Reshaping Theory in Contemporary Social Work William Borden, 2009-11-05 William Borden's persuasive collection of original essays reaffirms the place of theory in social work practice showing how different theoretical models, therapeutic languages and modes of intervention strengthen eclectic and integrative approaches to psychosocial intervention. A distinguished group of scholars and practitioners examine emerging developments in cognitive theory, psychodynamic thought, resilience research and family therapy, psychobiography and narrative perspectives and conceptions of place and environment in psychosocial intervention. They introduce integrative frameworks for intervention and examine a series of crucial issues in the field including the role of theory in evidence based practice, the development of practice wisdom and the ways in which conceptions of love, acceptance and social justice influence theorizing and practice. The contributors to this volume each one carefully selected reaffirm the framing perspectives and core values of the social work profession and identify fundamental challenges and tasks in developing theory and practice. Exploring contemporary yet no less essential concerns, they reflect the richness and creativity of theorizing in our time. **A Introduction to Teaching Casework Skills**

Jean S. Heywood, 2013-07-04 First published in 1998. This is Volume VI of twenty two in the Sociology of Social Theory and Methodology series. Written in 1964, this is seen as the first study on the teaching of casework skill to be published in this country. It conveys vividly the accepted precepts and principles of casework practice and conveys them simply. Throughout, she has drawn attention to the inter-related processes of study, diagnosis and treatment and has laid stress on the importance of understanding the mechanisms of defence which she rightly considers basic to casework skill. **Social Work Theories in**
