Elephants Highlights Animals:

Elephant Bowling and Other Animal Play Richard Haynes, 2025-08-12 Take a walk on the wild side and prepare to be entertained by the shenanigans of critters around the globe Step into the fascinating world of animal playtime to find penguins surfing for the joy of it primates playing peekaboo and sneaky keas the pranksters of the bird world yanking one another's legs just for kicks Creatures of all stripes like to play Some play builds strength and teaches survival skills a game of tug of war prepares wolf cubs for hunting and taking down prey while games of hide and seek give mongooses practice at quick escapes handy for outmaneuvering predators Some games appear to be played simply for enjoyment Polar bears love to slide down snowy hills then climb back up and do it again Gorilla parents swing hug and give bouncy rides to their children And elephants have been known to lie in wait for a companion to come strolling along then BAROOM roll downhill to bowl them over like a friendly ball Join Richard Haynes and Stephanie Laberis creators of Orangutan Hats and Other Tools Animals Use for another illuminating walk on the wild side Scientific observations from the natural world a glossary and a bibliography combine with colorful and vivacious illustrations to make this guide an extra fun look at fun **Colonizing**

Animals Jonathan Saha, 2021-11-11 Animals were vital to the British colonization of Myanmar In this pathbreaking history of British imperialism in Myanmar from the early nineteenth century to 1942 Jonathan Saha argues that animals were impacted and transformed by colonial subjugation By examining the writings of Burmese nationalists and the experiences of subaltern groups he also shows how animals were mobilized by Burmese anticolonial activists in opposition to imperial rule In demonstrating how animals such as elephants crocodiles and rats were important actors never fully under the control of humans Saha uncovers a history of how British colonialism transformed ecologies and fostered new relationships with animals in Myanmar Colonizing Animals introduces the reader to an innovative historical methodology for exploring interspecies relationships in the imperial past using innovative concepts for studying interspecies empires that draw on postcolonial theory and critical animal studies **Elephants Are Not Picked from Trees** Liv Emma Thorsen, 2014-08-29

Elephants are not picked from trees are the words of Swedish taxidermist and conservator David Sjolander spoken while he was in Angola looking for a fine bull elephant specimen in the autumn of 1948 At the age of 62 Sjolander was to satisfy his life's dream of shooting the elephant he for so long had wished to prepare and exhibit The African elephant was to be the main attraction in the Mammal Room of the Gothenburg Museum of Natural History Liv Emma Thorsen professor of cultural history has reconstructed the collection history of four mammals exhibited in the Gothenburg Museum of Natural History that attracted much attention when they were displayed to the public for the first time The elephant gorilla Tonkean macaque and walrus The book examines how the museum acquired animals for its exhibits from 1906 to 1948 and how living animal bodies became museum exhibits Using photographs and documents from the Gothenburg Museum of Natural History the book shows that these museums are in possession of valuable material for writing the cultural history of animals and that

the museums of natural history display a nature that is historically socially and culturally construed

The Presence of Elephants Paul G. Keil, 2024-10-14 How to dwell in a forest alongside giants avoid disturbing a living god assist an animal with their manners and help an elephant cross the road The Presence of Elephants is an anthropological consideration of coexistence grounded in people's everyday interactions with Asian elephants Drawing on two years of ethnographic fieldwork in Assam Northeast India this book examines human elephant copresence and how minds tasks identities and places are shared between the two species Sharing lives and landscapes with such formidable beings is a continuously shifting and negotiated exchange inherently composed of tensions asymmetries and uncertainties especially in the Anthropocene when breakdowns in communication increasingly have a violent effect Developing a multifaceted picture of human elephant relations in a postcolonial setting each chapter focuses on a different dimension of encounter where elephants adapt to human norms people are subject to elephant projects and novel interspecies possibilities emerge at the threshold of nature and society Vulnerability is a common experience intensified in contemporary human elephant relations felt through the elephant's power to disrupt and transform human lives as well as the risks these endangered animals are exposed to This book will be of interest to scholars of multispecies ethnography and human animal relations environmental humanities conservation and South Asian studies

War Elephants Sabine Lorca, AI, 2025-03-29 War Elephants explores the fascinating history of elephants in ancient warfare highlighting their initial dominance and eventual decline These massive animals often armored and bearing armed riders were once a formidable tactical asset The book reveals intriguing details such as how some cultures invested heavily in elephant domestication and training while others developed specialized anti elephant tactics to neutralize their impact The book progresses chronologically beginning with the natural history of elephants and their suitability for war It then examines their use in significant battles and campaigns from Alexander the Great's encounters to Hannibal's daring crossing of the Alps Finally it analyzes the factors that led to their obsolescence including logistical challenges and new military technologies This study uniquely examines the ecological and economic context surrounding the use of war elephants detailing the resources needed for their upkeep and deployment By combining historical narrative with scientific insights War Elephants provides a comprehensive account of these magnificent creatures as instruments of war appealing to military history enthusiasts and anyone interested in the intersection of humans animals and conflict

Why Elephants Cry John T. Hancock, 2023-05-29 Why Elephants Cry is a fascinating frolic through the literature and evidence surrounding the use of unusual behavior of animals to measure and predict the environment The role of animals from the smallest ant to the biggest elephant as predictors of environmental changes is framed around the climate crisis which highlights the increasingly important part that animals will have to play in the future Renowned biologist Professor John T Hancock collects anecdotal stories and myths along with scientific evidence demonstrating that observation of animals can be of tangible use He looks at the measurement of the air temperature using ants crickets and snakes and

goes on to assess the evidence that the observation of a wide range of animals can predict the weather or the imminent eruption of volcanoes and earthquakes Evidence of animals being able to predict lunar and solar events such as lunar cycles and the Northern Lights is also considered This is the only time that all this literature has been brought together in one place a fascinating reference for anybody interested in animals and the environment The book is also an ideal supplementary textbook for students studying animal behaviour Animals and Greek Cinema Nikitas Fessas, 2025-05-02 This book offers a non anthropocentric account of a national cinema Drawing on cutting edge developments in Animal film studies the book gathers a wide range of species and genres to discuss the Greek cinematic animal This entails recalibrating the readers viewers gazes to include particular nonhumans often displaced in the frame s margins While acknowledging the cost paid in animal suffering for Greek cinema to rise the book features instances of animal human bonding Combining close readings with interviews with directors human actors screenwriters cinematographers producers special effects artists and animal wranglers this book proposes a paradigm of human animal praxis arguing that revisiting nonhuman images can lead to renewed ethical relations and to less speciesist cinemas film industries and societies *Humans in an Animal's World - How Non-Human Animals Perceive and Interact with Humans* Christian Nawroth, Luigi Baciadonna, Nathan J. Emery, 2021-10-20

Captive Ambassadors: The Hidden Lives of Zoo Animals Eve D'Vincent, 2025-09-25 Captive Ambassadors challenges the notion of zoo animals as ambassadors for their species revealing the exploitative marketing tactics behind their individualized narratives Drawing on cognitive and behavioral ethology transspecies psychology and critical anthropomorphism this multidisciplinary work exposes how zoos fabricate biographies to mask the harsh reality of animals lived experiences in captivity It critiques the disruptions of animal culture caused by captive breeding programs and the tragic fate of surplus animals deemed no longer useful Advocating for authentic animal biographies and ethical engagement this book argues for a shift in human animal relations that honors animals as unique individuals with intrinsic value transcending the confines of their captive roles Animal Playmates: Celebrating Festivals and Holidays in Honor of the Animal Kingdom Matthew Love, Escape into a world where animals are revered and celebrated through a myriad of festivals and holidays Explore ancient traditions that honor the bond between humans and animals from colorful processions in India dedicated to elephants to enchanting ceremonies in Thailand for monkeys Learn about the significance of these rituals in different cultures and discover the unique ways in which animals are cherished and respected around the world Delve into the rich history behind animal centered celebrations such as the blessing of pets on St Francis of Assisi Day and the vibrant Day of the Dead festivities in Mexico where dearly departed pets are remembered and honored Witness the beauty of nature s creatures being celebrated through art music dance and food highlighting the deep connection between people and the animal kingdom Join in on the joy and merriment of festivals like the Running of the Bulls in Spain and the Kukur Tihar festival in Nepal where dogs are adorned with garlands and offered treats as a symbol of their loyalty and companionship

Dive into the heartwarming stories of rescued animals being pampered and showered with love during special events showcasing the power of compassion and the importance of animal welfare Discover the spiritual significance behind animal festivals where divine creatures are worshipped and protected as embodiments of gods and goddesses Uncover the mystical beliefs and folklore surrounding animals in different cultures shedding light on the sacred connections and symbolic meanings attributed to various species Embark on a journey of discovery and celebration as you immerse yourself in the world of holidays for animal lovers Through beautifully illustrated pages and insightful narratives this book honors the majesty grace and sheer wonder of our beloved animal counterparts **Animals and Courts** Mark Hengerer, Nadir

Weber, 2019-12-16 Early modern princely courts were not only inhabited by humans but also by a large number of animals This coexistence of non human living beings had crucial impacts on the spatial organization the social composition and cultural life at these courts The contributions enrich our knowledge on another aspect of court life and invite to reconsider our basic understandings of court courtiers and court society *Elephant Slaves and Pampered Parrots* Louise E.
