Handbook of Communication Disorders Amalia Bar-On, Dorit Ravid, Elitzur Dattner, 2018-04-23

The domain of

Communication Disorders has grown exponentially in the last two decades and has come to encompass much more than audiology speech impediments and early language impairment. The realization that most developmental and learning disorders are language based or language related has brought insights from theoretical and empirical linguistics and its clinical applications to the forefront of Communication Disorders science. The current handbook takes an integrated psycholinguistic, neurolinguistic and sociolinguistic perspective on Communication Disorders by targeting the interface between language and cognition as the context for understanding disrupted abilities and behaviors and providing solutions for treatment and therapy. Researchers and practitioners will be able to find in this handbook state of the art information on typical and atypical development of language and communication abilities across the human lifespan from infancy to the aging brain, covering all major clinical disorders and conditions in various social and communicative contexts such as spoken and written language and discourse, literacy issues, bilingualism and socio-economic status.

Language Planning and Policy in Asia: Japan, Nepal, Taiwan and Chinese characters Robert B. Kaplan, Richard B. Baldauf, 2008. This volume covers the language situation in Japan, Nepal and Taiwan as well as the modernisation of Chinese Characters in China, explaining the linguistic diversity, the historical and political contexts and the current language situation including language in education, planning, the role of the media, the role of religion and the roles of non-indigenous languages. Two of the authors are indigenous and the other two have been participants in the language planning context.
