relevant topic but does not represent the opinion of anybody except the author *Cicero, Greek Learning, and the Making of a Roman Classic* Caroline Bishop,2018-11-29 The Roman statesman orator and author Marcus Tullius Cicero is the embodiment of a classic his works have been read continuously from antiquity to the present his style is considered the model for classical Latin and his influence on Western ideas about the value of humanistic pursuits is both deep and profound However despite the significance of subsequent reception in ensuring his canonical status Cicero Greek Learning and the Making of a Roman Classic demonstrates that no one is more responsible for Cicero's transformation into a classic than Cicero himself and that in his literary works he laid the groundwork for the ways in which he is still remembered today The volume presents a new way of understanding Cicero's career as an author by situating his textual production within the context of the growth of Greek classicism the movement had begun to flourish shortly before his lifetime and he clearly grasped its benefits both for himself and for Roman literature more broadly By strategically adapting classic texts from the Greek world and incorporating into his adaptations the interpretations of the Hellenistic philosophers poets rhetoricians and scientists who had helped enshrine those works as classics he could envision and create texts with classical authority for a parallel Roman canon

Ranging across a variety of genres including philosophy rhetoric oratory poetry and letters this close study of Cicero's literary works moves from his early translation of Aratus poetry and its later reappearance through self quotation to Platonizing philosophy Aristotelian rhetoric Demosthenic oratory and even a planned Greek style letter collection Juxtaposing incisive analysis of how Cicero consciously adopted classical Greek writers as models and predecessors with detailed accounts of the reception of those figures by Greek scholars of the Hellenistic period the volume not only offers groundbreaking new insights into Cicero's ascension to canonical status but also a salutary new account of Greek intellectual life and its effect on Roman literature
