Dancing with the Darkness Michelle Allan-Ramsay,2019-07-26 Dancing With The Darkness is a book about hope It is meant to create points of light in the darkness of postnatal depression We all arrive in the darkness via different routes and so our journey towards the light will be defined by our own needs This book aims to remind us that true healing is in our hands and requires our wisdom and instinct to get there Written in bursts of inspiration so as not to overwhelm the exhausted mind this book provides moments of rest and reminders to keep hoping

Forest Policies and Social Change in England Sylvie Nail,2008-05-08 Forestry has been witness to some dramatic changes in recent years with several Western countries now moving away from the traditional model of regarding forests merely as sources of wood Rather these countries are increasingly recognizing their forests as multi purpose resources with roles which go far beyond simple economics In this innovative book Sylvie Nail uses England as a case study to explore the relationships between forests society and public perceptions raising important questions about forest policy and management both now and in the future Adopting a sociological approach to forest policy and management the book discusses the current validity of the two principles underlying forestry since the Middle Ages first that forestry should only exist when no better use of the land can be made and second that forestry itself should be profitable The author stresses how values and perceptions shape policies and conversely how policies can modify perceptions and also how policies can fail if they do not take perceptions into account She concludes that many of the issues facing English forestry in the 21st century from leisure health and amenity provision through education and rural as well as urban regeneration to biodiversity conservation go well beyond both national borders and the scope of forestry Indeed forestry in the 21st century seems to be less about planting and managing trees than about being a vector and a mirror of social change This novel synthesis provides a valuable resource for advanced students and researchers from all areas of natural resource studies including those interested in social history socio economics cultural geography and environmental psychology as well as those studying landscape ecology environmental history policy analysis and natural resource management

Constructions of Migrant Integration in British Public Discourse Sam Bennett, 2018-01-25 This is a study into how the public discourse on migrant integration in the UK changed from 2000 2010 The book shows that the discursive construction of integration in the British public sphere shifted from one of cultural pluralism to one of neo assimilation informed by a wider spread of neo liberalism that necessitates self sufficiency and discourages state assistance Situated within the Critical Discourse Studies tradition the book employs a Discourse Historical approach to the data and includes innovative analysis combining top down policy documents and media texts and bottom up focus groups with migrants and new citizens sites of discourse production In doing so it provides a broad and detailed perspective of public discourse on integration in the UK The book shows that understandings of integration are diachronically and synchronically fluid and as such the term plays an important role as a consensus concept that different actors can support whilst construing it in different ways Analysis of the data further reveals that integration is interdiscursively linked to other social fields such as the economy terrorism and public spending The book also argues that integration policy has become directed not just at new migrants but also long term British citizens and that this has the potential to have considerable impact on community cohesion
