Detective Fiction and the Rise of Forensic Science Ronald R. Thomas, 1999 This is a book about the relationship
between the development of forensic science in the nineteenth century and the invention of the new literary genre of
detective fiction in Britain and America Ronald R. Thomas examines the criminal body as a site of interpretation and
enforcement in a wide range of fictional examples from Poe Dickens and Hawthorne through Twain and Conan Doyle to
Hammett Chandler and Christie He is especially concerned with the authority the literary detective manages to secure
through the devices fingerprinting photography lie detectors with which he discovers the truth and establishes his expertise
and the way in which those devices relate to broader questions of cultural authority at decisive moments in the history of the
genre This is an interdisciplinary project framing readings of literary texts with an analysis of contemporaneous
developments in criminology the rules of evidence and modern scientific accounts of identity **Impressionism in Britain**
Kenneth McConkey, Anna Gruetzner Robins, 1995-01-01 Late in his career Claude Monet returned to London to paint the fog
that had entranced him years before The resulting sequence of pictures represents some of the fascination that French

London showing how this art influenced the community of young British painters disenchanted with British art schools and

art exhibiting standards The authors investigate the role played by two innovative painters who were American expatriates James McNeill Whistler and John Singer Sargent And they explain how such artists as William Orpen George Clausen Stanhope Forbes Henry La Thangue Walter Sickert and Philip Wilson Steer sought out new and radical approaches to picture making formed new secessionist art societies and articulated new concepts of the role of art rejecting historical pageants and fashionable aestheticism and focusing on modern rural and urban conditions The book is the catalogue of an exhibition that will be at the Barbican Art Gallery in London from January to March 1995 and then move to Dublin **The Golden Age of British Photography, 1839-1900** Mark Haworth-Booth, 1984 **The Victoria and Albert Museum** Elizabeth James, 2013-10-15 A comprehensive bibliography and exhibition chronology of the world's greatest museum of the decorative arts and design The Victoria and Albert Museum or South Kensington Museum as it used to be known was founded by the British Government in 1852 out of the proceeds from the Great Exhibition of 1851 Like the Exhibition it aimed to improve the expertise of designers and the taste of the public by exposing them to examples of good design from all countries and periods 2 500 publications have to date been produced by for or in association with the V A The National Art Library which is part of the Museum has prepared this detailed catalogue supplemented by a secondary list of 500 other books closely related to the V A The 1 500 exhibitions and displays recorded include those held in the main Museum and at its branches the Bethnal Green Museum now the National Museum of Childhood and the Theatre Museum Covent Garden and additionally those it has organized at external venues in Great Britain and abroad The exhibitions and publications are fully cross referenced and there are name title and subject indexes to the whole work as well as an explanatory introduction *The Victoria and Albert Museum* Victoria and Albert Museum, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informal company **Investigating Subjectivity** Carolyn Ellis, 1992-03-10 Much has been missed by social researchers in their attempt to understand the human experience as a series of rational cognitive choices What comes under the rubric of lived experience fits no researcher's model other than in the words of one of the volume's contributors one damned thing after another Human subjectivity in lived experience both that of the subject and of the researcher is the topic of Investigating Subjectivity an important corrective to the cool disdainful stance of most previous social research The dozen contributors examine various aspects of subject the emotions the gendered nature of experiences the body mind relationship perceptions of time place and setting understanding of the self and how these elements provide a fuller understanding of the human condition incorporating subjectivity into research requires a new set of methods systematic introspection self ethnography staged readings poetry stories many of which are demonstrated in the book It also requires a focus on mundane minor ailments media images hobbies and extraordinary exotic trips earthquakes abortion experience elements which make up the bulk of lived experience and how people react to these life events Investigating Subjectivity stands out from any other books in the field because the emphasis is on research rather than theory or conceptualization This outstanding volume is quality

Imagining England's Past Susan Owens, 2023-04-26 England has long built its sense of self on visions of its past. What does it mean for medieval writers to summon King Arthur from the post Roman fog for William Morris to resurrect the skills of the medieval workshop and Julia Margaret Cameron to portray the Arthurian court with her Victorian camera or for Yinka Shonibare in the final years of the twentieth century to visualize a Black Victorian dandy. By exploring the imaginations of successive generations this book reveals how diverse notions of the past have inspired literature art music architecture and fashion. It shines a light on subjects from myths to mock Tudor houses Stonehenge to steampunk and asks how and why the past continues so powerfully to shape the present. Not a history of England but a history of those who have written painted and dreamed it into being. *Imagining England's Past* offers a lively erudite account of the making and manipulation of the days of old.
