key issues of our time but it is also one of the most complex riddles of existence This booklet doesn't give simple answers but adds perspectives that deepen the theme offering a picture of its manifold mysteries In three great panoramas the author develops central aspects of the topic beginning with the threefold nature of human individuality followed by an illumination of the cosmic dimension of the ego and finally an encapsulation of the significance of the earthly ego With his usual thoroughness and clarity Sergei O Prokofieff throws light on one of the fundamental questions of our time

Dynamism of Character in Shakespeare's Mature Tragedies Piotr Sadowski, 2003 The theory considers human behavior in terms of functional equilibrium between the stable properties of the mind independent from the pressures of the sociocultural environment and the immediate situational context What we call character thus denotes an autonomous configuration of psychological elements which remains stable despite the changing external circumstances

Transpersonal Psychology in Psychoanalytic Perspective Michael Washburn, 1994-07-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory
