Onboard Generation Z at Entry-Level Dr. Assefa Belay Wondim, 2024-12-12 Forward Looking Practices to Onboard Generation Z at Entry Level depicts the doctoral study of Dr Assefa Belay Wondim conducted at Capella University The doctoral study is about the identification of a set of forward looking practices to effectively onboard Gen Z new employees at the entry level as viewed by a nationwide panel of human resource policy experts and the determination of the extent to which there was a consensus of opinion among these experts as to the desirability feasibility and importance of these practices The outcome and findings of the project could have significance for practitioners and business organizations engaged in onboarding Gen Zs as well as for the body of knowledge in the field of HRM The project findings could serve as a blueprint on how to manage the talent of Gen Zs by understanding and aligning the work needs values and expectations of Gen Zs for onboarding with organizational onboarding practices The talent management of Gen Z might through effective onboarding practices contribute to a reduction in employee turnover which in turn could result in onboarding cost reduction and an increase in productivity for the organization Although the doctoral study findings primarily relate to the IT industry the project outcomes could also be applied to other business organizations to minimize employee turnover reduce onboarding costs and increase new hires productivity The utility of the consensus based desirable and feasible solutions may go beyond onboarding Gen Z new employees The experts have expressed their 100% confidence in the utility of the consensus based desirable and feasible solutions for onboarding new employees across generations About the Author Dr Assefa Belay Wondim is a former employee of the United Nations Organization During his long service with the Organization Dr Wondim has accumulated rich knowledge in intergovernmental socio economic peace and security and administrative affairs During his tenure with the UN he excelled in research and development project management human resource management strategic planning and execution team building leadership and administration Dr Wondim is member of the National Association of African Americans in Human Resources NAAHR the global and Jacksonville Florida chapters of the Society of Human Resource Management SHRM and SHRMJAX and the Xi Delta chapter Capella University of the Delta Mu Delta International Honor Society in Business Dr Wondim obtained a BSc degree in Mathematics and MSc degree in Demography in Ethiopia He also obtained a Doctor of Business Administration degree in human resource management in the USA Dr Wondim has written

an autobiography book titled Zantai My Life Story He is happily married and blessed with four successful children The Impact of Shared Vision on Leadership, Engagement, and Organizational Citizenship Richard Eleftherios Boyatzis, Kylie Rochford, Scott N. Taylor, 2015-10-28 According to management and psychology courses as well as legions of consultants in organizational psychology shared vision in dyads teams and organizations can fill us with hope and inspire new possibilities or delude us into following false prophets However few research studies have empirically examined the impact of shared vision on key organizational outcomes such as leadership effectiveness employee engagement organizational citizenship coaching and organizational change As a result the field of organizational psychology has not yet established a causal pattern of whether if and how shared vision helps dyads teams and organizations function more effectively The lack of empirical work around shared vision is surprising given its long standing history in the literature Bennis and Nanus 1982 showed that distinctive leaders managed attention through vision The practitioner literature has long proclaimed that vision is a key to change while Conger and Kanungo 1998 discussed its link to charismatic leadership Around the same time positive psychology appeared in the forms of Appreciative Inquiry Cooperrider Sorensen Whitney Yaeger 2000 and Positive Organizational Scholarship Cameron Dutton Quinn 2003 In this context a shared vision or dream became a legitimate antecedent to sustainable change But again empirical measurement has been elusive More recently shared vision has been the focus of a number of dissertations and quantitative studies building on Intentional Change Theory ICT Boyatzis 2008 at dyad team and organization levels of social systems These studies are beginning to lay the foundations for a systematic body of empirical knowledge about the role of shared vision in an organizational context For example we now know that shared vision can activate neural networks that arouse endocrine systems and allow a person to consider the possibilities of a better future Jack Boyatzis Leckie Passarelli Khawaja 2013 Additionally Boyatzis Akrivou 2006 have discussed the role of a shared vision as the result of a well developed set of factors that produce a desired image of the future Outside of the organizational context positive visioning has been known to help guide future behavior in sports psychology Loehr Schwartz 2003 medical treatment Roffe Schmidt Ernst 2005 musical performance Meister Krings Foltys Boroojerdi Muller Topper Thron 2004 and academic performance Curry Snyder Cook Ruby Rehm 1997 This Research Topic for Frontiers in Psychology is a collection of 14 original papers examining the role of vision and shared vision on a wide variety of desired dependent variables from leadership effectiveness and executive performance to organizational engagement citizenship and corporate social responsibility and how to develop it through coaching *Resources in Education* ,1999-04 **Personnel Literature** United States.
