Elemental Mind Nick Herbert, 1993 **Tilopa's Mahamudra Upadesha** Sangyes Nyenpa Rinpoche, 2025-11-04 All lineages of Mahamudra meditation have their source in a verse teaching a song of realization sung by the Mahasiddha Tilopa to his disciple Naropa on the banks of the Ganges River more than a thousand years ago Since that time the meaning of Tilopa's instructions has been passed directly from master to disciple in a continuous stream that exists unbroken to this day This book offers the reader a rare glimpse into the Mahamudra oral transmission given in a traditional Tibetan context by one of the lineage's most learned and accomplished contemporary masters Mahamudra meditation while highly advanced is yet simple practical and accessible for anyone because what is identified and meditated upon is the very nature of one's own mind In Sangyes Nyenpa Rinpoche's words The distinction between deception and liberation lies in whether we understand the ever present nature of our own mind or not Knowing our own face is liberation not knowing our own face is samsara This is not something far distant from us The instructions are ideal for Westerners because the root text is manageable and Rinpoche has provided an outline of his own composition that makes it easily understandable He explains terminology with frequent comparisons between Dzogchen and Mahamudra quotes prolifically from scripture gives clear examples and generally cajoles admonishes and encourages his listeners to be true to their own spiritual path *The Origin and Nature of Mind (HB)* Leonard Wilson, Jr. M. fears for the future of humanity While wisdom gleaned from such seemingly disparate sources as science philosophy religion and spirituality might appear very very different things Grossinger nevertheless finds their meeting place in subjective lived experience Dark Pool of Light, Volume One Richard Grossinger,2012-08-21 In books like Embryogenesis and Embryos Galaxies and Sentient Beings author Richard Grossinger brought together the subjects of biological embryology and the esoteric process of human consciousness becoming embodied The embryo is the universe writing itself on its own body In Dark Pool of Light his latest creation Grossinger weaves neuroscience based behaviorism and the phenomenology of being and reality together with psychological and psychospiritual views of that single thing which is most difficult to understand or vindicate our own existence In 2008 Grossinger began studying with noted psychic teacher John Friedlander who helped him refine his vision of cerebral and somatic awareness to still subtler levels Dark Pool of Light began unnamed in the journals of my psychic work with John Friedlander says Grossinger not so much a record of actual practices as insights from them and extensions out of them An expansive inquiry into the nature of consciousness the series examines the tension between the scientific and philosophical and psychic views of the same phenomena and includes field notes and experiential exercises that invite the reader to make their own explorations Dark Pool of Light is divided into three volumes which the author calls movements the allusion to music is apt for the book unfolds in a truly symphonic manner In Volume 1 Grossinger begins with the scientific and philosophical analytical views of reality exploring the science parascience philosophy and psychology of consciousness Covering topics as diverse as current discoveries in neuroscience and the philosophy of the ancient Greeks the book gives a broad overview of the bodies of knowledge concerning the nature of reality and consciousness **The Kybalion: A Study of The Hermetic Philosophy of Ancient Egypt and Greece** Three Initiates, Not exactly what it says on the tin Despite the subtitle the Kybalion introduces streams of thought that were never present in the hermetic philosophy of Ancient Greece and Egypt But the occult is a living system subject to enlargement and change and this work remains worth study **The Hermetic Wisdom of the Kybalion** tenzin gyurme,2010-04-28 Down through the Ages Hermes has been considered the Ancient Master of all Meta Physical Principles This book is the re introduction of these principles into the gnosis or knowing of the Western Mind The daily application of these Principles could lead the practitioner to a place of personal mastery **The Man Who Could Fly** Michael Grosso,2015-12-14 St Joseph of Copertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind s power over his body he was able to levitate Throughout his priesthood St Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses including many skeptics Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy Grosso draws upon contemporary explorations into cognition the relationship between the human mind and body and the scientifically

recorded effects of meditation and other transcendent practices to reveal the implications of St Joseph's experiences and abilities
