

# Los 6 Elementos del Lenguaje

Los elementos del lenguaje permiten que la comunicación sea posible. Son los elementos que tienen en común todos los idiomas; esto permite que pueda hablarse de lenguaje humano.

Se diferencia de los sistemas de comunicación utilizados por otras especies, como las abejas o los simios, que son sistemas cerrados. Estos últimos consisten en un número fijo de cosas que pueden comunicarse.

El lenguaje humano está basado en un código dual, en el cual un infinito número de elementos sin sentido propio (sonidos, letras o gestos) pueden combinarse para formar unidades de sentido (palabras y oraciones).

El lenguaje puede definirse como la forma de comunicación entre varias personas. El lenguaje es arbitrario (en cuanto a palabras individuales), generativo (en cuanto a la ubicación de las palabras) y está en evolución constante.
