New World Gold Elvira Vilches,2010-05-15 The discovery of the New World was initially a cause for celebration But the vast amounts of gold that Columbus and other explorers claimed from these lands altered Spanish society The influx of such wealth contributed to the expansion of the Spanish empire but also it raised doubts and insecurities about the meaning and function of money the ideals of court and civility and the structure of commerce and credit New World Gold shows that far from being a stabilizing force the flow of gold from the Americas created anxieties among Spaniards and shaped a host of distinct behaviors cultural practices and intellectual pursuits on both sides of the Atlantic Elvira Vilches examines economic treatises stories of travel and conquest moralist writings fiction poetry and drama to reveal that New World gold ultimately became a problematic source of power that destabilized Spain s sense of trust truth and worth These cultural anxieties she argues rendered the discovery of gold paradoxically disastrous for Spanish society Combining economic thought social history and literary theory in trans Atlantic contexts New World Gold unveils the dark side of Spain s Golden Age

**The Golden Age and Other Stories (With Grahame Biography)** Paul Brody, Kenneth Grahame, 2015-03-05 The Golden Age is a collection of reminiscences of childhood written by Kenneth Grahame Typical of his culture and his era Grahame casts his reminiscences in imagery and metaphor rooted in the culture of Ancient Greece This edition also includes a biography of the books author Kenneth Grahame

**Radical Pastoral, 1381-1594** Mike Rodman Jones, 2016-04-22 From William Langland's Piers Plowman through the highly polemicized literary culture of fifteenth century Lollardy to major Reformation writers such as Simon Fish William Tyndale and John Bale and into the 1590s this book argues for a vital reassessment of our understanding of the literary and cultural modes of the Reformation It argues that the ostensibly revolutionary character of early Protestant literary culture was deeply indebted to medieval satirical writing and indeed can be viewed as a remarkable crystallization of the textual movements and polemical personae of a rich combative tradition of medieval writing which is still at play on the London stage in the age of Marlowe and Shakespeare Beginning with a detailed analysis of Piers Plowman this book traces the continued vivacity of combative satirical personae and self-fashionings that took place in an appropriative movement centred on the figure of the medieval labourer The remarkable era of Protestant plowman polemics has too often been dismissed as conventional or ephemeral writing too stylistically separate to be linked to Piers Plowman or held under the purview of historians who have viewed such texts as sources of theological or documentary information rather

than as vital literary cultural works in their own right Radical Pastoral 1381 1594 makes a vigorous case for the existence of a highly politicised tradition of polemical pastoral which stretched across the whole of the sixteenth century a tradition that has been largely marginalised by both medievalists and early modernists

**The Great Gold Swindle: Yamashita's Gold** Phoenix Powers, Gold: How it Shaped History Alan Ereira, 2024-11-30 Gold is not what we think It is usually discussed in the context of wealth and art but this book has a broader subject so fundamental that it has been largely unremarked Informed by a mass of recent discoveries and a South American indigenous perspective it offers a new way of understanding the history of civilization Gold has been coinage treasure and adornment But it has been much more as the hidden driver of wars and revolutions the rise and fall of empires and the transformation of societies As the sun traveled east to west across the sky gold incorruptible and corrupting flowed west to east hand to hand across the world That flow has brought empires to grow and collapse and driven plunder conquest and colonization It brought about wars and revolutions empowered new forms of arts and science and created the capitalist consumer economy that dominates us now All the gold people ever shaped still exists shining as new it can be mislaid but never decays Right from its first appearance on the west shore of the Black Sea long before the rise of Egypt and Mesopotamia gold crowned the first proto king Ever since it has been regarded as value incarnate with transcendental power The quantity we take has been increasing steadily for 6 500 years Now extraction accelerates Our gold mountain has doubled in the last fifty years Yet its price increases faster While the quantity doubled its buying power multiplied by six What does gold do that makes us want it so much As Alan Ereira reveals in this skilfully woven narrative gold is the hidden actor that shapes our story *The Golden West*, 1920

**The Temple: Especially as it Stood in the Days of Our Saviour** John I Lightfoote, 1650

**Writing the Materialities of the Past** Sam Griffiths, 2021-06-14 Writing the Materialities of the Past offers a close analysis of how the materiality of the built environment has been repressed in historical thinking since the 1950s Author Sam Griffiths argues that the social theory of cities in this period was characterised by the dominance of socio economic and linguistic cultural models which served to impede our understanding of time space relationality towards historical events and their narration The book engages with studies of historical writing to discuss materiality in the built environment as a form of literary practice to express marginalised dimensions of social experience in a range of historical contexts It then moves on to reflect on England's nineteenth century industrialization from an architectural topographical perspective challenging theories of space and architecture to examine the complex role of industrial cities in mediating social changes in the practice of everyday life By demonstrating how the authenticity of historical accounts rests on materially emplaced narratives Griffiths makes the case for the emancipatory possibilities of historical writing He calls for a re evaluation of historical epistemology as a primarily socio scientific or literary enquiry and instead proposes a specifically architectural time space figuration of historical events to rethink and refresh the relationship of the urban past to its present and future Written for postgraduate students

researchers and academics in architectural theory and urban studies Griffiths draws on the space syntax tradition of research to explore how contingencies of movement and encounter construct the historical imagination
