Good Citizen A History Of American Public Life:

Godless Citizens in a Godly Republic: Atheists in American Public Life Isaac Kramnick, R. Laurence Moore, 2018-08-21 Illuminating Phil Zuckerman author of *Living the Secular Life* If the First Amendment protects the separation of church and state why have atheists had to fight for their rights In this valuable work R Laurence Moore and Isaac Kramnick reveal the fascinating history of atheism in America and the legal challenges to federal and state laws that made atheists second class citizens

Beyond the Founders Jeffrey L. Pasley, Andrew W. Robertson, David Waldstreicher, 2009-11-04 In pursuit of a more sophisticated and inclusive American history the contributors to *Beyond the Founders* propose new directions for the study of the political history of the republic before the Civil War In ways formal and informal symbolic and tactile this political world encompassed blacks women entrepreneurs and Native Americans as well as the Adamses Jeffersons and Jacksons all struggling in their own ways to shape the new nation and express their ideas of American democracy Taking inspiration from the new cultural and social histories these political historians show that the early history of the United States was not just the product of a few founding fathers but was also marked by widespread and passionate popular involvement print media more politically potent than that of later eras and political conflicts and influences that crossed lines of race gender and class Contributors John L Brooke The Ohio State University Andrew R L Cayton Miami University Ohio Saul Cornell The Ohio State University Seth Cotlar Willamette University Reeve Huston Duke University Nancy Isenberg University of Tulsa Richard R John University of Illinois at Chicago Albrecht Koschnik Florida State University Rich Newman Rochester Institute of Technology Jeffrey L Pasley University of Missouri Columbia Andrew W Robertson City University of New York William G Shade Lehigh University David Waldstreicher Temple University Rosemarie Zagarri George Mason University

The Press Geneva Overholser, Kathleen Hall Jamieson, 2005 With the guidance of editors Geneva Overholser and Kathleen Hall Jamieson this superb collection of essays written by the nation's leading authorities on journalism illuminates the role of the press in a democracy investigating alternative models used throughout world history to better understand how the American press has evolved into what it is today The book also examines the history identity roles and future of the American press with an emphasis on topics of concern to both practitioners and consumers of American media

The Practice of American Public Policymaking Selden Biggs, Lelia B. Helms, 2014-12-18 Designed for upper level and professional courses this text is a state of the art introduction to the public policymaking process that gives equal attention to issues of policy implementation and public governance It uses an innovative systems approach integrating the activities actors tools and techniques of policymaking to provide a comprehensive framework for policy design and analysis The book is practice oriented with a focus on the ways that policymakers at all levels employ the standard technologies of governance authority agency program rule contract and budget to design policy outputs and achieve policy outcomes Through extensive use of graphics the text makes concepts easy

to grasp for a generation of students accustomed to the visual presentation of ideas Case studies illustrate the tools and techniques discussed and key terms questions for discussion and suggested readings round out each chapter The Quest for Good Governance Alina Mungiu-Pippidi, 2015-08-25 Why do some societies manage to control corruption so that it manifests itself only occasionally while other societies remain systemically corrupt This book is about how societies reach that point when integrity becomes the norm and corruption the exception in regard to how public affairs are run and public resources are allocated It primarily asks what lessons we have learned from historical and contemporary experiences in developing corruption control which can aid policy makers and civil societies in steering and expediting this process Few states now remain without either an anticorruption agency or an Ombudsman yet no statistical evidence can be found that they actually induce progress Using both historical and contemporary studies and easy to understand statistics Alina Mungiu Pippidi looks at how to diagnose measure and change governance so that those entrusted with power and authority manage to defend public resources

The Birth of the Grand Old Party Robert F. Engs, Randall M. Miller, 2011-12-30 The period from 1850 to 1876 was the most transformative era in American history During the course of this tumultuous quarter century Americans fought a bloody civil war tried to settle the issue of state versus central government power recognized the dominance of the new industrial economy over the older agricultural one and ended slavery long the shame of the nation At the same time a major political realignment occurred with the collapse of the second American party system and the emergence of a new party the Republicans But the defeat of slavery the chief catalyst for the birth of the Republican party was at best a limited success The Constitution had been rewritten to abolish slavery and guarantee equal protection under the law but social equality for African Americans and expanding freedom for others remained elusive throughout the nation For these triumphs and enduring tragedy the Republican party which became in time and memory the party of Abraham Lincoln bore primary responsibility This collection of six original essays by some of America's most distinguished historians of the Civil War era examines the origins and evolution of the Republican party over the course of its first generation The essays consider the party in terms of its identity interests ideology images and individuals always with an eye to the ways the Republican party influenced midnineteenth century concerns over national character political power race and civil rights The authors collectively extend their inquiries from the 1850s through the 1870s to understand the processes whereby the second American party system broke down a new party and politics emerged the Civil War came and a new political and social order developed They especially consider how ideas about freedom in the 1850s coalesced during war and Reconstruction to produce both an expanded call for political and civil rights for the ex slaves and a concern over expanded federal involvement in the protection of those rights By observing the transformation of a sectional party born in the 1850s into the Grand Old Party by the 1870s the authors demonstrate that no modern political party even the one that claims descent from Lincoln has surpassed the accomplishments of the first generation of Republicans Contributors Jean H Baker

Professor of History at Goucher College Maryland is author of *Mary Todd Lincoln A Biography* Eric Foner DeWitt Clinton Professor of History at Columbia University is author of *Reconstruction America s Unfinished Revolution 1863 1877* winner of the Bancroft Prize Michael F Holt Langbourne M Williams Professor of American History at the University of Virginia is author of *The Rise and Fall of the American Whig Party Jacksonian Politics and the Onset of the Civil War* James M McPherson Professor of History at Princeton University is author of *Battle Cry of Freedom The Civil War Era* winner of the Pulitzer Prize in history Mark E Neely Jr McCabe Greer Professor in the American Civil War Era at Pennsylvania State University is author of *The Fate of Liberty Abraham Lincoln and Civil Liberties* winner of the Pulitzer Prize in history Phillip Shaw Paludan Naomi Lynn Professor of Lincoln Studies at the University of Illinois at Springfield is author of *The Presidency of Abraham Lincoln* winner of the Lincoln Prize Brooks D Simpson Professor of History at Arizona State University is author of *Ulysses S Grant Triumph over Adversity 1822 1865* Media and Public Spheres R. Butsch, 2016-01-05 Using examples from the US Europe and Asia this collection presents empirical studies of print recorded music movies radio television and the Internet to reveal both how media structure public spheres and how people use media to participate in the public sphere

States of Inquiry Oz Frankel, 2006-07-21 In the mid nineteenth century American and British governments marched with great fanfare into the marketplace of knowledge and publishing British royal commissions of inquiry inspectorates and parliamentary committees conducted famous social inquiries into child labor poverty housing and factories The American federal government studied Indian tribes explored the West and investigated the condition of the South during and after the Civil War Performing printing and then circulating these studies government established an economy of exchange with its diverse constituencies In this medium which Frankel terms print statism not only tangible objects such as reports and books but knowledge itself changed hands As participants citizens assumed the standing of informants and readers Even as policy investigations and official reportage became a distinctive feature of the modern governing process buttressing the claim of the state to represent its populace government discovered an unintended consequence it could exercise only limited control over the process of inquiry the behavior of its emissaries as investigators or authors and the fate of official reports once issued and widely circulated This study contributes to current debates over knowledge print culture and the growth of the state as well as the nature and history of the public sphere It interweaves innovative theoretical discussions into meticulous historical analysis

Networked Press Freedom Mike Ananny, 2023-10-31 Reimagining press freedom in a networked era not just a journalist s right to speak but also a public s right to hear In *Networked Press Freedom* Mike Ananny offers a new way to think about freedom of the press in a time when media systems are in fundamental flux Ananny challenges the idea that press freedom comes only from heroic lone journalists who speak truth to power Instead drawing on journalism studies institutional sociology political theory science and technology studies and an analysis of ten years of journalism discourse about news and technology he argues that press freedom emerges from social technological institutional and normative

forces that vie for power and fight for visions of democratic life He shows how dominant historical ideals of professionalized press freedom often mistook journalistic freedom from constraints for the public's freedom to encounter the rich mix of people and ideas that self governance requires Ananny's notion of press freedom ensures not only an individual right to speak but also a public right to hear Seeing press freedom as essential for democratic self governance Ananny explores what publics need what kind of free press they should demand and how today's press freedom emerges from intertwined collections of humans and machines If someone says The public needs a free press Ananny urges us to ask in response What kind of public what kind of freedom and what kind of press Answering these questions shows what robust self governing publics need to demand of technologists and journalists alike

Social Norms Michael Hechter, Karl-Dieter

Opp, 2001-03-15 Social norms are rules that prescribe what people should and should not do given their social surroundings and circumstances Norms instruct people to keep their promises to drive on the right or to abide by the golden rule They are useful explanatory tools employed to analyze phenomena as grand as international diplomacy and as mundane as the rules of the road But our knowledge of norms is scattered across disciplines and research traditions with no clear consensus on how the term should be used Research on norms has focused on the content and the consequences of norms without paying enough attention to their causes Social Norms reaches across the disciplines of sociology economics game theory and legal studies to provide a well integrated theoretical and empirical account of how norms emerge change persist or die out Social Norms opens with a critical review of the many outstanding issues in the research on norms When are norms simply devices to ease cooperation and when do they carry intrinsic moral weight Do norms evolve gradually over time or spring up spontaneously as circumstances change The volume then turns to case studies on the birth and death of norms in a variety of contexts from protest movements to marriage to mushroom collecting The authors detail the concrete social processes such as repeated interactions social learning threats and sanctions that produce sustain and enforce norms One case study explains how it can become normative for citizens to participate in political protests in times of social upheaval Another case study examines how the norm of objectivity in American journalism emerged Did it arise by consensus as the professional creed of the press corps or was it imposed upon journalists by their employers A third case study examines the emergence of the norm of national self determination has it diffused as an element of global culture or was it imposed by the actions of powerful states The book concludes with an examination of what we know of norm emergence highlighting areas of agreement and points of contradiction between the disciplines Norms may be useful in explaining other phenomena in society but until we have a coherent theory of their origins we have not truly explained norms themselves Social Norms moves us closer to a true understanding of this ubiquitous feature of social life

Public Spaces, Marketplaces, and the

Constitution Anthony Maniscalco, 2015-10-15 In spite of their public attractions and millions of visitors most shopping malls are now off limits to free speech and expressive activity The same may be said about many other public spaces and

marketplaces in American cities and suburbs leaving scholars and other observers to wonder where civic engagement is lawfully permitted in the United States In *Public Spaces Marketplaces and the Constitution* Anthony Maniscalco draws on key legal decisions social theory and urban history to demonstrate that public spaces have been split apart from First Amendment protections while the expression of political ideas has been excluded from privately owned publicly accessible malls Today the traditional indoor suburban shopping mall that icon of modern American capitalism and culture is being replaced by outdoor retail centers Yet the law and courts have been slow to catch up Maniscalco argues that scholars students and the public must confront these innovations in commercial design and consumer practices as well as what they portend for contemporary metropolitan America and its civic spaces

The Nonprofit Sector Walter W Powell, Patricia Bromley, 2023-05-25 Timely unique and definitive not only chronicles the history of the nonprofit sector but also provides a broad but critical analysis of its current state Vartan Gregorian President Carnegie Corporation of New York The nonprofit sector has changed in fundamental ways in recent decades As the sector has grown in scope and size both domestically and internationally the boundaries between for profit governmental and charitable organizations have become intertwined Nonprofits are increasingly challenged on their roles in mitigating or exacerbating inequality And debates flare over the role of voluntary organizations in democratic and autocratic societies alike The Nonprofit Sector takes up these concerns and offers a cutting edge empirical and theoretical assessment of the state of the field This book now in its third edition brings together leading researchers economists historians philosophers political scientists and sociologists along with scholars from communication education law management and policy schools to investigate the impact of associational life Chapters consider the history of the nonprofit sector and of philanthropy the politics of the public sphere governance mission and engagement access and inclusion and global perspectives on nonprofit organizations Across this comprehensive range of topics The Nonprofit Sector makes an essential contribution to the study of civil society Praise for previous editions Takes a decidedly multidisciplinary approach invaluable *Journal of Policy Analysis and Management* A major contribution to the field *Social Forces*

The Magazine of American History Martha Joanna Lamb, John Austin Stevens, Henry Phelps Johnston, Benjamin Franklin Decosta, Nathan Gillett Pond, William Abbott, 2024-08-23 *Hoosier Philanthropy* Gregory R. Witkowski, 2022-11-01 The first in depth history of philanthropy in Indiana Philanthropy has been central to the development of public life in Indiana over the past two centuries *Hoosier Philanthropy* explores the role of philanthropy in the Hoosier state showing how voluntary action within Indiana has created and supported multiple visions of societal good Featuring 15 articles *Hoosier Philanthropy* charts the influence of different types of nonprofit Hoosier organizations and people including foundations service providers volunteers and individual donors

Public Discourse in America Judith Rodin, Stephen P. Steinberg, 2011-04-07 A distinguished group of scholars and prominent figures here offers thoughtful new perspectives on the tenor and conduct of public life in contemporary America Originating in a shared concern that our civic culture was

becoming coarser and more polarized Public Discourse in America provides a critical corrective to this widespread misperception about declining civility in public culture and the ways we as citizens negotiate our differences Together these essays explore the current condition and centrality of public discourse in our democracy investigating how it has changed through our history and whether it fails to approach our widely held but often unarticulated ideal of reasoned and reasonable public deliberation Contributors consider whether rationality is really the best standard for public discussion and argument and isolate the features and principles that would characterize a truly exemplary more productive public discourse at the beginning of the twenty first century They investigate why public conversations work when they work well and why they often fail when we need them the most as in our nation s so often aborted national conversation on race Taking a comprehensive look at institutional and leadership practices in recent public debates over a variety of hot button public policy issues Public Discourse in America outlines how such conversations can be used to reintegrate our fragmented communities and bridge barriers of difference and hostility among communities and individuals These essays speak to urgent and perennial questions about the nature of American society the responsibilities of leaders the rules of democracy and the role of public culture in times of crisis conflict and rapid change Public Discourse in America originated in the work of the Penn National Commission on Society Culture and Community convened in 1996 by Judith Rodin President of the University of Pennsylvania Distinguished members of the Commission leading experts commissioned researchers and leaders in America s nascent public discourse movement offer unexpected insights and an optimistic vision of the health of our politics and culture Readers of all political persuasions from the halls of political power to the streets of urban neighborhoods from newsrooms and studios to think tanks and universities will find these essays opening up new paths to robust public discussion more engaged citizenship and stronger communities Contributors include Joyce Appleby Thomas Bender Derek Bok Alex Boraine Graham G Dodds Christopher Edley Jr Drew Gilpin Faust Neal Gabler Richard Lapchick Don M Randel Richard Rodriguez Jay Rosen David M Ryfe Michael Schudson Neil Smelser and Robert H Wiebe The Rhetorics of US Immigration E. Johanna Hartelius,2015-11-10 In the current geopolitical climate in which unaccompanied children cross the border in record numbers and debates on the topic swing violently from pole to pole the subject of immigration demands innovative inquiry In The Rhetorics of US Immigration some of the most prominent and prolific scholars in immigration studies come together to discuss the many facets of immigration rhetoric in the United States The Rhetorics of US Immigration provides readers with an integrated sense of the rhetorical multiplicity circulating among and about immigrants Whereas extant literature on immigration rhetoric tends to focus on the media this work extends the conversation to the immigrants themselves among others A collection whose own eclecticism highlights the complexity of the issue The Rhetorics of US Immigration is not only a study in the language of immigration but also a frank discussion of who is doing the talking and what it means for the future From questions of activism authority and citizenship to the influence of Hollywood the

LGBTQ community and the church The Rhetorics of US Immigration considers the myriad venues in which the American immigration question emerges and the interpretive framework suited to account for it Along with the editor the contributors are Claudia Anguiano Karma R Ch vez Terence Check Jay P Childers J David Cisneros Lisa M Corrigan D Robert DeChaine Anne Teresa Demo Dina Gavrilos Emily Ironside Christine Jasken Yazmin Lazcano Pry Michael Lechuga and Alessandra B Von Burg

Young People and the Future of News Lynn Schofield Clark, Regina Marchi, 2017-09-21 Young People and the Future of News traces the practices that are evolving as young people come to see news increasingly as something shared via social networks and social media rather than produced and circulated solely by professional news organizations The book introduces the concept of connective journalism clarifying the role of creating and sharing stories online as a key precursor to collective and connective political action At the center of the story are high school students from low income minority and immigrant communities who often feel underserved or misrepresented by mainstream media but express a strong interest in politics and their communities Drawing on in depth field work in three major urban areas over the course of ten years Young People and the Future of News sheds light on how young people share news that they think others should know about express solidarity and bring into being new publics and counter publics

Handbook of American Public Administration Edmund C. Stazyk, H. George Frederickson, 2018-10-26 Currently public administration as art and science ponders a challenging and uncertain future Thus no better time exists to take stock and ponder the practical and theoretical value of its topical coverage to date Stazyk and Frederickson have assembled an eclectic and impressive group of senior and junior scholars to join them in this intellectual exercise Collectively the contributors offer a stiletto like dissection of where and how the field s energy has been expended what knowledge it has produced what its limitations are and where future energies might best be expended Kudos to all Robert F Durant American University US This forward thinking Handbook draws on the expertise of established and emerging scholars to provide a comprehensive review of the current state and future direction of theory and practice in US public administration Chapters offer a cross disciplinary holistic review of the field pulling together leaders from subfields such as public administration public and nonprofit management finance human resource management networks nonprofits policy and politics Chapter authors conclude that the field is intellectually rich and highly nuanced but also identify numerous opportunities for growth and expansion in the coming years The Handbook charts an agenda for future research in the field The Handbook of American Public Administration is geared toward academics researchers and advanced graduate students As an authoritative text on the history and state of US public administration it proves equally suitable for national and international audiences Practitioners who may be looking for background information or state of the art knowledge about practice will also benefit from this Handbook Contributors include G Arnold G A Brewer B J Cook R S Davis L DeHart Davis M D Farnworth P S Federman S Fernandez H G Frederickson H Getha Taylor R K Ghare D Hatmaker K Hendren C J Hill N Humphrey K R Isett S Jo J E Kellough S Y Kim Y Kim L Langbein M Leighninger
