Volume 5, Tome III: Kierkegaard and the Renaissance and Modern Traditions - Literature, Drama and Music Jon Stewart, 2016-12-05 The long period from the Renaissance to the nineteenth century supplied numerous sources for Kierkegaard's thought in any number of different fields The present rather heterogeneous volume covers the long period from the birth of Savonarola in 1452 through the beginning of the nineteenth century and into Kierkegaard's own time The Danish thinker read authors representing vastly different traditions and time periods Moreover he also read a diverse range of genres His interests concerned not just philosophy theology and literature but also drama and music The present volume consists of three tomes that are intended to cover Kierkegaard's sources in these different fields of thought Tome III covers the sources that are relevant for literature drama and music Kierkegaard was well read in the European literature of the seventeenth and eighteenth century He was captivated by the figure of Cervantes Don Quixote who is used as a model for humor and irony He also enjoyed French literature represented here by articles on Chateaubriand Lamartine and M Rim e French dramatists were popular on the Danish stage and Kierkegaard demonstrated an interest in among others Moli re and Scribe Although he never possessed strong English skills this did not prevent him from familiarizing himself with English literature primarily with the help of German translations While there is an established body of secondary material on Kierkegaard's relation to Shakespeare little has been said about his use of the Irish dramatist Sheridan It is obvious from among other things The Concept of Irony that Kierkegaard knew in detail the works of some of the main writers of the German Romantic movement However his use of the leading figures of the British Romantic movement Byron and Shelley remains largely unexplored terrain The classic Danish authors of the eighteenth century Holberg Wessel and Ewald were influential figures who prepared the way for the Golden Age of Danish poetry Kierkegaard constantly refers to their dramatic characters whom he often employs to illustrate a philosophical idea with a pregnant example or turn of phrase Finally while Kierkegaard is not an obvious name in musicology his analysis of Mozart's Don Giovanni shows that he had a keen interest in music on many different levels **The Reception of English Literature in Germany** Lawrence Marsden Price, 2023-11-15

Edward Young, Martin William Steinke, 1977 **Cultural Interactions in the Romantic Age** Gregory Maertz, 1998-02-05 It has been observed that the reevaluation of Romanticism is a special feature of post New Critical or revisionist criticism in America Constituting a lively ecumenical dialogue between literary historians and theorists and between critics based in comparative literature and national literature departments the essays in Cultural Interactions in the Romantic Age offer abundant proof that this process continues unabated Focusing on a broad range of interactive relations from 1750 to 1850 these essays reveal as factitious the national and linguistic borders erected within the Academy and strike a blow against the tendency of literary studies to ossify into arbitrary ethnocentric categories Cultural Interactions in the Romantic Age makes a strong argument for the position that literary activity in the Romantic Period is inseparable from international dialogue and appropriation Contributors include April Alliston Frederick Burwick Annette Wheeler Cafarelli James Engell Lilian R Furst David C Hensley Roberta Johnson Marc Katz Kari Lokke and John L Mahoney The Mystical Sources of German Romantic Philosophy Ernst Benz, 1983-01-01 Pittsburgh Theological Monograph New Series General Editor Dikran Y Hadidian

moral and aesthetic thought Sanford Budick reveals the relation between a poetic vision and a philosophy that theorized what that poetry was doing As Plato and Aristotle contemplate Homer so Kant contemplates Milton In all these cases philosophy and poetry allow us to better understand each other Milton gave voice to the transformation of human understanding effected by the Protestant Revolt making poetry of the idea that human reason is created self sufficient Kant turned that religiously inflected poetry into the richest modern philosophy Milton s bold self reliance is Kant s as well Using lectures of Kant that have been published only in the past decade Budick develops an account of Kant based on his lifelong absorption in the poetry of Milton especially Paradise Lost By bringing to bear the immense power of his reflections on aesthetic and moral form Kant produced one of the most penetrating interpretations of Milton s achievement that has ever been offered and at the same time reached new peaks in the development of aesthetics and moral reason     *Selected Writings on Aesthetics* Johann Gottfried Herder, 2009-01-10 A seminal figure in the philosophy of history culture and language Johann Gottfried Herder 1744 1803 also produced some of the most important and original works in the history of aesthetic theory A student of Kant he spent much of his life striving to reconcile the opposing poles of Enlightenment thought represented by his early mentors His ideas influenced Hegel Schleiermacher Nietzsche Dilthey J S Mill and Goethe This book presents most of Herder s important writings on aesthetics including the main sections of one of his major untranslated works *Kritische W lder* Critical Forests These notes essays and treatises the majority of which appear here in English for the first time show this idiosyncratic thinker both deeply rooted in the controversies of his day and pointing the way to future developments in aesthetics Chosen to reflect the extent and diversity of Herder s concerns the texts cover such topics as the psychology and physiology of aesthetic perception the classification of the arts taste Shakespeare the classical tradition and the relationship between art and morality Few thinkers have reflected so sensitively and productively on the cultural historical anthropological ethical and theological dimensions of art and the creative process With this book the importance of aesthetics to the evolution and texture of Herder s own thought as well as his profound contribution to that discipline comes fully into view
