Nox Philologiae Erik Gunderson, 2009-01-15 In this strikingly original and playful work, Erik Gunderson examines questions of reading the past, an enterprise extending from antiquity to the present day This esoteric and original study focuses on the equally singular work of Aulus Gellius, a Roman author and grammarian ca. 120-180 A.D., possibly of African origin Gellius's only work, the twenty-volume *Noctes Atticae*, is an exploding, sometimes seemingly random text, cum diary in which Gellius jotted down everything of interest he heard in conversation or read in contemporary books Comprising notes on Roman and classical grammar, geometry, philosophy, and history, it is a one-work overview of Latin scholarship, thought, and intellectual culture, a combination condensed library and cabinet of curiosities Gunderson tackles Gellius with exuberance, placing him in the larger culture of antiquarian literature Purposely echoing Gellius's own swooping word play and digressions, he explores the techniques by which knowledge was produced and consumed in Gellius's day as well as in our own time The resulting book is as much pure creative fun as it is a major work of scholarship informed by the theories of Michel Foucault, Gilles Deleuze, and Jacques Derrida
