Modernizing China's Electronics Industry Thomas Fingar,1985

China's Economic Reform Robert Ash,Christopher Howe,Y Y Kueh,Y. Y. Kueh,2013-10-18 This book presents a collection and analysis of original policy documents newly translated into English from a key period of Chinese development providing both a current and a retrospective analysis of China s economic reform efforts Topics dealt with include the evolution of Chinese economic strategy economic planning and the spread of market mechanisms technology transfer in industry evolution of an agricultural system the development of population policy and foreign economic relations The collection will be of great interest not only to scholars and students of Chinese studies but also to professionals and social scientists concerned with China but unable to read source documents in Chinese

The Chinese Electronics Industry in Transition Jonathan D. Pollack,Rand Corporation,1985 This Note describes and evaluates efforts in the People s Republic of China PRC to develop a modern electronics industry It draws upon an extensive survey of primary and secondary sources

on Chinese science and technology interviews and field research in China during November 1984 observations and reports from other visitors to the PRC interviews with Chinese R and interviews with American businessmen involved in trade and technology relations with the PRC It focuses on China's ability to introduce new products and processes in the R D production system The study suggests that while many factors have impeded technological change many of the obstacles seem more matters of infrastructure and management than of the availability of technology per se The Chinese have introduced a number of reforms with mixed results On balance the Chinese electronics industry has achieved noticeable gains in its pursuit of technological innovation but their full effects are not likely to be felt for some time Rand abstracts

On the Development of China's Information Technology Industry Jiang Zemin, 2009-11-13 In the early 1980's Jiang Zemin then Minister of Electronics Ministry of China assessed the IT industry as the strategic high ground in international competition He perceived the discrepancy between China's level and the world's advanced level was so great that we had to do our utmost to catch up Since then through numerous articles and frequent speeches he has drawn up a detailed technological and policy roadmap for doing exactly that This volume collects over 25 pieces written over more than 20 years It demonstrates the former president of China's authority and insight into the development of China's IT industry since the introduction of reforms and the cutting edge issues experienced throughout the global IT industry Jiang's ambitious goal is the transformation of China into a leader in the global IT industry by 2020 This volume offers IT industry analysts China watchers policy makers and advisors IT researchers and investors a singular and authoritative view on how China should get there Establishes key measurements for the development of China's IT industry Sets forth the priorities for government and industry Identifies opportunities for interrelating military and civilian R D and applications Reveals key obstacles to progress and directives for overcoming them Sets out an R D agenda for industry Names the core industry sectors for government and industry investment Identifies opportunities and the necessity for international collaboration Establishes the need to develop China's own IPR and to respect and protect others IPR

Labor, Class Formation, and China's Informationized Policy of Economic Development Yu Hong, 2011-03-31 In *Labor Class Formation and China's Informationized Policy of Economic Development* Yu Hong examines crucial connections between the evolving political economy of information and communications technology ICT and the reconstitution of class relations in China Situating China's ICT development over the last thirty years at the intersection of transnational trends domestic policies and institutional arrangements Hong shows how evolving class relations in the ICT sector are shaped by and shaping the transnational capitalist dynamics and domestic socio-economic transformations She goes on to argue that the huge and still expanding pool of Chinese ICT workers and their newly attained identities as wage labor rather than consumers constitute a missing but important dimension of human experiences of the rise of the information society

China's Rise in the World ICT Industry Lutao Ning, 2009-06-04 China is the world's largest ICT exporter having overtaken Japan the European Union and the United States and China's ICT

industry is the largest manufacturing sector within the Chinese economy This book examines how China has attained this leading position in one of the most capital and high technology intensive industries *Upgrading China's Information and Communication Technology Industry* Cassandra C. Wang, 2013 This book effectively challenges the conventional wisdom regarding the cluster innovation relationship and provides convincing evidence to show that the prevailing theoretical models derived from Anglo-American experiences cannot be uncritically applied to Chinese reality This book introduces a new theory of state firm coordination to explain why and how some Chinese ICT firms have turned out to be more innovative than others Perspectives from the viewpoint of economic geography institutional economics political science and regulation theory have been provided to throw light on the enigma that is China's ICT industry Empirically the book provides state of the art findings to clarify the confusion and misunderstanding about the exact nature of the ICT industry in China This book has essentially set a new baseline and made definitive contribution to knowledge production about China's economic geography Methodologically it shows how original critical and independent research can be undertaken effectively and innovatively through cross disciplinary theoretical interaction deductive reasoning with hypotheses testing combination of multiple means of data collection integration of quantitative and qualitative methods and structured presentation of research findings with extensive tabular graphic and cartographic illustrations *The Defense Industry of the People's Republic of China* Paul Humes Folta, 1986 *China's Industrial Policy in Relation to Electronics Manufacturing* Zhongxiu Zhao, Xiaoling Huang, Dongya Ye, Paul Gentle, 2007 China has become the biggest exporter of electronic products in the world Government policy intervention has contributed significantly to the rapid expansion of the electronics industry The present paper examines the evolutionary development of industrial policies related to the electronics industry in China and the impacts of such policies on the shaping of the industry In particular the relationship between foreign funded enterprises and domestic firms are examined in detail The future trend of the industry is also discussed in the paper and the policy focus of the Chinese Government is predicted **People's Republic of China** United States. Congress. Joint Economic Committee, 1972 Compendium of papers on the economic development of China covers economic policy from 1949 to 1971 the revolution for cultural change industrial development agricultural development transport population policy science and technology and the role of scientists and technicians trade and economic relations the role of China in providing economic aid etc Maps references and statistical tables *Area Bibliography of China* Richard T. Wang, 1997 A combination of scholarly commercial and popular interests has generated a large quantity of literature on every aspect of Chinese life during the past two decades This bibliography reflects these combined interests it is broken up into sections by subject headings and cross references refer the researcher to related topics *Local Dynamics of Industrial Upgrading* Yi Liu, 2020-04-27 This book examines industrial upgrading in China's Pearl River Delta PRD with a specific focus on how strategic coupling impacts industrial upgrading from the perspective of relational economic geography It shows that firms in the PRD have been struggling after

serving as low tier suppliers and subcontractors for transnational corporations for two decades since the 1980s opening reform in China Indigenous innovation and direct state support have fostered the success of a few firms but not the majority In response many local firms are now taking advantage of the opportunities to be found in global production networks which link the PRD with the global economy This book elaborates on how these opportunities are embedded and identified in global production networks with regard to different types of strategic coupling It not only renews the theory of strategic coupling in economic geography but also demonstrates potential strategies that latecomer firms can pursue and which can have major implications for many developing countries and regions A New Direction for China's Defense Industry Evan S.

Medeiros,Roger Cliff,Keith Crane,James C. Mulvenon,2005-12-19 Since the early 1980s a prominent and consistent conclusion drawn from research on China s defense industrial complex has been that China s defense production capabilities are rife with weaknesses and limitations This study argues for an alternative approach From the vantage point of 2005 it is time to shift the focus of current research to the gradual improvements in and the future potential of China s defense industrial complex The study found that China s defense sectors are designing and producing a wide range of increasingly advanced weapons that in the short term are relevant to a possible conflict over Taiwan but also to China s long term military presence in Asia Part of a larger RAND Project AIR FORCE study on Chinese military modernization this study examines the current and future capabilities of China s defense industry The goals of this study are to 1 **The Geography of**

Contemporary China Jing'ai Wang,Shunlin Liang,Peijun Shi,2022-06-28 This textbook provides a comprehensive and very detailed insight into Chinese Contemporary Geography in English It documents the geographical issues associated with China s rapid growth Since initiating the reforms and open policy China has achieved tremendous success China s rapid growth is now a driving force in the global economy and is achieving unprecedented rates of poverty reduction However China also faces a number of sustainability and emerging challenges associated with rapid growth such as growing regional disparities in terms of per capita income and social economic development sustainable resource development and issues related to regional and global economic integration In addition rapid economic growth has also brought about major challenges such as resource shortages ecological and environmental destruction land degradation and frequent disasters This book presents the authors reflections This lavishly illustrated book covers physical geography history and economic and political systems of the world s most populous country The major focus is on geographical issues in China s contemporary development agriculture population urbanization resource and energy and environment The lead author of the book has taught relevant courses in China for three decades and authored and edited multiple textbooks for Chinese students This book will appeal to undergraduate students of geography and related disciplines with a regional focus on China and to the general reader who wants to learn different geographical aspects of modern China with little academic background in geography
