The Poetry of Translation Matthew Reynolds, 2011-09-29 A very wide ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature It engages with the key debates in translation studies and offers new interpretations of major works such as Pope's Iliad Pound's Cathay and Dryden's Aeneid *Classics in Translation* Paul Lachlan MacKendrick, Herbert Marshall Howe, 1952 Annotation Here translated into modern idiom are many works of the authors whose ideas have constituted the mainstream of classical thought This volume of new translations was born of necessity to answer the needs of a course in Greek and Roman culture offered by the Department of Integrated Liberal Studies at the University of Wisconsin Since its original publication in 1952 *Classics in Translation* has been adopted by many different academic institutions to fill similar needs of their undergraduate students This new printing is further evidence of this collection's general acceptance by teachers students and the reviewing critics *Chinese Poetry and Translation* Maghiel Crevel, Lucas Klein, 2025-10-01 *Chinese Poetry and Translation Rights and Wrongs* offers fifteen essays on the triptych of poetry translation Chinese The collection has three parts The Translator's Take Theoretics and Impact The conversation stretches from queer feminist engagement with China's newest poetry to philosophical and philological reflections on its oldest and from Tang and Song dynasty classical poetry in Western languages to Baudelaire and Celan in Chinese Translation is taken as an interlingual and intercultural act and the essays foreground theoretical expositions and the practice of translation in equal but not opposite measure Poetry has a transforming yet ever acute relevance in Chinese culture and this makes it a good entry point for studying Chinese foreign encounters Pushing past oppositions that still too often restrict discussions of translation form versus content elegance versus accuracy and the original versus the translated this volume brings a wealth of new thinking to the interrelationships between poetry translation and China Stretching from queer feminist engagement with China's newest poetry to philological reflection on its oldest this book brings a wealth of new thinking to the interrelationships between poetry translation and China Key Cultural Texts in Translation Kirsten Malmkjær, Adriana Șerban, Fransiska Louwagie, 2018-05-15 In the context of increased movement across borders this book examines how key cultural texts and concepts are transferred between nations and languages as well as across different media The texts examined in this book are considered fundamental to their source culture and can also take on a particular relevance to other target cultures The chapters investigate cultural transfers and differences realised through translation and reflect critically upon the implications of these with regard to matters of cultural identity The book offers an important contribution to cultural approaches in translation studies with ramifications across different disciplines including literary studies history philosophy and gender studies The chapters offer a range of cultural and methodological frameworks and are written by scholars from a variety of language and cultural backgrounds Western and Eastern **Voice and Versification in Translating Poems** James W. Underhill, 2016-12-09 Great poets like Shelley

and Goethe have made the claim that translating poems is impossible And yet poems are translated not only that but the metrical systems of English French Italian German Russian and Czech have been shaped by the translation of poems Our poetic traditions are inspired by translations of Homer Dante Goethe and Baudelaire How can we explain this paradox James W Underhill responds by offering an informed account of meter rhythm rhyme and versification But more than that the author stresses that what is important in the poem and what must be preserved in the translated poem is the voice that emerges in the versification Underhill s book draws on the author s translation experience from French Czech and German His comparative analysis of the versifications of French and English have enabled him to revise the key terms involved in translating the poetic voice and transposing the poem s versification The theories of versification from the Prague School of Linguistics the French and Swiss schools of versification and recent scholarship in metrics and rhythm in the UK and in the USA have been integrated into this synthetic but rigorously coherent approach to translating poems The extensive glossary at the end of the book will prove useful for both students and teachers alike And the detailed case studies on translating poems by Baudelaire and Emily Dickinson allow the author to categorize and appraise the various poetic and aesthetic strategies and theories that are brought to bear in translating Baudelaire into English and Dickinson into French Published in English
