

The diagram illustrates a closed-loop hydronic heating system. A central boiler, represented by a large rectangle with a light blue center and a dark blue border, is the core component. It has two main sections: a top section with a light blue background and a bottom section with a dark blue background. Arrows indicate a clockwise flow of water. On the left side, a vertical pipe leads up to a radiator (top section) and then down to another radiator (bottom section). On the right side, a vertical pipe leads down from the boiler's top section to a radiator and then up to the boiler's bottom section. A return line at the bottom connects the two radiators, passing through a valve symbol. A large, light blue trapezoidal shape is positioned below the boiler, with five arrows pointing downwards towards it. The entire system is enclosed in a dark blue rectangular frame.
