Substance Abuse Treatment for Adults in the Criminal Justice System ,2005 This TIP provides counselors with clinical guidelines to assist with problems that routinely occur with clients in the criminal justice system who are dealing with substance abuse and dependency disorders It describes the unique needs of offenders It addresses the challenges counselors and criminal justice personnel are likely to face at every stage of the criminal justice continuum

Costs and Benefits of Preventing Crime Brandon Welsh,2018-03-08
What are the cost savings from preventing a typical burglary robbery assault or even a criminal career Who benefits from these savings How often do the benefits from preventing crime or criminal behavior exceed the resources spent on preventing or controlling crime Is it more cost effective to invest in early childhood programs or juvenile boot camps to reduce criminal offending These are some of the important questions that face policymakers in crime and justice today Answering them is no easy task Nevertheless it is important to provide answers in order to ensure that the dollars devoted to crime reduction are spent as efficiently as possible The principle aim of *Costs and Benefits of Preventing Crime* is to report on and assess the present state of knowledge on the monetary costs and benefits of crime prevention programs Remarkably this crucial topic has rarely been studied up to the present time This book examines key methodological issues reports on the most up to date research findings discusses international policy perspectives and presents an agenda for future research and policy development on the economic analysis of crime prevention Throughout it addresses the important question of how governments should be allocating scarce resources to make crime prevention policy and practice more effective and to produce the greatest economic benefits to society The book brings together research and perspectives from across North America Europe and Australia

Offender Rehabilitation and Treatment James McGuire,2003-04-11 Criminal behaviour continues to be a matter of major public concern How society should respond to it and what should be done with those who repeatedly offend remain hotly disputed topics of conversation *Offender Rehabilitation and Treatment* draws together internationally renowned experts from the United Kingdom Europe North America and Australia Chapters summarise some of the most recent and exciting developments in this field and offer a systematic knowledge based approach to the effective reduction of criminal behaviour Offers coverage of a wide range of key topics in this area Links theory research and practice in a coherent and accessible style International focus with examples and authors from a number of countries

Prevention and Societal Impact of Drug and Alcohol Abuse Robert T. Ammerman,Peggy J. Ott,Ralph E. Tarter,1999-03-01 It is generally acknowledged that the most cost effective means of curtailing alcohol and drug abuse is prevention Providing interventions to at risk individuals before they develop serious problems with substance use is the most important component

of the war on drugs Fortunately the past decade has seen a dramatic increase in the quantity and quality of scientific research on those areas crucial to the advancement of prevention science This book compiles a tremendous amount of information about prevention which has accumulated in recent years Documenting these accomplishments and setting the stage for future efforts comprise the focus of this book Prevention and Societal Impact of Drug and Alcohol Abuse is divided into four parts Part I contains introductory chapters addressing current issues in prevention science and characteristics of abusable substances Part II includes chapters on the historical contexts of substance abuse and the deleterious health consequences of alcohol and other drugs Part III focuses on the impact of drug and alcohol abuse on society Included are chapters on alcohol and drug abuse and driving infectious illness disability managed care the criminal justice system and adolescents and adults sale and distribution the media and community responses Part IV consists of chapters on prevention in specific settings and with certain populations NCJRS Catalog ,1998 **Psychiatric Disorders** Toru

Uehara,2011-10-26 Due to their prevalence pervasiveness and burden inflicted on men and women of today psychiatric disorders are considered as one of the most important sever and painful illnesses This impairment of cognitive emotional or behavioural functioning is in some cases tragic Aside from knowing the physical organic factors such as infections endocrinal illnesses or head injuries the aetiology of psychiatric disorders has remained a mystery However recent advances in psychiatry and neuroscience have been successful in discovering subsequent pathophysiology and reaching associated bio psycho social factors This book consists of recent trends and developments in psychiatry from all over the world presented in the form of multifarious and comprehensive articles The first two sections of the book are reserved for articles on schizophrenia and depression two major illnesses present in this field The third section of the book is reserved for addiction psychiatry related not only to socio cultural but also biological alterations The last section of the book titled Biological Neuropsychiatry consists of three topics updated molecular biology fundamental neuroscience and clinical neuropsychiatric conditions Doubtlessly this book will be fruitful for future developments and collaboration in world psychiatry **What**

Works (and Doesn't) in Reducing Recidivism Edward J. Latessa, Shelley L. Johnson, Deborah Koetzle, 2020-06-08 What Works and Doesn't in Reducing Recidivism offers criminologists and students an evidence based discussion of the latest trends in corrections Experts Latessa Johnson and Koetzle translate the research and findings about what works and doesn't work in reducing recidivism into understandable concepts and terms presenting them in a way that illustrates the value of research to practice Over the last several decades research has clearly shown that rehabilitation efforts can be effective in reducing recidivism among criminal offenders but it is clear that treatment is not a one size fits all approach Offenders vary by gender age crime type and or addictions to name but a few ways and these individual needs must be addressed by providers Finally issues such as leadership quality of staff and evaluation efforts affect the quality and delivery of treatment services While other texts have addressed issues regarding treatment in corrections this text is unique in that it not only

discusses the research on what works but also addresses the implementation issues faced as practitioners move from theory to practice as well as the importance of staff leadership and evaluation efforts This book synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders Report on Drug Control ,1987 **National Institute of Justice Journal** ,1992 **Addiction Medicine E-Book** Bankole Johnson,2019-12-12 Integrating scientific knowledge with today s most effective treatment options **Addiction Medicine Science and Practice** 2nd Edition provides a wealth of information on addictions to substances and behavioral addictions It discusses the concrete research on how the brain and body are affected by addictions improving your understanding of how patients develop addictions and how best to personalize treatment and improve outcomes This essential text is ideal for anyone who deals with patients with addictions in clinical practice including psychiatrists health psychologists pharmacologists social workers drug counselors trainees and general physicians family practitioners Clearly explains the role of brain function in drug taking and other habit forming behaviors and shows how to apply this biobehavioral framework to the delivery of evidence based treatment Provides clinically relevant details on not only traditional sources of addiction such as cocaine opiates and alcohol but also more recently recognized substances of abuse e g steroids inhalants as well as behavioral addictions e g binge eating compulsive gambling hoarding Discusses current behavioral and medical therapies in depth while also addressing social contexts that may affect personalized treatment Contains new information on compliance enhancing interventions cognitive behavioral treatments behavioral management and other psychosocial interventions Includes neurobiological molecular and behavioral theories of addiction and includes a section on epigenetics Contains up to date information throughout including a new definition of status epilepticus a current overview of Lennox Gastaut syndrome and updates on new FDA approved drugs for pediatric neurological disorders Features expanded sections on evidence based treatment options including pharmacotherapy pharmacogenetics and potential vaccines Addresses addiction in regards to specific populations including adolescents geriatric pregnant women and health care professionals Includes contributions from expert international authors making this a truly global reference to addiction medicine **La Bodega de la Familia** Carol Shapiro,1998 Preventing Crime Brandon C. Welsh,David P. Farrington,2007-08-09 Crime prevention should be rational and should be based on the best possible evidence Decision makers should weigh heavily any available evidence on what works best How can a program that has produced no discernable evidence of effectiveness as shown through numerous evaluations be considered for implementation Unfortunately this happens all the time Evidence based crime prevention attempts to overcome this and other obstacles by ensuring that the best available evidence is considered in any decision to implement a program designed to prevent crime This book is about evidence based crime prevention A project of the Campbell Collaboration Crime and Justice Group Preventing Crime brings together the leading scientific evidence on what works best for a wide range of interventions organized around four important domains in criminology at risk children

offenders victims and places It is the first book to assess the effectiveness of criminological interventions using the most rigorous review methodology of the systematic review It is an indispensable guide to the leading scientific evidence on what works best to prevent crime

Female Offenders and Reentry Lisa M. Carter,Catherine D. Marcum,2017-07-20 Often research concerning the female offender is scarce This book adds to the criminological literature on the topic of reentry for women focusing on the barriers women face as they return to society and adjust to life after incarceration Each chapter addresses specific issues challenges and obstacles affiliated with the hindrance of successful reentry processes associated with female offenders as well as data driven empirical studies While corrections has often misunderstood or overlooked the needs of returning offenders the shortcomings of the institutions have a greater impact on women than on their male counterparts particularly regarding the occurrence of social and medical problems especially those related to mental health and substance abuse Female Offenders and Reentry helps criminal justice students and practitioners see the full picture when considering the challenges faced by female offenders reintegrating into society

Treating Addicted Offenders Kevin Knight (Ph. D.),David Farabee,2004

Rethinking Corrections Lior Gideon,Hung-En Sung,2011 This is an edited text that will explore the challenges faced by convicted offenders over the course of rehabilitation and reintegration
