Stitching the World: Embroidered Maps and Women's Geographical Education Judith A. Tyner, 2016-12-05 From the late eighteenth century until about 1840 schoolgirls in the British Isles and the United States created embroidered map samplers and even silk globes Hundreds of British maps were made and although American examples are more rare they form a significant collection of artefacts Descriptions of these samplers stated that they were designed to teach needlework and geography The focus of this book is not on stitches and techniques used in drafting the maps but rather why they were developed how they diffused from the British Isles to the United States and why they were made for such a brief time The events of the late eighteenth and early nineteenth centuries stimulated an explosion of interest in geography The American and French Revolutions the wars between France and England the War of 1812 Captain Cook s voyages and the explorations of Lewis and Clark made the study of places exciting and important Geography was the first science taught to girls in school This period also coincided with major changes in educational theories and practices especially for girls and this book uses needlework maps and globes to chart a broader discussion of women s geographic education In this light map samplers and embroidered globes represent a transition in women s education from accomplishments in the eighteenth century to challenging geographic education and conventional map drawing in schools and academies of the second half of the nineteenth century There has been little serious study of these maps by cartographers and moreover historians of cartography have largely neglected the role of women in mapping Children's maps have not been studied although they might have much to offer about geographical teaching and perceptions of a period and map samplers have been dismissed because they are the work of schoolgirls Needlework historians likewise have not done in depth studies of map samplers until recently Stitching the World is an interdisciplinary work drawing on cartography needlework and material culture This book for the first time provides a critical analysis of these artefacts showing that they offer significant insights into both eighteenth and nineteenth century geographic thought and cartography in the USA and the UK and into the development of female education Stitching Threads of Wonder: Embroidered Tapestries of Our World Pasquale De Marco, 2025-05-16 Embark on a captivating journey into the world of embroidered tapestries where threads transform into tales and stitches speak of cultural heritage Stitching Threads of Wonder is a celebration of the artistry diversity and symbolism of embroidery from around the globe Within these pages you ll discover the exquisite embroidery traditions of Asia where intricate designs and vibrant colors tell stories of ancient legends and spiritual beliefs Marvel at the intricate beadwork and embroidery of Native American tribes where every pattern holds a sacred meaning and every stitch carries a prayer The vibrant threads of

African embroidery will captivate you with their bold expressions of identity and cultural pride Venture into the vibrant world of Latin American embroidery where colorful threads dance to the rhythm of salsa and mariachi music The intricate designs of Middle Eastern embroidery will transport you to a realm of exotic beauty and symbolism while the vibrant colors of Australian Aboriginal embroidery will introduce you to the Dreamtime stories woven into each stitch From the elegant needlework of French chateaux to the intricate designs of Scandinavian folk art European embroidery showcases the diversity and artistry of a continent steeped in history and tradition Discover the enduring power of embroidery to connect people across time and space as embroidered tapestries serve as windows into the souls of those who created them Stitching Threads of Wonder is an invitation to appreciate the beauty and artistry of human expression through the lens of embroidery With stunning visuals and captivating storytelling this book is a must have for anyone interested in textile arts cultural heritage and the enduring power of creativity If you like this book write a review on google books
