Effective Classroom Teamwork:

Effective Classroom Teamwork Gary Thomas, 2002-03-11 The nature of classroom practice is undergoing change as more and more adults are being brought into classrooms in response to such trends as parental involvement and the integration of children with special educational needs. The parents, teachers, ancillary staff and support workers comprising these new groups probably fail to recognise themselves as teams but nonetheless they are characterised by the same stresses which mark teamwork in any other setting. This book is a guide to working together as an effective team designed to show that they are part of a team and employ strategies to minimise chances of failure. Gary Thomas identifies key areas of concern including poor communication, status barriers and inadequate role definition and offers guidelines for dealing with these stresses and tensions in teamwork.

Effective Classroom Teamwork Gary Thomas, 1992-01-01 A guide for parents, teachers, ancillary staff and support workers that work together as a team in the classroom designed to show that they can function together with great success if team members recognize that they are part of a team and employ strategies to minimize chances of failure.

The Practical Guide to Special Educational Needs in Inclusive Primary Classrooms Richard Rose, Marie Howley, 2006-12-19 A well written and thought provoking book for teachers. It offers many ideas to improve inclusive practice in primary schools to the benefit of all pupils, not only those with additional or different learning needs. Special magazine. Written for newly qualified teachers and students approaching the end of their training courses, this practical and accessible text is an introduction to working with children of a range of abilities in inclusive primary classrooms. The book draws on recent research and innovation in the education of pupils with special educational needs to provide practical examples and advice on how to meet the challenges of developing effective teaching and learning in inclusive settings. Chapters cover becoming an inclusive teacher, pupils giving cause for concern, teaching and learning styles, creating inclusive classroom environments and teaching teams, learning from pupils looking beyond school, developing further as a professional. With advice on building positive attitudes, developing specific teaching strategies and adapting a personalising teaching approach, the book helps teachers to build upon their earlier training in both practical and reflective ways. Richard Rose is Professor of Special and Inclusive Education and Director of the Centre for Special Needs Education and Research at University College Northampton.
