## **Effective Tax Burden Of Companies In European Regions An International Comparison:**

The Effective Tax Burden of Companies in European Regions Lothar Lammersen, Robert Schwager, 2006-03-30 The tax burden on investment or companies is an important factor for the attractiveness of a country or a region In particular business location and investment decisions are influenced by the relative tax burdens encountered in different regions This study presents estimates of the effective average and marginal tax rates on company investment for 143 regions in Europe and the USA Using the approach pioneered by Michael Devereux and Rachel Griffith it is shown that companies face a wide variation of effective tax burdens across European regions The results are explained by analysing the importance of specific tax provisions for the tax burden at the various locations

### **The Effective Tax Burden on Highly Qualified Employees**

Christina Elschner, Robert Schwager, 2006-03-30 Taxes on the highly skilled are an important cost factor for companies competing internationally for talent This book provides an international comparison of the effective level of taxes and social security charges imposed on highly qualified employees Based on a newly developed inter temporal simulation model the attractiveness of 7 EU member states 12 Swiss cantons and the United States is assessed Several compensation packages including old age provision fringe benefits and long term incentives as well as various income levels and family situations are considered in the analysis The book also contains a comprehensive survey of social security and tax systems in the countries studied

### **Company Taxation in the Asia-Pacific Region, India, and Russia**

Dieter Endres, Clemens Fuest, Christoph Spengel, 2010-07-20 The Asian Pacific countries as well as India and Russia offer multinational companies all the benefits of booming economies in a world of recession However the investor must be aware of the tax regime under which he will operate This survey presents the rates definitions of taxable income and the incentives available in a complete yet concise form It goes on to review tax minimisation strategies and concludes with a comparison of the overall tax burdens for investors in each country derived from the Devereux Griffith formulae a methodology well known within the EU but applied to this region for the first time
