course of twenty centuries Volume 1 explores the early church and concludes with the Renaissance era hymnists Volume 2 begins with the Reformation and extends to the eighteenth century hymnists and liturgists Volume 3 engages nineteenth century hymnists to the contemporary movements of the twenty first century Each chapter contains these five elements historical background theological perspectives communicated in their hymns compositions contribution to liturgy and worship notable hymns and bibliography The mission of Hymns and Hymnody is 1 to provide biographical data on influential hymn writers for students and interested laypeople and 2 to provide a theological analysis of what these composers have communicated in the theology of their hymns We believe it is vital for those involved in leading the worship of the church to recognize that what they communicate is in fact theology This latter aspect we contend is missing yet important in accessible formats for the current literature

Evans, H. Daniel

Zacharias, 2011-10-27 Jewish and Christian Scripture as Artifact and Canon constitutes a collection of studies that reflect and contribute to the growing scholarly interest in manuscripts as artifacts and witnesses to early stages in Jewish and Christian understanding of sacred scripture. Scholars and textual critics have in recent years rightly recognized the contribution that ancient manuscripts make to our understanding of the development of canon in its broadest and most inclusive sense. The studies included in this volume shed significant light on the most important questions touching the emergence of canon consciousness and written communication in the early centuries of the Christian church. The concern here is not in recovering a theoretical original text or early recognized canon but in analysis of and appreciation for texts as they actually circulated and were preserved through time. Some of the essays in this collection explore the interface between canon as theological concept on the one hand and canon as reflected in the physical artifactual evidence on the other. Other essays explore what the artifacts tell us about life and belief in early communities of faith. Still other studies investigate the visual dimension and artistic expressions of faith including theology and biblical interpretation communicated through the medium of art and icon in manuscripts. The volume also includes scientific studies concerned with the physical properties of particular manuscripts. These studies will stimulate new discussion in this important area of research and will point students and scholars in new directions for future work. *The Church Hymn Book, with Tunes, etc. [Compiled by E.
