Egyptian Religion and Mysteries Earle de Motte,2013-02-21 Subjects covered in these pages include Egyptian Spirituality The Akhenaten Heresy and Its Impact on Religion and Mystical Thought Creation Mythology of the Four Centres The Soul and Its Journey in Egyptian Metaphysical Thought Secrets of the Book of the Dead The Nature of the Human Being Ra s Journey through the Underworld and Its Initiatory Significance Egyptian Mysteries as the Prototype of Ancient Mystery Schools Shamans Hierophants and the Initiatory Process Wisdom of the Egyptian Sages from Ancient Egypt to the Hermetic Mystics of Alexandria The Heart as the Spiritual Self and Monitor of Morality in Human Behaviour KIRKUS REVIEW A collection of insights into the esoteric meanings of ancient Egyptian religious and spiritual practices This extraordinary book the product of extensive research by author and Rosicrucian lecturer de Motte The Grail Quest 2003 is ideal for readers who want to go beyond ancient Egypt s pyramids artifacts and mummies Here in highly readable form the author presents the broad outlines of the ancient Egyptian spiritual belief system from the founding cosmology of a watery amorphous pre creation mass to the rise of Ra Osiris Isis Horus and Seth and on to the highly developed use of symbols as keys to mystic truths comprehended only by a chosen few Why do ancient Egyptian renderings of human figures have bird heads The book gives the answer They depict among other things the soul in flight freed from an earthly cage and able to access other realms of reality The book also explains how the scarab an insect that stores balls of dung to feed its offspring is intimately linked to the mighty sun god Ra who must successfully pass through the underworld each night One of the book s main themes is the notion that in every age there s a body of secret knowledge about life death and the afterlife known only to initiates and never preached or recorded That knowledge is passed on exclusively by word of mouth over the millennia lest it fall into the hands of those who would abuse it In the Egyptian model the priestly class served this function in so called mystery schools with elaborate pageantry Although de Motte s prose is highly readable some readers may find this a difficult book to absorb The author presents a very large amount of information here and readers not well acquainted with his topic may find it necessary to re read it to keep from getting lost Only bona fide Egyptologists can render scholarly judgment on de Motte s dazzling pages but neophytes will appreciate the author s liberal citation of experts even when he doesn t agree with them An impressive work that brings light to a mysterious ancient culture

Schipper, 2021-11-05 This revised and expanded English edition of Bernd U Schipper's 2012 Hermeneutik der Tora incorporates the results of his continued research and writings on Proverbs For nearly a century many biblical scholars have argued that the main theological traditions such as the divine law God's torah do not appear in the book of Proverbs In this volume however Schipper demonstrates that Proverbs

interacts in a sophisticated way with the concept of the torah A detailed analysis of Proverbs 2 and other passages from the first part of the book of Proverbs shows that Proverbs engages in a postexilic discourse around wisdom and torah concerning the abilities of humans to fulfill the will of YHWH exemplified in the divine torah **Egypt In The Bible** Amelia

English Riddles and the Riddlic Elements of Old English Poetry Rafat Boryslawski,Rafał Boryslawski,2004 The art of posing riddles is possibly as old as mankind and spans two apparent extremes which nevertheless converge in the riddlic form that of wisdom and that of play With this perspective in mind the author examines the poetic enigmas present in the culture of Anglo Saxon England exploring both the Anglo Latin riddles of Aldhelm and those recorded in the Exeter Book His study investigates the Old English riddlic texts from a variety of angles arguing for the possibility of establishing patterns of Anglo Saxon riddlic composition as such The author intends to prove that both the Exeter collection and the Aenigmata of Aldhelm are constructed on the grounds of an identifiable structure of interrelations and interdependencies Additionally he argues that the riddlic mode of literary representation is also visible in other Anglo Saxon poetic compositions The analysis of such an assumption leads to the conclusion that the predilection for the riddle form in Anglo Latin and Anglo Saxon poetry results
