[The Ego and His Own](#) Max Stirner, 2019-11-20 *The Ego and Its Own* is an 1844 work by German philosopher Max Stirner. It presents a radically nominalist and individualist critique of, on the one hand, Christianity, nationalism, and traditional morality, and on the other, humanism, utilitarianism, liberalism, and much of the then-burgeoning socialist movement, advocating instead an amoral, although importantly not inherently immoral or antisocial, egoism. Stirner believed that there was no objective social reality independent of the individual; social classes, the state, the masses, and humanity are abstractions and therefore need not be considered seriously. He wrote of a finite empirical ego, which he saw as the motive force of every human action. Writing chiefly for working-class readers, he taught that all persons are capable of the self-awareness that would make them egoists or true individuals. Max Stirner, in his book *The Ego and His Own* (1845), recommended instead of social reform a ruthless individualism that should seek satisfaction by any means and at whatever risk. It also constitutes an enduring critique of both liberalism and socialism from the perspective of an extreme, eccentric individualism. Karl Marx was only one of many contemporaries provoked into a lengthy rebuttal of Stirner's argument. Stirner has been portrayed variously as a precursor of Nietzsche, both stylistically and substantively, a forerunner of existentialism, and as an individualist anarchist. This edition of his work comprises a revised version of Steven Byington's much-praised translation together with an

**The Ego and Its Place in the World** Charles Gray Shaw, 1913 **The Ego and His Own** Max Stirner, 2013-07-01 Fifty years sooner or later can make little difference in the case of a book so revolutionary as this It saw the light when a so called revolutionary movement was preparing in men's minds which agitation was however only a disturbance due to desires to participate in government and to govern and to be governed in a manner different to that which prevails The revolutionists of 1848 were bewitched with an idea They were not at all the masters of ideas Most of those who since that time have prided themselves upon being revolutionists have been and are likewise but the bondmen of an idea that of the different lodgment of authority The temptation is of course present to attempt an explanation of the central thought of this work but such an effort appears to be unnecessary to one who has the volume in his hand The author's care in illustrating his meaning shows that he realized how prone the possessed man is to misunderstand whatever is not moulded according to the fashions in thinking The author's learning was considerable his command of words and ideas may never be excelled by another and he judged it needful to develop his argument in manifold ways So those who enter into the spirit of it will scarcely hope to impress others with the same conclusion in a more summary manner Or if one might deem that possible after reading Stirner still one cannot think that it could be done so surely The author has made certain work of it even though he has to wait for his public but still the reception of the book by its critics amply proves the truth of the saying that one can give another arguments but not understanding The system makers and system believers thus far cannot get it out of their heads that any discourse about the nature of an ego must turn upon the common characteristics of egos to make a systematic scheme of what they share as a generality The critics inquire what kind of man the author is talking about They repeat the question What does he believe in They fail to grasp the purport of the recorded answer I believe in myself which is attributed to a common soldier long before the time of Stirner They ask What is the principle of the self conscious egoist the Einzige To this perplexity Stirner says Change the question put who instead of what and an answer can then be given by naming him
