Institutional Reform & Economic Development in Egypt Noha El-Mikawy, Heba Ahmad Handoussa, 2002 This pioneering volume addresses the key issue of the relationship between politics and economics with special reference to Egypt in the 1990s Drawing on the expertise of both political scientists and economists it assembles an impressive array of data including detailed opinion surveys to demonstrate conclusively that political and economic reform need to proceed in tandem In an insightful analysis of the Egyptian legislature the authors draw attention to a fundamental aspect of institutional reform namely the informational and knowledge base of legislation as well as the organizational infrastructure of policy formulation As regards Egypt's economic performance since the early 1990s they focus in particular on impediments to improved export performance and offer solid recommendations as to how such obstacles might be overcome This stimulating study makes a timely contribution to political economic analysis which may at the same time prove helpful in the formulation of new policies

The Portfolio ,1877 *Every Traveller Needs a Compass* Neil Cooke,Vanessa Daubney,2015-10-31 A varied and charming collection of 17 papers that bring something new about the people from many countries and backgrounds who traveled to from and within Egypt and the Near East either singly or as a group and explored observed and recorded or stayed for a short period of time to improve their health or simply to enjoy the experience While some travelers kept a diary or journal that has survived until today others did not Their travels have to be extracted from the wide range of manuscript sources that are thankfully retained in libraries and archives or which still remain with their descendants Sometimes the name of a traveler is only contained in a few words within a single piece of correspondence or journal entry yet from such small beginnings and through detective work to link the chance meetings between travelers with a location or news of a shared event it is often possible to chart part of a traveler s journey and bring to life a person who has long been forgotten These minor characters and their travails often bring a new perspective to well known places and events **Publications of the Egyptian Research Account** ,1911 *Minerals Yearbook* ,2008 **Bulletin of the New York Public Library** New York Public Library,1916 Includes its Report 1896 19 **Luzac's Oriental List and Book Review** ,1919 **A Companion to Greco-Roman and Late Antique Egypt** Katelijn Vandorpe,2019-03-19 An authoritative and multidisciplinary Companion to Egypt during the Greco Roman and Late Antique period With contributions from noted authorities in the field A Companion to Greco Roman and Late Antique Egypt offers a comprehensive resource that covers almost 1000 years of Egyptian history starting with the liberation of Egypt from Persian rule by Alexander the Great in 332 BC and ending in AD 642 when Arab rule started in the Nile country The Companion takes a largely sociological perspective and includes a section on life portraits at the end of each part The theme of identity in a multicultural environment and a chapter on the quality of life of Egypt s inhabitants clearly illustrate this objective The authors put the emphasis on the changes that occurred in the Greco Roman and Late Antique periods as illustrated by such topics as Traditional religious life challenged Governing a country with a past between tradition and innovation and Creative minds in theory and praxis This important resource Discusses how Egypt became part of a globalizing world in Hellenistic Roman and Byzantine times Explores notable innovations by the Ptolemies and Romans Puts the focus on the longue dur e development Offers a thematic and

multidisciplinary approach to the subject bringing together scholars of different disciplines Contains life portraits in which various aspects and themes of people s daily life in Egypt are discussed Written for academics and students of the Greco Roman and Late Antique Egypt period this Companion offers a guide that is useful for students in the areas of Hellenistic Roman Byzantine and New Testament studies **The Portfolio**, 1883 Investment Portfolio Selection Using Goal Programming Rania Azmi,2014-10-16 This book provides both practitioners and academics with a scientific approach to portfolio selection using Goal Programming an approach which is capable as far as is possible of achieving a required set of preferences deemed appropriate by a decision maker Goal Programming is perhaps the most widely used approach in the field of multiple criteria decision making that enables the decision maker to incorporate numerous variations of constraints and goals The original portfolio selection problem with risk and return optimisation can be viewed as a case of Goal Programming with two objectives Additional objectives representing other factors such as liquidity can be introduced for a more realistic approach to portfolio selection problems This book comes in a time where scientific frameworks for investment decision making are absolutely necessary that is after the recent financial and economic crisis where irrational decisions and a misuse of mathematical models had equally fed into the spiral of the financial crisis The real world decision problems are usually changeable complex and resist treatment with conventional approaches Therefore the optimisation of a single objective subject to a set of rigid constraints is in most cases unrealistic and that is why Goal Programming was introduced in an attempt to eliminate or at least mitigate this shortcoming Most mathematical models are based on very strong theoretical assumptions which are not entirely respected by markets in practice In contrast Goal Programming models are based on real world cases where the most feasible solution is sought as opposed to an ideal simplified solution Therefore this book provides practitioners with a new and superior scientific framework for investment decision making while aiming to stimulate further research and development Moreover the book provides scientific approaches for portfolio selection with Goal Programming which will provide added value for practitioners in complementing their financial expertise with a sound scientific decision making framework *Topographical Bibliography of Ancient Egyptian Hieroglyphic Texts, Reliefs, and Paintings: Upper Egypt: Chief temples (Excluding Thebes), Abydos, Dendere, Esna, Edfu, Kôm Ombo, and Philae* Bertha Porter,1960
