The Last Egyptian Standing Mo Nassah, 2011-12-05 The Last Egyptian Standing The Great Egyptian is produced herein as a written format of a story based around real events that took place before during and following the Egyptian Revolution in the year 2011 The story is mainly from the eyes and angle of one very special young man From before the moments of chaos and rioting began and then hit peak MN80 M HASSAN THE SPECIAL ONE MALE finds his spirit suffering between heart and mind whether or not to accept the life as it is in this day and age and continue his chosen normal life or to just join in with everyone on and off of the streets of Cairo the main city in Egypt during the 2011 Egyptian Revolution At the same time another window of opportunity opens for the possibility to follow his emotional instincts that have been restraining his heart and mind for such a long time now especially from before the 25th of January 2011 early start into the Egyptian Revolution Or also the simple possibility to just sit back and watch everything unfold from the Television at home in the United Kingdom MO NASSAH born in 1980 has written several unpublished novels and dozens of short stories that until this moment in time he felt not to publish and share with this World until now This story and book herein being the first published book from a set series created and written by the Author MO NASSAH He said she said is exactly what happens in this version book and over eighty 80% percent of this book is a true story Hence a reason the words of each character to the Author was is more important for the first book to be written in exactly this way and or form for the reader s of each book to truly appreciate and understand at least some of that to come in the second third and fourth book of this part of the entire MN80 M story series starting as The Last Egyptian Standing The Great Egyptian In 2011 MO NASSAH lives alone in his birth place location the cosmopolitan city of London England United Kingdom From the outspoken and brilliant start until the end of this entire true story the author allows us the readers to enjoy the read as we enter a new World A whole new dimension with real life CHARACTERS and personalities that capture the heart of each reader from the very first chapter when all of the chaos begins in Egypt Full of excitement

passion adventure love envy fear betrayal success murder mystery fantasy and much much more As sad and as happy as  
 some of these events may be to some this is a true story and a part of the History of Mankind now the History of you and I

 geographical route of the exodus in the Bible      **A Passion for Egypt** Julie Hankey,2001-09-27 The biography of Arthur  
 Weigall the British Egyptologist who was involved in the exploration and conservation of the monuments and antiquities of a  
 region stretching from Luxor to the Sudan border At a time when Egypt was being ransacked by private collectors and the  
 agents of Western museums it was said that without Weigall much more would have been lost altogether most notably the  
 wall paintings in the Tombs of the Nobles The enthusiasm and energy of the man and of the books and articles he wrote  
 played a large part in popularising Egypt and Egyptology and in promoting the then radical view that Egypt s antiquities  
 belonged to the Egyptians When in 1922 Tutankhamun s tomb was discovered by his old colleague Howard Carter Weigall  
 came into open conflict with Carter s patron Lord Carnarvon for his handling of the question of rights in the tomb and for his  
 sale of information from it to the London Times Following Carnarvon s premature death in Egypt it was Weigall s remarks to  
 the press that led to the notorious story of the Curse of the Pharaohs a myth that persists to this day Weigall had many  
 talents he also designed theatre scenery made films and wrote novels But his real legacy derives from his passion for Egypt  
 both ancient and modern a passion that informs the whole of his compelling story      Queer Things About Egypt Douglas  
 Brooke Wheelton Sladen,1911 This book is filled with varied information about Egypt Everything is touched upon the people  
 their customs and manner of writing English descriptions of scenery history and social conditions in the manner of a well  
 informed traveler willing to tell all he knows It is an entertaining book and one which a visitor to Egypt could hardly afford to  
 be without especially the seekers of recreation in perusing passages of sprightly talk about things new and old maintained by  
 a man who is likely to have cheered many a table and fireside by his traveler s tales      *History of Egypt, Chalda<sup>3</sup>/<sub>4</sub>a, Syria,  
 Babylonia, and Assyria (Complete)* Gaston Maspero, Professor Maspero does not need to be introduced to us His name is well  
 known in England and America as that of one of the chief masters of Egyptian science as well as of ancient Oriental history  
 and archaeology Alike as a philologist a historian and an archaeologist he occupies a foremost place in the annals of modern  
 knowledge and research He possesses that quick apprehension and fertility of resource without which the decipherment of  
 ancient texts is impossible and he also possesses a sympathy with the past and a power of realizing it which are  
 indispensable if we would picture it aright His intimate acquaintance with Egypt and its literature and the opportunities of  
 discovery afforded him by his position for several years as director of the Bulaq Museum give him an unique claim to speak  
 with authority on the history of the valley of the Nile In the present work he has been prodigal of his abundant stores of  
 learning and knowledge and it may therefore be regarded as the most complete account of ancient Egypt that has ever yet

been published In the case of Babylonia and Assyria he no longer it is true speaks at first hand But he has thoroughly studied the latest and best authorities on the subject and has weighed their statements with the judgment which comes from an exhaustive acquaintance with a similar department of knowledge Naturally in progressive studies like those of Egyptology and Assyriology a good many theories and conclusions must be tentative and provisional only Discovery crowds so quickly on discovery that the truth of to day is often apt to be modified or amplified by the truth of to morrow A single fresh fact may throw a wholly new and unexpected light upon the results we have already gained and cause them to assume a somewhat changed aspect But this is what must happen in all sciences in which there is a healthy growth and archaeological science is no exception to the rule The spelling of ancient Egyptian proper names adopted by Professor Maspero will perhaps seem strange to many But it must be remembered that all our attempts to represent the pronunciation of ancient Egyptian words can be approximate only we can never ascertain with certainty how they were actually sounded All that can be done is to determine what pronunciation was assigned to them in the Greek period and to work backwards from this so far as it is possible to more remote ages This is what Professor Maspero has done and it must be no slight satisfaction to him to find that on the whole his system of transliteration is confirmed by the cuneiform tablets of Tel el Amarna The difficulties attaching to the spelling of Assyrian names are different from those which beset our attempts to reproduce even approximately the names of ancient Egypt The cuneiform system of writing was syllabic each character denoting a syllable so that we know what were the vowels in a proper name as well as the consonants Moreover the pronunciation of the consonants resembled that of the Hebrew consonants the transliteration of which has long since become conventional When therefore an Assyrian or Babylonian name is written phonetically its correct transliteration is not often a matter of question But unfortunately the names are not always written phonetically The cuneiform script was an inheritance from the non Semitic predecessors of the Semites in Babylonia and in this script the characters represented words as well as sounds Not unfrequently the Semitic Assyrians continued to write a name in the old Sumerian way instead of spelling it phonetically the result being that we do not know how it was pronounced in their own language The name of the Chald an Noab for instance is written with two characters which ideographically signify the sun or day of life and of the first of which the Sumerian values were ut babar khis tarn and par while the second had the value of zi Were it not that the Chald an historian B r ssos writes the name Xisuthros we should have no clue to its Semitic pronunciation      *The Traveler's Key to Ancient Egypt* John Anthony West,1995 Information to the art and architecture of the sacred sites of ancient Egypt and of items in the Cairo and Luxor museums also provides coverage of modern Egyptology      The Fortnightly ,1879      **Middle Egyptian** James P. Allen,2000 This book provides a thorough introduction to the writing system of ancient Egypt and the language of hieroglyphic texts It is designed as a textbook for university and college classes and is also suitable for individuals learning ancient Egyptian on their own It contains 26 lessons exercises with answers a list of hieroglyphic signs and a dictionary It

also includes a series of 25 essays on the most important aspects of ancient Egyptian history society religion and literature The combination of grammar lessons and cultural essays allows users not only to read hieroglyphic texts but also to understand them The book gives readers the foundation they need to understand the texts on monuments and to read the great works of ancient Egyptian literature in the original It can also serve as a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other related fields     *A popular commentary on the New Testament* Daniel Denison Whedon,1876     **The Spoken Arabic of Egypt** John Selden Willmore,1905     *Ancient History: a Revised Chronology* Anthony Lyle,2012-05-29 This book is a culmination of that research After trashing his work 10 times and starting over he managed to get a revised chronology that seemed to be more accurate than that being put out by the status quo universities It combines secular world history with Biblical history in a far more even and smoother match than that proposed by former historians who have attempted the same This is his version 12 which doesnt try to match different histories based on dates but rather by matching people and events and then applying revised dates to those events and people This work will call into question the conclusions of historians of the last 200 years about the ancient periods of time and provide an alternative dating for those times It is a World History in that it incorporates the ancient history of India China Japan as well as the traditional Middle Eastern and European societies of ancient times It re evaluates the beginnings of civilization and the solar system refuting common historical and scientific beliefs of the modern world Documents that have previously been written off as Mythology have been re evaluated as well as they give a different perspective of ancient times and what happened back then The use and creation of calendars is an important feature added to this work which is seldom taken into account by modern histories Incorporated in this work are many of the more recent archaeological finds that have yet to be incorporated in status quo works and institutions He makes no apology for the fact that this is Biblically based and the conclusions that have been reached by this work fit very well in Biblical contexts and adds some understanding to the events that took place in the Biblical narratives     **Three Prophetic Days** William Fredrick,1900     The Eye of Ra David Klooz,2020-05-29 a large planet stood above the North Pole for a very long time That is what all the mythology throughout the world uniformly states Mythology from every nation region tribe and period in thousands of languages in hundreds of forms from every continent they all resound a large planet stood above the North Pole for a very long time Every country is accounted for except those located more than 10 degrees below the equator The mythology of regions as far removed from each other as Siberia North Africa and Guatemala all agree As others have indicated I will also suggest that this planet was Saturn and that Saturn was initially a brown dwarf star that created Earth Mars and later Venus In order to put the story into context I will make it abundantly clear that the framework will be based upon plasma physics and the existence of the aether The Solvay Conference founded by the Belgian industrialist Ernest Solvay in 1912 was considered a turning point in the world of physics Located in Brussels the conferences were devoted to outstanding open problems in both physics and

chemistry The most famous conference was the October 1927 Fifth Solvay International Conference on Electrons and Photons where the world's most so called notable physicists met to discuss the newly formulated quantum theory The leading figures were Albert Einstein and Niels Bohr Settled Science and Consensus Science began at this time and it is also the moment we stopped doing real physics in the 20th and 21st centuries The bold theoretical and experimental era of physics by the likes of Maxwell at the very dawn of science as we know it ended abruptly at the start of the 20th Century That was when our currently accepted and very different view of physics everything from the Big Bang Expanding Universe Cosmology to Relativistic limitations imposed by flat space and non simultaneous time complicated by a non intuitive Quantum Mechanics of suddenly uncertain atomic realities all took a very different turn from where they had been headed The quantum theory discarded the basic physics principle of cause followed by effect Einstein was disenchanted with the Heisenberg Uncertainty Principle and created his own fatal damage when his thought experiment made up the theory of relativity He isolated his arbitrary observer from the rest of the universe discarded the absolute standards of length and time invented an imaginary proper clock that does not exist removed the aether and the effect of gravity became an illusion Make sure you understand this was not done using any scientific method i.e. observation experimentation and replication but by what became known as a thought experiment Einstein should have kept his day job in the post office as he has set physics the so called Queen of the Sciences back 100 years This conference was also the culmination of the struggle between Einstein and the scientific realists who wanted strict rules of scientific method as laid out by Charles Peirce and Karl Popper versus Bohr and the instrumentalists who wanted looser rules based on expected outcomes regardless of causes and effects Starting at this point the instrumentalists won instrumentalism having been seen as the norm ever since And that has been the insurmountable problem with science ever since the loss of the scientific method and accepting causes without effects and conversely These are all unforgivable losses to the great physicists of the past We were propelled nearly 2 000 years into past to the Greek Ptolemaic era when geometric symmetry and mathematical beauty dictated that endless the ad hoc epicycles be added to perfect circular planetary orbits in order to match appearances That dogma lasted almost 1500 years How long will we allow relativity dogma and its taboos to persist It should be no surprise that since that fateful conference in 1927 science has failed to produce any fundamental breakthroughs anything like the 19th century when some of the finest experimental physicists such as Ampere Gauss Faraday and Maxwell were discovering the secrets of electricity and electromagnetism The electric universe and plasma physics and cosmology follows the lead of these experimenting electrical pioneers According I will also discard the thought experiments of Einstein and defer to real scientists namely Tesla Maxwell Thornhill and others who long ago recognized that all perceptible matter comes from a primary substance of a tenuity beyond conception and filling all space the Akasha or luminiferous aether which is acted upon by the life giving Prana or creative force calling into existence in never ending cycles all things and phenomena This primary substance thrown into infinitesimal whirls of prodigious

velocity becomes gross matter the force subsiding the motion ceases and matter disappears reverting to the primary substance The structure and nature is most likely a vortex appearing like a donut from above or below What I will attempt to present to you in the book is the real story of our history and the real fact that we and the universe and everything in it is electric in nature I will present facts and evidence that demonstrate that all religions mystery schools the Bible and other religious books are nothing more than a rewritten and edited story of a solar system wide cataclysm A story that was written rewritten and edited to make it appear that Jewish people were the Chosen People of God We will see that all the pyramids especially those on the Giza Plateau were built as an energy gathering converting and storing machines to try to save the Earth and Mankind from the electromagnetic perturbations caused by the Sirius System the Sun's binary twin that occurs approximately every 24 000 years The Great Pyramid was not a weapon and certainly not a death star used to explode planets There has been no atomic wars on Earth and no landings by alien beings on Earth nor on any other planet in our solar system There is no Planet X and there is no Nibiru The so called Planet of the Crossing is actually the star Sirius the Sun's binary twin We will see that all the five visible planets Saturn Mercury Mars Jupiter Venus and the two luminaries the Moon and our current Sun became the Gods with several of them coming down to Earth from the Heavens to write our history only a few thousand years ago We will also see and understand that the vast amount of cratering and channels on all of the planets in our solar system are not the result of random meteor or comet strikes wind or water erosion but are the results of electrical arcing between planets that has scarred the surface of the planets and has been demonstrated and replicated in exact detail in plasma laboratories We will examine the Exodus within the context of the Earth in upheaval from a natural solar system wide cataclysm and how Akhenaton Moses and the Ark are main characters in the event We will also examine Mount Sinai and its real identity and location as well as the Sacred Stone's its use who stole them and why This story does not depend on miracles or faith but is based upon evidence both ancient and current It is our genuine history that has been kept from us in order to maintain control by those in power If you can not see the truth in this story and you want to believe in religions or the current false consensus or settled science you must believe them in one of three ways by faith by ignorance or by indoctrination by faith because you cannot believe something which does not have adequate scientific evidence except as a philosophical viewpoint by ignorance because the only way to be certain in your mind that these theories could work is because you do not have all the facts or if you have been so far indoctrinated you have not made a logical conclusion with your own rational mind you may have never even tried to question what you have been told to believe You must decide for yourself what you will believe If you decide to believe in today's biblical religious myths or consensus and settled pseudoscience of the quackademics and media that is fine just realize that none are supported by true science using the Scientific Method They are myths and not even good ones at that Just remember believing this nonsense and everything else the authorities say is just what they want i.e. no change in the status quo and leave the thinking to them

**Revised Chronology of the Bible** Anthony Lyle, 2013-10 This book is a culmination of that research After trashing his work 10 times and starting over he managed to get a revised chronology that seemed to be more accurate than that being put out by the status quo universities It combines secular world history with Biblical history in a far more even and smoother match than that proposed by former historians who have attempted the same This is his version 12 which doesn't try to match different histories based on dates but rather by matching people and events and then applying revised dates to those events and people This work will call into question the conclusions of historians of the last 200 years about the ancient periods of time and provide an alternative dating for those times It is a World History in that it incorporates the ancient history of India China Japan as well as the traditional Middle Eastern and European societies of ancient times It re evaluates the beginnings of civilization and the solar system refuting common historical and scientific beliefs of the modern world Documents that have previously been written off as Mythology have been re evaluated as well as they give a different perspective of ancient times and what happened back then The use and creation of calendars is an important feature added to this work which is seldom taken into account by modern histories Incorporated in this work are many of the more recent archaeological finds that have yet to be incorporated in status quo works and institutions He makes no apology for the fact that this is Biblically based and the conclusions that have been reached by this work fit very well in Biblical contexts and adds some understanding to the events that took place in the Biblical narratives
