Good Care Management

Julie Schaffner

Good Care Management:

The Capitation Sourcebook Peter Boland, 1996 Here s a challenge to conventional wisdom that will change the way you think about capitation This hands on resource is a collection of articles detailing the most advanced methods used by leading healthcare operational experts on how to provide high quality care at less cost manage financial risk more efficiently design operational clinical and information systems to meet the needs of patients practitioners and managed care organizations structure financial incentives to promote successful collaborations and make the transition from fee for service to risk sharing arrangements You ll find practical examples of how to build the trust necessary to create win win solutions to problems that arise between competing yet interdependent interests of the various stakeholders Edited by Peter Boland PhD and based on a best practices approach each of the articles in the book illustrate compensation methodologies that have been successfully implemented with the support of physicians and hospitals

Key Concepts in Social Gerontology Judith E Phillips, Kristine J Ajrouch, Sarah Hillcoat-Nalletamby, 2010-03-18 Far from a dictionary the concepts are portrayed as complex and conflicting definitions and usages are both noted and evaluated Each article includes a necessarily selective set of references and cross references to other concepts included in the book Moreover the coverage and evaluation of the concepts is right at the current leading edge in a rapidly moving field Victor Marshall Department of Sociology and Institute on Aging University of North Carolina at Chapel Hill The concepts are very clear and very relevant and fantastic for my group of undergraduate students I found each concept to be succinctly and simply captured holding enough information to satisfy initial cravings and complex enough to tempt further reading I had originally thought that this book would provide supplementary reading as part of my Healthy Ageing course but have changed my mind to essential reading now I have had the opportunity to read the entire book Dr Meredith Tavener Groningen University Social gerontology is a new and dynamic field reflecting the increasing interest in ageing across the world This book provides a readily accessible guide to well established and contested issues as well as new concepts emerging through cutting edge research in the discipline The entries give concise lucid knowledge on what constitutes the building blocks of social gerontology and sets out a clear review of the core concepts both classic and emerging in this subject area Each concept is explored in terms of its history application usefulness to theory and research and significance in practice They go beyond simple definitions of the concepts to look at how each issue has shaped the discipline of social gerontology today This book is authored by social gerontologists from the UK and the USA Together they present an interdisciplinary perspective and reflect a global approach to the presentation of key concepts in social gerontology

Quality Measures Deeb N. Salem, 2020-03-11 While the healthcare system continues to shift towards more emphasis on quality metrics there remains a substantial gap between the expectations of healthcare policies and standards of hospital administrations vs the realistic care provided by the average healthcare provider This book offers the perspective of the

healthcare provider and aims to fulfill the unmet need to educate other healthcare providers on recognizing quality measures and understanding how to achieve them to meet standards of quality care This book covers the historical perspective of quality measures the context of their existence their utility and the contemporary issues related to their use Simultaneously it critically addresses the quality of these quality metrics and presents the evidence available to date on the efficacy and the limitations of these quality measures This text is all inclusive and is organized into chapters that include the evolution of quality metrics in healthcare the practical role of hospitals as well as the practical role of individual healthcare providers in addressing quality metrics The chapters also include assessment of quality metrics that uniquely pertain to medical and surgical practices as well as non clinical quality metrics that specifically target undergraduate and graduate medical training Finally the book reflects on the use of contemporary quality metrics and their impact on outcomes patient care and public health and policy making In these chapters tables and illustrations including algorithms will be used to provide systematic approaches to common issues related to quality metrics In addition historical anecdotes and case presentations will be used to address pearls in contemporary practice of quality metrics Quality Measures is the definitive reference on quality metrics in healthcare and is a valuable resource for healthcare providers trainees administrators and public health agencies

Physician Empowerment Through Capitation Clifford R. Frank,I. David Kibbe,2000 An overview for readers who are familiar with capitation basics but not experienced in the operational institutional and administrative complications involved in capitated care Lays out the case for why capitation will continue as a payment system then explores adaptive strategies employed in ma Oxford Handbook of Learning and Intellectual Disability Nursing Owen Barr,Bob Gates,2018-11-15 This new edition of the Oxford Handbook of Learning and Intellectual Disability Nursing has been fully updated with a greater focus on older people with learning and intellectual disabilities and mental health issues as well as bringing all recommendations in line with current guidelines Since the first edition of this book was published services for people with learning disabilities and their families have become more community based and the demography of the population of people with learning disabilities has changed to include many older people and children and young adults with complex physical health needs This handbook provides clear information for readers on practical steps that may be taken to actively engage with people who have learning disabilities to enable effective care in which they are involved as much as possible with decisions that affect them This book also covers differences in legislation and social policy across the constituent countries in the United Kingdom and Ireland including changes that have been implemented since serious case reviews into institutional abuse An emergencies section provides key information at critical times in practice The chapter on practice resources has been fully revised to bring together the latest tools to support nurses complete with links for easy access Written by experienced practitioners who are recognised experts in their areas of speciality the Oxford Handbook of Learning and Intellectual Disability Nursing is an invaluable guide for students community and hospital based nurses and all those who

work with people with intellectual disabilities as part of a multidisciplinary team Managers in Long-term Care Malcolm L. Johnson, Lesley Cullen, Demi Patsios, 1999 The reformulation of the regulation of long term care seen in the recent White Paper and Royal Commission in the UK has led to topical debates on long term care for older people Given that there are over 500 000 people in residential nursing and dual registered homes across the country there has until now been remarkably little research on the role of managers in the long term care sector the various tasks they undertake in the day to day operation of a care home and the qualities and qualifications they bring to their work This important study investigates the range of competencies which managers of long term care homes currently do and should possess The authors look in detail at managers and management in the long term care sector policy change and the changing role of managers the future way for training Key issues and recommendations are drawn out which focus on future training and the quality assurance framework needed in a new regulatory system Crucial questions are raised as to what this will cost and who will pay Managers in long term care is important reading for social services inspection staff and purchasers providers of care social policy academics students and those involved at all levels in the process of regulation itself Handbook of Social Infrastructure Anna-Theresa Renner, Leonhard Plank, Michael Getzner, 2024-06-05 This timely Handbook showcases cutting edge empirical and theoretical social science research to shed light on the role aims and functioning of social infrastructure SI Leading scholars present unique insights on topics such as healthcare childcare education employment and SI for marginalized groups alongside cultural and recreational infrastructures **Computing and Intelligent Systems** Yanwen Wu, 2011-09-06 This six volume set CCIS 231 232 233 234 235 236 constitutes the refereed proceedings of the International Conference on Computing Information and Control ICCIC 2011 held in Wuhan China in September 2011 The papers are organized in two volumes on Innovative Computing and Information CCIS 231 and 232 two volumes on Computing and Intelligent Systems CCIS 233 and 234 and in two volumes on Information and Management Engineering CCIS 235 and 236
