Smith,2007-04-21 Canada s House of Commons has come under considerable attack in recent years

Many critics have contended that the House has been unresponsive to public opinion and that its party leaders have too much control while leaving individual MPs essentially powerless. The House has also faced challenges by the courts since the introduction of the Charter, a powerful bureaucracy equipped with specialized knowledge and new telecommunications systems that are redefining the transfer of information. Through an examination of academic, judicial, political and legal commentary, *The People's House of Commons* explores the role of the House as a public institution. While addressing much of the criticism that has been levelled at the House, David E. Smith considers the competing political models and inherent tensions and their affect on public understanding. Smith maintains that court decisions are transforming the political system from one dominated by parties to one that promotes individual participation. He argues that reforms such as fixed election dates or stronger parliamentary committees have constitutional significance since their implementation would alter the practice of responsible government, which for more than a century has been a party government. A definitive work by one of Canada's foremost experts in the field of political science, *The People's House of Commons* explores the ramifications of many of the changes currently being proposed to Canada's political system with particular reference to their affect on prerogative, power, parliamentary privilege, party discipline, bicameralism and the role of the opposition.

**Chrystia Catherine Tsalikis**, 2024-12-20. The intriguing in depth story of the most powerful woman in Canadian politics. A NATIONAL BESTSELLER. Catherine Tsalikis traces Chrystia Freeland's remarkable journey from the northwestern Alberta town of Peace River to Moscow, London and New York where she spent two decades as a journalist to the halls of Parliament Hill as deputy prime minister and finance minister in Justin Trudeau's Liberal government. Ambitious and talented with a work ethic to match, Freeland has had an impressive run since she entered politics in 2013 spearheading major trade negotiations expertly navigating relations with an erratic US president, speaking out about human rights abuses in Saudi Arabia and standing up to Vladimir Putin's aggressions in Ukraine. With her impeccable research, seasoned perspective and accessible style, Tsalikis brings Freeland's story to life. The defining moments and experiences that shaped Freeland's particular worldview illuminate the answers to larger social questions: how to live a good, useful life; how to hold fast to guiding principles; how to break through glass ceilings. This is a unique, behind-the-scenes look at Canadian politics through the story of a trailblazing woman.

**Mass Disruption** John Stackhouse, 2015-10-27 Drawing on his thirty years in newspapers, the former editor in chief of The Globe and Mail examines the crisis of serious journalism in the digital era and searches for ways the invaluable tradition can thrive in a radically changed future. John Stackhouse entered the newspaper business in a golden age. 1980s circulations were huge and wealthy companies lined up for the privilege of advertising in every city's best read pages. Television and radio could never rival newspapers for hard news, analysis and opinion, and the papers' brand of serious journalism was considered a crucial part of life in a democratic country. Then came the Internet. After decades as a Globe journalist, foreign bureau chief and then editor of its Report on Business, not to mention former Scarborough delivery boy, he assumed one of the biggest jobs in Canadian journalism: The Globe and Mail's editor in chief. Beginning in 2009, he faced the unthinkable: the possible end of not just Canada's national newspaper but the steep and steady financial decline of newspapers everywhere. A non-stop torrent of free digital content stole advertisers and devalued advertising space so quickly that newspapers struggled to finance the serious journalism that distinguished them in a world of BuzzFeed, Huffington Post, Yahoo and innumerable bloggers and citizen journalists. Meanwhile, ambitious online media aspired to the credibility of newspapers. The solution was clear: if the path to arriving at it was less so, the new school needed to meet the old school, and the future lay in undiscovered ground between them. Having led the Globe during this period of sudden and radical change, Stackhouse continues to champion the vital role of great reporting and analysis. Filled with stories from his three decades in the business, *Mass Disruption* tracks decisions, good and bad, examines how some of the world's major newspapers, the Guardian, New York Times, are learning to cope and lays out strategies for the future of both newspapers and serious journalism wherever it may live.

Merging biographical narratives with an examination of tattooing's place within wider society, Jelinski reveals how these commercial image makers bridged conventional gaps.
