Popular Photography ,1999-02 Popular Photography ,1999-03 **Photography, Electro-Ophthalmology and Echo-Ophthalmology in Ophthalmic Practice** Harold E. Henkes,2012-12-06 The 1973 postgraduate courses in ophthalmology held under the auspices of the Netherlands Ophthalmological Society mark the 25th anniversary of the rebuilt Rotterdam Eye Clinic The themes set for these courses Ophthalmic Photography Electro ophthalmology and Echo ophthalmology have been chosen from a multitude of rapid developments in ophthalmology during this period The aim was to provide the clinician with a lead in a bewildering field of apparatus and techniques and to help him in selecting methods that provide useful results without too much specialised knowledge However sophisticated techniques and discussion of results have been added now and then so that the more advanced reader still finds sufficiently inter esting material in this report This holds e g for the section on fluorescence angiography which section has been extended on the base of the probability that the clinician in general practice too has been or will be confronted with this rapidly expanding and fascinating field The reason to bring together two methods of objective examination of visual functions i e electro ophthalmology and echo ophthalmology is clearly due to the intimate connection between the two In many ways these methods complement each other in providing the final diagnosis This report does not intend to replace text books nor to outdate treatises on superspecialised ophthalmic subjects it simply tends to provide the clinician with a basic information on selected techniques stimulating the reader to start using them in daily practice Popular Photography ,1999-06 Advanced Concepts and Technologies for Electric Vehicles Akshay Kumar Rathore,Arun Kumar Verma,2023-08-30 This book explains the basic and advanced technology behind the Power Electronics Converters for EV charging and their significant developments and introduces the Grid Impact issues that underpin the grid integration of electric vehicles Advanced Concepts and Technologies for Electric Vehicles reviews state of the art and new configurations and concepts of more electric vehicles and EV charging mitigating the impact of EV charging on the power grid and technical considerations of EV charging infrastructures The book considers the environmental benefits and advantages of electric vehicles and their component devices It includes case

studies of different power electronic converters used for charging EVs It offers a review of PFC based AC chargers WBG based chargers and Wireless chargers The authors also explore multistage charging systems and their possible implementations The book also examines the challenges and opportunities posed by the progressive integration of electric drive vehicles on the power grid and reported solutions for their mitigation The book is intended for professionals researchers and engineers in the electric vehicle industry as well as advanced students in electrical engineering who benefit from this comprehensive coverage of electric vehicle technology Readers can get an in depth insight into the technology deployment in EV transportation and utilize that knowledge to develop novel ideas in the EV area

Trends in Quantum Electronics A.M. Prokhorov,I. Ursu,2013-03-09 The second International Conference on Trends in Quantum Electronics TQE 85 was held in Bucharest at the National Centre for Physics in September 1985 and brought together more than 350 scientists from 22 countries In accordance with the objectives established at the first conference which was held in 1982 in conjunction with the third International Summer School in Coherent Optics the second conference concentrated upon the central topics and chief directions of development in quantum electronics which stands out as an area of science and technology that is currently expanding vigorously On the other hand it was also apparent that TQE 85 was primarily influenced by the worldwide celebration in 1985 of the 25th anniversary of the laser a moment of prime importance in the development of many frontline fields including communications chemistry biology health care and materials processing A special session was devoted to this anniversary In keeping with the dynamic spirit of the conference the fine quality of the invited lectures and the other contributions set a high scientific standard for the proceedings Mention should be made of the posters that were presented throughout the conference These together with the exhibition of books and journals and a display of specialized scientific equipment did much to create a framework for effective communication and stimulating interaction to the benefit of all the participants Of invaluable help in the preparation of the conference was the collaboration of the International Scientific Advisory Committee
